### SUNBURST NO-BAC

**Graser: Gruber, Balk, Nelson, Miron, Mikulas, Martin.**

**Suppliers:** Gruber, Balk, Nelson, Miron, Mikulas, Martin.

**Pesticide or Environmental Control Agency:** The Wisconsin State Division of Health.

**Sold by:** ... (details not provided).

**Active Ingredients:** Alkyl (C12 68%, C14 32%) dimethyl ethylbenzyl dimethyl ammonium chloride.

**Precautionary Statements:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DIRECTIONS FOR USE**

- For sanitation of hard, non-porous food contact surfaces, use solution of 1 ounce of this product per 1 gallon of water. Apply by cloth, sponge, mop, brush, auto scrubber, or mechanical spray equipment. Flood the area with appropriate ppm active solution of this product for at least 1 minute, making sure to immerse completely. Thoroughly drain all sanitized articles before reuse.

**STORAGE AND DISPOSAL**

- Store only in original container. Keep this product under locked storage carefully protected. Do not use this product to clean or disinfect utensils, glassware, dishes or interior of cooking appliances.

**DANGER:** IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.

**FIRST AID**

- Get medical assistance if you feel unwell. Call your doctor or local emergency department immediately.

**PHYSICAL OR CHEMICAL HAZARDS**

- Use this product as directed. Do not inhale or swallow the solution. Keep out of reach of children and pets.

**DISPOSAL OF RINSE WATER**

- Rinse all surfaces according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Wisconsin State Division of Health for disposal information. Repeat this procedure two more times. Then offer for recycling if available or dispose of in approved waste disposal facility.

**INSTRUCTIONS FOR RINSE WATER DISPOSAL**

- Do not contaminate water, food, or feed by storage and disposal. Apply only to PRESANITIZED* hard, non-porous surfaces, provided that the surfaces are adequately drained before contact with food so that little or no product remains. For mechanical application, use solution must not be reused for sanitizing applications.

**DIRECTIONS FOR USE**

- For sanitation of hard, non-porous food contact surfaces, use solution of 1 ounce of this product per 1 gallon of water. Apply by cloth, sponge, mop, brush, auto scrubber, or mechanical spray equipment. Flood the area with appropriate ppm active solution of this product for at least 1 minute, making sure to immerse completely. Thoroughly drain all sanitized articles before reuse.

**Environmental HAZARDS**

- For use in homes, hospitals, hotels, motels, schools, animal processing plants and other non-medical facilities:
  - Flood the area with appropriate ppm active solution of this product for at least 1 minute, making sure to immerse completely. Thoroughly drain all sanitized articles before reuse.

- For mechanical application, use solution must not be reused for sanitizing applications.

**DANGER:** IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.

- Do not contaminate water, food, or feed by storage and disposal. Apply only to PRESANITIZED* hard, non-porous surfaces, provided that the surfaces are adequately drained before contact with food so that little or no product remains. For mechanical application, use solution must not be reused for sanitizing applications.
FOOD CONTACT SANITIZING DIRECTIONS

KEEP OUT OF REACH OF CHILDREN
DANGER/PELIGRO:

For use on hard, non-porous surfaces. Apply use solution of 1 ounce of this product per 1 gallon of water (703 ppm active) and with a 10-minute contact time, this product is bactericidal according to the Public Health Service "Methods for Testing of Antimicrobial Activity of Disinfectants and Antiseptics for Use on Human Skin" for the following microorganisms: Bacillus subtilis var. natto, Micrococcus luteus, Staphylococcus epidermidis, Pseudomonas aeruginosa, Escherichia coli O157:H7, Enterococcus faecalis, Enterococcus faecium, Salmonella enterica, Salmonella enteritidis and Listeria monocytogenes. This product is not for use on Medical device surfaces.

