Mineral Spa Sanitizer
Exclusive patented mineral technology
Installs in seconds right into your filter!

Minerals only a small maintenance dose of non-chlorine oxidizer (MPS®) after initial start-up with disinfectant.

To keep your patented Artesian Mineral Spa Sanitizer operating properly, it is necessary to change the cartridge every 4 months.

Trusted water is brilliantly clear and soft.

This product installs easily and requires no electricity to run. You don't need to touch it again except to replace the cartridge every 6 months!

KEEP OUT OF REACH OF CHILDREN

CAUTION
Not for sale to children and pregnant or nursing women.

SpaSanitizer

Owner’s Manual

Artesian Mineral Spa Sanitizer has been designed to sanitize spas up to 500 gallons.

**ATTENTION**
Failure to heed the following can result in permanent injury or drowning.

**EQUIPMENT UNDER PRESSURE**
- Always turn spa off prior to installing or changing Artesian Mineral Spa Sanitizer. Your spa system is operated under pressure and the pressure must be released before you begin work. Please see your spa owner’s manual for further instructions.

**PREVENT CHILD DROWNING**
- Do not let anyone, especially small children, sit, step, lean or climb on any equipment installed as part of your spa’s operational system.

**LOW CHLORINE RECIPE**
- You must strictly follow the Artesian Mineral Spa Sanitizer recipe included in this manual to maintain proper water chemistry and avoid health hazards. Failure to follow these instructions can lead to sickness from bacteria and other noxious organisms.

**CAUTION**

**PRECAUTIONARY STATEMENT**
HAZARDS TO HUMANS AND ANIMALS

**CAUTION:**
In the unlikely event that a cartridge breaks, mineral media should not be ingested by humans or animals as it may cause gastric distress.

**FIRST AID IF INGESTED:** Call poison control center or doctor immediately for treatment advice.

The Artesian Mineral Spa Sanitizer is designed only for residential portable spas.
WE ASK YOU TO TAKE THE TIME TO GET FAMILIAR WITH THIS MANUAL.
Thank you for purchasing Artesian Mineral Spa Sanitizer. We believe the
more you know, the more enjoyable your bathing experience will be—and
the more you will reduce the time, effort and cost of maintaining
your spa. Spa owners who switch from conventional chemical programs
to the Artesian Mineral Spa Sanitizer spend less time maintaining their
spas. Every spa has its own characteristics of water type, amount of
sunlight, etc. The recipe included in this manual will help insure good
water quality for your spa. Remember, your Artesian Mineral Spa
Sanitizer Dealer can provide advice and service.

ARTESIAN MINERAL SPA SANITIZER
COMPATIBILITY
Attention
Not to be used with product containing biguanides. If these products are
being used, be sure to drain and refill the spa with fresh water.

<table>
<thead>
<tr>
<th>Start-Up</th>
</tr>
</thead>
</table>
| Before starting up a new Artesian Mineral Spa Sanitizer, clean
debries and algae out of the spa and spa equipment. |

Important: Do not install the new Artesian Mineral Spa Sanitizer
until the spa water is clean and chemically balanced.

Balance spa water before installing Artesian Mineral Spa Sanitizer,
- pH: 7.2 – 7.6
- Calcium Hardness: 200 – 400 ppm
- Total Alkalinity: 80 – 120 ppm
- Total Dissolved Solids (TDS): 300 – 2000 ppm

Consult your Artesian Mineral Spa Sanitizer Dealer for specific
water balance instructions.

