PRECAUTIONARY STATEMENT
Hazards to Humans and Domestic Animals.

CAUTION:
In the unlikely event that a cartridge breaks, mineral media should not be ingested by humans or animals as it may cause gastric distress.

FIRST AID
If INGESTED: Call Poison Control Center or doctor immediately for treatment advice.

STORAGE / DISPOSAL
Storage – store in areas inaccessible to small children.
Disposal – After 4 months of use, discard cartridge in household trash. Do not save the cartridge for re-use. The cartridge is manufactured with mineral sealed media inside. In the unlikely event a cartridge breaks, remove a friend vacuum out any media introduced into the spa water.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. See Owner's Manual inside box for directions for use.

CHANGE THIS CARTRIDGE EVERY 4 MONTHS
Use of this cartridge for longer than 4 continuous months will void the warranty. Discard this cartridge at the end of 4 months.

proclear™

Nature2® Mineral Sanitizer for Spas

Proclear™ water is brilliantly clear and soft.

An alternative to chlorine when used in combination with MPS®

Ends chlorine hassle when used in combination with MPS®, and improves water quality.

Reduces potential for unpleasant odor and scum lines.

Enhanced bather comfort.

It's compatible - proclear™ can even be used with your ozonator.

EXCLUSIVELY DESIGNED
TO WORK IN
YOUR JACUZZI®

"Potassium peroxymonosulfate"
Owner's Manual
Mineral Spa Sanitizer
Proclear

Installation:
Before opening your filter, please refer to the spa owner's manual for complete installation instructions.

STEP 1
Twist and remove filter cap.

STEP 2
Match up tabs on proclear with tabs on Jacuzzi® filter lid. Twist proclear gently until it locks securely on the lid.

STEP 3
Slide the entire device into the core of your Jacuzzi® filter cartridge.

STEP 4
Lock cap into place.

Proclear features Nature™ technology.
**MINERAL SPA SANITIZER**

**PRECAUTIONARY STATEMENT**

In the unlikely event that a cartridge breaks, mineral media should not be ingested by humans or animals as it may cause gastric distress.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

The product contains natural elements which may be harmful if ingested or inhaled. Keep out of reach of children and pets.

**FIRST AID**

If swallowed, call Poison Control Center or doctor immediately for treatment advice.

**CAUTION**

If ingested, call Poison Control Center or doctor immediately for treatment advice. This product does not contain any hazardous substances that require special handling or disposal.

**DIRECTIONS FOR USE:**

**LOW-CHLORINE RECIPE**

**PROCLEAR™** has been designed to sanitize spas up to 500 gallons.

**ATTENTION**

Not to be used with products containing biguanides, if high levels of bromine products are being used, be sure to drain and refill with fresh water.

**INSTALLATION PROCEDURE**

Add 1 tablespoon of dichlor to 250 gallons of water (approx. 1,000 liters). Note: 1 1/2 tablespoons is approximately 1 oz or 24 grams.

**WHAT TO DO:**

- Run spa according to recommendations supplied by the manufacturer of your spa.
- Test water with the Nature₂² Spa Test Strip (or equivalent). If the MPS level is low, add 1 tablespoon of MPS per 250 gallons (approx. 1,000 liters). Note: Tablespoon is approximately 1 oz or 24 grams.
- Add 1 tablespoon of dichlor per 250 gallons (approx. 1,000 liters).
- Adjust the ph as needed. A convenient way to test ph and total alkalinity is to use the Nature₂² Spa Test Strip.
- Drain and refill your spa. Repeat procedure as needed.

**REPLACEMENT INTERVALS - FOR PROCLEAR LOW-CHLORINE RECIPE**

- **EVERY 4 MONTHS:**
  - As needed

**STORAGE/DISPOSAL:**

- Store in a cool, dry place.
- Dispose of used media in accordance with local regulations.

**IMPORTANT:**

- Perform start-up procedures for spas which have been unused or unheated.
- After four (4) months of use, discard the cartridge. Remove the cartridge from the spa and vacuum or other means of removal. Do not save the cartridge for re-use. The cartridge is manufactured with the mineral media sealed inside. In the unlikely event a cartridge breaks, remove it and do not proceed with the treatment until replaced.

**NOTE:**

- As an alternative to MPS, an EPA registered source of dichlor may be substituted. 1 tablespoon dichlor = approximately 3 tablespoons MPS.