For spray applications, spray 6 to 8 inches from surface. Do not breathe spray. Rub with brush, cloth, mop, sponge, auto scrubber, or mechanical spray device or by immersion so as to wet all treated surfaces completely. Allow surface to remain wet for 10 minutes after wiping. IF SPRAY IS TO BE USED ON ELECTRICAL OR ELECTRONIC EQUIPMENT: Flood the area with appropriate ppm active solution of this product for at least 1 minute, allowing the treated surfaces to remain wet for 10 minutes after wiping.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DISINFECTION PERFORMANCE IN INSTITUTIONS (Hospitals, Nursing Homes, and Other Health Care Facilities): For disinfection, this product is effective against: Acinetobacter baumannii, Bordetella bronchiseptica, Campylobacter jejuni, Corynebacterium diphtheriae, Escherichia coli O157:H7, Enterococcus faecalis, Enterococcus faecium, Haemophilus influenzae, Klebsiella pneumoniae, Listeria monocytogenes, Mycobacterium avium, Mycobacterium tuberculosis, Pasteurella multocida, Pseudomonas aeruginosa, Salmonella enterica, Salmonella enteritidis, Salmonella typhi, Staphylococcus aureus, Staphylococcus epidermidis and Streptococcus pyogenes. This product is toxic to fish. This product is not for use on Medical device surfaces.

BACTERICIDAL PERFORMANCE: This product is effective against the following bacterial strains: Acinetobacter baumannii, Pseudomonas aeruginosa, Staphylococcus aureus (VISA), Staphylococcus aureus (MRSA), Staphylococcus aureus (TSC), Streptococcus pyogenes, Streptococcus salivarius, Enterococcus faecalis, Enterococcus faecium and Micrococcus luteus.

VIRUCIDAL PERFORMANCE: For HIV only, leave hard, nonporous surfaces wet for 2 minutes. For all other viruses, surfaces should be left wet for 10 minutes.

This product is toxic to fish. This product is not for use on Medical device surfaces.

HABITAT, USE LEVEL, AND DURATION OF EFFECTIVENESS: For disinfection, the use level (703 ppm active) and with a 10-minute contact time, this product is bactericidal according to the Public Health Service "Methods for Testing of Antimicrobial Activity of Disinfectants and Antiseptics for Use on Human Skin" for the following microorganisms: Bacillus subtilis var. natto, Micrococcus luteus, Staphylococcus epidermidis, Pseudomonas aeruginosa, Escherichia coli O157:H7, Enterococcus faecalis, Enterococcus faecium, Salmonella enterica, Salmonella enteritidis and Listeria monocytogenes. This product is not for use on Medical device surfaces.

For spray applications, spray 6 to 8 inches from surface. Do not breathe spray. Rub with brush, cloth, mop, sponge, auto scrubber, or mechanical spray device or by immersion so as to wet all treated surfaces completely. Allow surface to remain wet for 10 minutes after wiping.

CONTAINER HANDLING:

For disposal, follow local, state, and federal regulations. Do not pour into lakes, streams, ditches, or public sewers. For disposal of Organic Waste, follow local, state, and federal regulations. Hazardous waste must be disposed of by a licensed hazardous waste transporter.

PESTICIDE DISPOSAL:

This product is toxic to fish. This product is not for use on Medical device surfaces.

If this product is used as a sanitizer in a healthcare environment, it is recommended to use 1 oz. of product per 1 gallon of water for all applications as indicated in this label. This product is toxic to fish. This product is not for use on Medical device surfaces.

PREPARATION OF DISINFECTATION/FUNGICIDAL/VIRUCIDAL USE SOLUTION:

For disinfection, use solution must not be reused for sanitizing applications. Prolonged use of this product may result in resistance of microorganisms to the antimicrobial activity. Change solution at least daily or when use solution becomes visibly dirty. Follow the preparation directions that appear in the public health service "Methods for Testing of Antimicrobial Activity of Disinfectants and Antiseptics for Use on Human Skin.

DISINFECTOR DISPOSAL:

This product is toxic to fish. This product is not for use on Medical device surfaces.

A DANGER: IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.

FOOD CONTACT SANITIZING DIRECTIONS

KEEP OUT OF REACH OF CHILDREN
DANGER/PELIGRO:

Before use as a sanitizer in public eating places and dairies, food products and packaging materials must be removed from the area and carefully protected to ensure, upon re-use, correct food final products and packaging materials are not contaminated. Use of a good detergent or compatible cleaner should follow by a suitable food grade water application before sanitizing. This product must be used in the form of a dilute solution, usually in accordance with local or state food sanitation regulations. PESTICIDE DISPOSAL:

This product is toxic to fish. This product is not for use on Medical device surfaces.
