SeaKlear Spa

Brominating Tablets™
Sanitizer for Spas & Hot Tubs

BACTERICIDE-ALGAECEDE-DISINFECTANT NO CHLORINE ODOR

ACTIVE INGREDIENT:
Bromochloro-5, 5-dimethylpyrazole................. 95%
WATER INGREDIENTS:............................. 5%
TOTAL........................................... 100%
Provides: 64.9% Available Bromine
20.0% Available Chlorine

EPA Reg. No. 6022-41-72083 EPA Est. No. 46043-F-1

KEEPS OUT OF REACH OF CHILDREN DANGER
CORROSIVE AND STRONG OXIDIZER

KEEP CONTAINER TIGHTLY CLOSED WHEN NOT IN USE.

WARRANTY
Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but for this warranty there is no guaranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER - CORROSIVE CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. EYE CONTACT MAY CAUSE LOSS OF VISION. IRRITATING TO NOSE AND THROAT. MAY BE FATAL IF INHALED. HARMFUL IF ABSORBED THROUGH SKIN OR SWALLOWED. Do not breathe dust or spray mist. Do not get in eyes, on skin or in clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear goggles with side-shields, face shield or safety glasses; protective clothing and rubber gloves. Wear a mask or pesticide respirator jointly approved by Mine Safety and Health Administration and the National Institute for Occupational Safety and Health. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, eskuries, coasts, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

CHEMICAL AND PHYSICAL HAZARDS: Strong oxidizer, mix with water only. Reacts with combustible organic materials, bases, moisture or with oxidizers may generate heat, hazardous gases and, possibly, fire or explosion. Do not add to dispensers or other equipment that is hot and clean of any chemical residues. Do not burn, but will decompose from about 230°F (100°C), releasing toxic gases. Do not break or crush tablets and avoid exposure to dust.

SPECIAL PRECAUTIONS, PLEASE READ BEFORE OPENING CONTAINER - MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY REQUIRING HOSPITALIZATION. RELATED COMPLICATIONS MAY LEAD TO DEATH.

PREVENTION OF PHYSICAL INJURY: 1. This product is a powerful cleaning agent. Do not open container indoors. Hold away from face when avoiding breathing fumes. 2. Mixing with other chemicals may cause a violent and lethal chemical reaction. Do not add this product to water in a pool. Do not add water to this product in a pool. 3. Follow label directions only. Do not take advice from others. Do not experiment.

PREVENTION OF PROPERTY DAMAGE: Contact between this product and its unsanitized state and vinyl liners, painted surfaces or other property in or around the spa will result in permanent bleaching of the color.

DO NOT SHIP WITH FOODS, FEEDS, DRUGS, OR CLOTHING.

EMERGENCY CONTACT: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-5000 for EMERGENCY MEDICAL TREATMENT INFORMATION. NOTE TO PHYSICIAN: Probable mucosal damage may be caused by gastric lavage.

USE WITH ADEQUATE VENTILATION WASH THOROUGHLY AFTER HANDLING

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Keep pH between 7.2 and 7.8 and never allow it to fall below 7.0. The treatment necessary for your spa will change considerably depending upon those factors that burden the disinfection system. Some of the factors that will vary the required treatment are water temperature, bacteral load, exposure to wind-driven debris, thunder or rain storms and length of filtration cycle.

SPAS AND HOT TUBS: Before initial using Brominating Tablets in your spa or hot tub you will need to add 1/2 oz. of sodium bromide for each 100 gallons of water. The same treatment should be followed each time you drain and refill your spa or hot tub with fresh water. Introduce 3 tablets per 350 gallons of spa water with the use of a floating tablet feeder or automatic brominator installed on the spa equipment. Adjust tablet feeder or brominator to obtain an active bromine residual of at least 2 ppm. Maintain spa by adding 3 tablets per 300 gallons every 5-7 days or as needed to maintain an active bromine residual of 2 ppm at all times. Spa water has a tendency to foam and cloud; this is directly proportional to the amount of spa use. Cloudiness is due to the accumulation of body fats, oils and contaminants too small for the filtration equipment to remove, and is linked to rapid escalation of total dissolved solids in the water. To a great extent, defoamers, clarifiers, as well as shock treatments, denitrifiers, or sequestering agents can be used to clear the water. When water clarification can not be achieved, draining, cleaning, and refilling the spa is recommended.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. STORAGE: Keep this product dry in a tightly closed, original container when not in use. Store in dark, cool, dry, well-ventilated area. Keep product away from energy sources, combustible organic materials, chemicals, strong bases, and moisture.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinnate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Offer for recycling. If available, Triple rinse container (or equivalent) promptly after emptying.

SPILLS: When handling or dealing with spills, use impact resistant goggles with side-shields, or face shield, body-covering clothing, including impermeable rubber or elastic gloves and boots; use a dust respirator or dusting suit. Evacuate dry spills and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reuse container, isolate unused drum in the open or in a well-ventilated area; food with large volumes of water if necessary. IN CASE OF FIRE: Do use ammonium phosphate extinguisher near water and Brominating Tablets. Hazardous reactions may occur.

DO NOT SMOKE, DRINK, OR EAT WHEN HANDLING THIS PRODUCT