<table>
<thead>
<tr>
<th>Balance the Water</th>
</tr>
</thead>
</table>
| To find out if your spa water is balanced:
  - take a water sample to your dealer to be tested, or
  - ask your dealer to recommend a spa test kit for water balance. |

**Element: pH**
**Range:** 7.2 – 7.6

**If too low:** The surface of your spa can become etched. Metal parts
in the pump and plumbing will corrode.

**How to fix:** Add pH increaser.

**If too high:** "Scale" forms on the surface of your spa. The water can
become cloudy. Equipment can be damaged.

**How to fix:** Add pH decreaser.

**Element: Calcium Hardness**
**Range:** 200 – 400 ppm

**If too high:** Rough, discolored deposits ("scale") will form on the
spa surface and inside spa equipment.

**How to fix:** Drain or dilute the spa water. Consult your dealer.

**Element: Total Alkalinity**
**Range:** 80 – 120 ppm

**If too low:** It provides no buffer so that you constantly get fluctuating
pH readings, which can damage equipment and spa surfaces.

**How to fix:** Use an alkalinity increaser.

**If too high:** The water becomes cloudy or milky white.

**How to fix:** Add acid to bring alkalinity down.
Install the Artesian Mineral Spa Sanitizer

1 Drain and refill your spa. Balance the water per spa manufacturer guidelines.

2 Install the Artesian Mineral Spa Sanitizer after water is balanced. Refer to Assembly and Installation Diagrams below for instructions regarding your particular model's installation.

3 Superoxidize the spa water with an EPA registered source of chlorine according to manufacturer's instructions to burn off contaminants and activate cartridge.
   - Add 1.5 tablespoons of dichlor to spa per 250 gallons (approx. 1000 liters).
   - Note: 1.5 tablespoons is approximately 3/4 oz or 24 grams.
   - Do not enter the spa if the free available chlorine residual is over 5 ppm.

   **Important:** Initial superoxidation with dichlor is required to burn off contaminants and activate cartridge.

4 Run spa according to recommendations supplied to you by the manufacturer of your spa.

**ASSEMBLY AND INSTALLATION DIAGRAMS**

1 Remove cap from spa filter.

   **Note:** The Artesian Mineral Spa Sanitizer is designed to fit most portable spas. Artesian Spas assumes no liabilities for the product if installed in any way other than the methods described in this manual.

2 Screw Artesian Mineral Spa Sanitizer into the cap.

3 Insert Artesian Mineral Spa Sanitizer and filter cap into spa filter.

1 Sodium dichloroisocyanurate hydrate
Recipe

There is one recipe for maintaining clean, clear, sanitized water with minimum time and effort. This recipe provides the easiest and most economical way to care for your Artesian Mineral Spa Sanitizer.

**Low-Chlorine Recipe**

**Ingredients:**
- Artesian Mineral Spa Sanitizer
- Non-chlorine oxidizer (MPS®)³
- Nature² Spa Test Strips, or equivalent (MPS®, pH, and total alkalinity)
- pH, hardness and total alkalinity adjusting chemicals
- Dichlor¹, EPA registered source

**When:**
- **Every day** Run spa according to recommendations supplied to you by the manufacturer of your spa.
- **Before each use** Test the water with Nature² Spa Test Strip (or equivalent). If the MPS® level is low, add 1 tablespoon of MPS® to spa per 250 gallons (approx. 1000 liters). (Note: 1 tablespoon is approximately 1/2 ounce or 16 grams) Use the Nature² Spa Test Strip (or equivalent) to test the spa water after each addition of MPS®. If the test strip indicates levels below the OK range, add 1 tablespoon MPS® to spa per 250 gallons and re-test. Enter spa only after test strip indicates a sufficient level of MPS®.
- **After each use** Add 1 tablespoon of MPS® to spa per 250 gallons (approx. 1000 liters).
- **Once per week** Adjust the pH, total alkalinity, and hardness as needed.
- **Every 4 months** Drain and refill your spa. Replace Artesian Mineral Spa Sanitizer and repeat sanitizer start up.
- **As needed** Shock treat with 1.5 tablespoons of an EPA registered source of dichlor¹ per 250 gallons (approx. 1000 liters) to remedy problems which may occur when bathing loads are high, when successive MPS® test strip readings indicate high demand, when water appears hazy or dull, when unpleasant odors or eye irritation occur, after heavy wind and rainstorms or if foam develops.

