## First Aid

1. Remove person from area of exposure.
2. Call emergency services.
3. Provide artificial respiration if necessary.
4. Continue treatment until medical help arrives.

## Environmental Information

- **Active Ingredient:** Copper Algaecide 4%
- **Trade Name:** Vantage
- **Description:** Copper Algaecide 4% is a product designed to control algae in swimming pools. It contains copper as the active ingredient, which is effective against a wide range of algae species. The product is recommended for use in swimming pools to prevent algae growth and maintain water clarity.

## Precautionary Statements

- **Physical and Chemical Hazards:** Caution. Read the label before use. This product contains copper as the active ingredient.
- **Environmental Hazards:** Caution. Do not contaminate water bodies or surface waters. Do not contaminate food or feed by improper application.
- **Precautions for Use:** Before applying, read and follow the label instructions. Proper application is crucial to ensure effective algae control without harming the environment or aquatic life.

## Note to Physicist:

- **Inhalation:** Avoid breathing dust. Wear a respirator with P100 filter to prevent exposure.
- **Eye Contact:** Avoid contact with eyes. Wash eyes with water for 15 minutes. If irritation persists, seek medical attention.
- **Skin Contact:** Wash skin with soap and water. If irritation persists, seek medical attention.

## Storage and Disposal:

- Store in a cool, dry place. Keep out of reach of children. Do not mix with other products.

## Material Safety Data Sheet

For complete safety information, refer to the Material Safety Data Sheet (MSDS) available from the manufacturer or supplier.
