Why Natural?

Scientists have found that certain plants produce compounds that help to defend against insects. SENTRY Natural Defense® Natural Flea & Tick Squeeze-On for Cats & Kittens combines the natural insecticidal power from these plants to effectively kill and repel fleas, ticks and mosquitoes on your cat.

Not only are these natural pesticides effective, but they are safe to use around your family and pets.

NET CONTENTS: 8.0 mL (0.28 fl oz)
Four 2.0 mL (0.07 fl oz) Applicators
How to Apply:

1. Separate one tube from the strip by tearing at the perforation.
2. With the tube pointing up and away from the face and body, cut off the narrow end at the notches with scissors.
3. While holding the cat with one hand use the other to apply the solution. Invert the tube and use the narrow end to help part the cat's hair. Apply directly on the skin.
4. Apply as a stripe starting high on the back of the cat's neck, ending directly in front of the shoulder blades.

Application Calendar:

Keep track of when you applied SENTRY Natural Defense® Natural Flea & Tick Squeeze-On for Cats & Kittens to your cat. It is important to use this product monthly, but it can be used more often if your cat is in a highly infested environment. Do not apply more often than once every two weeks.

Precautionary Statements:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION - KEEP OUT OF REACH OF CHILDREN

TO HUMANS: Wear protective eyewear to avoid contact with eyes. Wear gloves and wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

TO DOMESTIC ANIMALS: Do not apply product directly in or on eyes, mouth, nose or genitals of cats. Do not use on or cause exposure to kittens under 12 weeks of age. Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing cats. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe the cat with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID:

IF IN EYES - Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOTLINE NUMBER

For help with your questions, call 1-800-847-8436. For emergency medical treatment information, call 1-800-847-8436. If your pet is ill or having trouble breathing, call your veterinarian immediately or go to your nearest emergency veterinary hospital.

Storage and Disposal:

Store in a cool, dry place. Do not mix or store with pesticides or other chemicals. Discard any unused portion of the solution. Do not contaminate water sources, livestock feeds, or sewers. Do not expose food or food bowls to the solution. Do not contaminate water sources.
