METHOD OF APPLICATION:

METHOD OF APPLICATION:

To disrupt mating of the Western Poplar Clearing Moth on poplars, white birch, willows, locust, and other crops where the Western Clearing Moth is a pest, apply CheckMate® WPCM-F at 0.0322 fluid ounces (0.98 ml) product per acre (0.197 gm/liter) to 0.0956 fluid ounces (2.9 ml) product per acre (0.5 gm/liter). Do not exceed 28.8 fluid ounces (861.2 ml) product/acre/year (150 gm/liter) per acre/year.

SHAKE WELL BEFORE USING

DO NOT USE CheckMate WPCM-F from damaged, punctured, or unsealed containers. Use piston, diaphragm, or centrifugal pumps ONLY.

DO NOT use roller or gear pumps as they will damage the CheckMate® WPCM-F controlled release system. For best results, apply immediately after mixing. Do not let stand prior to application without thoroughly mixing again. Do not apply this product through any type of irrigation system.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS:

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and the restricted-entry interval. The requirements in this box apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow entry to treated areas during application of this product. Do not enter or allow entry into treated areas during the restricted entry interval (REI) of 4 hours. PPE required for early entry to treated areas is permitted under the Worker Protection Standard and that involves contact with anything that has become treated, such as plants, soil or water. PPE coversall, short sleeve shirt, shorts, shoes, socks and waterproof gloves.

APPLICATION NOTE:

Application Note:

To the extent consistent with applicable law, Suterra LLC warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use. To the extent consistent with applicable law, Suterra LLC neither makes nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material. To the extent allowable by law, Suterra LLC’s maximum liability for breach of this warranty shall not exceed the purchase price of this product. To the extent consistent with applicable law, buyer and user acknowledge and assume all risks and liabilities resulting from the handling, storage, and use of this material contrary to the label instructions.