**Note:** As an alternative to MPS®, an EPA registered source of dichlor¹ may be substituted; 1 tablespoon dichlor¹ = approximately 3 tablespoons MPS®.

**Important:** Perform start-up procedures for spas which have been unused or unattended. The Artesian Mineral Spa Sanitizer is not to be used with products containing biguanides. If these products are being used, BE SURE TO DRAIN AND REFILL SPA WITH FRESH WATER.

---

2 Potassium peroxymonosulfate

3 MPS may cause a lowering of the pH and total alkalinity of your spa water.

4 Nature² Spa Test Strips are available at your local Artesian Spa Dealer.
Provide Filtration/Circulation

To manage: You need to:

Circulation  Follow the manufacturer’s directions for keeping the circulating pump in good working order and operate it at least four hours a day.
Consult your Artesian Mineral Spa Sanitizer dealer for optimum run times.

Filtration  Check the spa filter periodically and clean it as recommended by the manufacturer.

Artesian Minerla Spa Sanitizer Replacement Intervals

Use the month indicator decal to identify the date on which the cartridge should be replaced. Always turn spa off prior to installing or changing Artesian Mineral Spa Sanitizer. Your spa is not operated under pressure and the pressure must be released before you begin work. Please see your spa owner’s manual for further instructions.

A cartridge lasts four (4) months. The cartridge should not be used longer than four (4) months.

Disposal

After four (4) months of use, discard Artesian Mineral Spa Sanitizer in household trash. Do not save the cartridge for re-use. The cartridge is manufactured with the mineral media sealed inside. If the unlikely event a cartridge breaks, remove it and vacuum out any media introduced into the spa.

Limited Warranty

ARTESIAN MINERAL SPA SANITIZER LIMITED WARRANTY

The limited warranties contained within this document are the only warranties given with your Artesian Mineral Spa Sanitizer and supersede any prior warranties. All other warranties, expressed or implied, including the implied warranty of merchantability or the implied warranty of fitness for a particular purpose are hereby disclaimed. Our sole obligation under this warranty, and the purchaser’s sole remedy, is limited to repair or replacement of the Artesian Mineral Spa Sanitizer. The Artesian Mineral Spa Sanitizer warranty applies to the original owner only.

THE LIMITED WARRANTIES OF THE ARTESIAN MINERAL SPA SANITIZER ARE:

Artesian Mineral Spa Sanitizer is warranted to be free of defects in materials and to perform satisfactorily for a period of four months from the date of purchase. Artesian Mineral Spa Sanitizer is warranted not to cause staining in your spa. This limited warranty requires that you exercise reasonable care of your spa and keep water in balance at all times. This limited warranty does not cover discoloration of chromium fittings. This warranty does not cover cartridges used with any biocidal products. If the cartridge is defective and does not perform satisfactorily for the entire four (4) months, we will replace the cartridge.

EXCLUSIONS FROM WARRANTY

Artesian Mineral Spa Sanitizer is designed for use on residential portable spas up to 500 gallons. If it is used in any other application, the warranty is void, and the purchaser and/or spa owner releases the manufacturer from any and all claims related to the use of the Artesian Mineral Spa Sanitizer.

This warranty does not cover problems arising in whole or in part from purchaser’s negligence, misuse or abuse, improper maintenance or storage, accident, improper installation, improper application, failure to follow all appropriate safety precautions, Acts of God, abnormal weather conditions, damage from plants or animals, and improper use of chemicals.

This warranty specifically excludes all incidental or consequential damages, except where state law requires them to be paid. This warranty gives you specific rights. You may have other rights that vary from state to state.

TO SUBMIT A CLAIM

Report claims to Artesian Spas by calling 800-854-7727. Only the original purchaser may submit a claim under this limited warranty. Claim must be accompanied by an original purchase receipt.
### Troubleshooting
