KEEP OUT OF REACH OF CHILDREN

CAUTION

NET CONTENTS: 1 qt. (946 ml)

PRECAUTIONARY STATEMENT
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

SWIMMING POOL ALGAECEIDE AND ALGAE PREVENTIVE
This product is used to control and prevent the growth of algae in swimming pools and swimming pools with attached spas, waterfalls, or decorative fountains. This product may be used in systems sanitized with chlorinating or brominating products. This product will not harm and prevents all types of algae. Use this non-foaming algicide to prevent and control swimming pool algae. Ideal for pools with attached spas. Not to be used in pools with chlorinating or brominating sanitizing systems.

Pouring containing heavy growth of algae should be cleaned prior to using this product. For pools having light algae growth, pour the initial dose of 1-117 fluid ounces of this product per 10,000 gallons of water. Remove surface scum. For treatment of a freshly cleaned and filled pool, add 6-11 fluid ounces of this product per 10,000 gallons of water. Subsequent additions of 3-4 fluid ounces of this product per 10,000 gallons of water should be made every 2-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering pool.

ALGAECEIDE AND ALGAE PREVENTIVE FOR SPAS AND HOT TUBS
This non-foaming product is used to control the growth of algae in spas, whirlpools, or hot tubs.

Spas containing heavy growth of algae should be cleaned prior to using this product. Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 1.2-2.0 fluid ounces of this product per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add 6-11 fluid ounces of this product per 1,000 gallons of water. Subsequent additions of 0.2-0.4 fluid ounces of this product per 1,000 gallons of water should be made every 5-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering spas.

WINTER ALGAE PREVENTIVE FOR SWIMMING POOLS
This non-foaming algicide prevents growth during the swimming season when the pool is not being used due to cold winter temperatures.

For pools which have been properly treated during the swimming season and are free of visible algae, add 6-10 fluid ounces of this product per 10,000 gallons of water. If the pool is being used for the entire swimming season, add 12-17 fluid ounces per 10,000 gallons. It is necessary to use uniform distribution of algicide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the off season.

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Keep container closed when not in use. Leaking or damaged containers must be placed in plastic bag and discarded in trash. Keep out of reach of children and stored away from food.

DISPOSAL: If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

If properly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
