SKIDOO® INSTITUTIONAL FLYING INSECT KILLER

contains the botanical Insecticide, Pyrethrum. It provides fast, effective control and repulsion of the listed pests. SKIDOO® Institutional Flying Insect Killer can be used in restaurants and other listed areas to kill, on contact, listed crawling pests and in a fast, effective product for flying insect control. Effectively controls exposed stages of listed pest pests without persistent residues problems because it breaks down quickly on treated surfaces exposed to light.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. READ ALL DIRECTIONS COMPLETELY BEFORE USE. For most effective results, follow directions for specific use areas. SHAKE BEFORE USE AND AT INTERVALS DURING PROLONGED USE. Hold container upright with nozzle pointing away from face. Press valve down and spray as directed.

FOR USE IN: ANIMAL, QUARTERS, Barns, Dairies, Milking Parlors, Milking Rooms, Poultry Houses and other listed animal areas: For rapid kill of Flies, Gnats, Stable Flies, House Flies, Horse Flies, Lasser House Flies, Deer Flies, Horn Flies, Black Flies. Spray at the rate of 5 to 10 seconds per 1000 cubic feet of space directed toward the ceiling and upper corners of the room and not directly towards the animals or birds. For best results, close doors and windows if possible, before spraying and keep room closed for 10 to 15 minutes. Applicator should vacate the treated area and ventilate it prior to returning.

SPACE TREATMENT OUTDOORS: For use in Food and NON-FOOD AREAS OF FOOD PROCESSING PLANTS, Industrial Installations, Bakeries, Rice and Wheat Mills, Restaurants, Tobacco Warehouses, Grain Elevators and Warehouses: Spray as directed to control listed flying and crawling insects. This use of this product in food processing or food-handling establishments should be confined to time periods when the plant is not in operation. Food should be covered or removed during treatment. For maximum efficacy, close all doors and windows, turn off fans and air conditioners and spray upward into center of room with slow, sweeping motion. Spray 5 to 10 seconds for average size room [1,000 cubic feet] [10 ft x 12 ft x 8 ft]. Keep room closed for 15 minutes after spraying. Ventilate room for 5 minutes before entry. For use in Food Areas of Food-Handling Establishments: When applying space treatment in food-handling areas, the food-handling operations should be shut down. In food processing areas, all utensils, shelving, etc., where food will be handled should be covered or removed before treatment or washed with an effective cleaning compound followed by a potable water rinse prior to use. FLIES, GNATS, FLYING MOUTHS, exposed stages of Indian Meal Moth, Angoumois Grain Moth, Tobacco Moth, Clothes Moth, Chocolate Moths, Almond Moth, Miller Moths and other listed flying insects.

Direct spray into all parts of the room, with special attention to hiding places. Sweep up and discard fallen insects.

SPACE TREATMENT OUTDOORS: GNATS, BIDDLES, FLIES AND FLYING INSECT CONTROL: Use prior to pest emergence to reduce annoyance from these and other flying pests. Spray around patios, porches, gazebos, shrubbery, vegetation and any other listed areas. For best results, treat when the wind velocity does not exceed 3 miles per hour. SPACE TREATMENT INDOORS: Contact as many insects as possible with the spray. Apply spray at the rate of 10-30 seconds for each 100 square feet of surface area. Keep area closed for 45 minutes after treatment. Ventilate room 30 minutes before re-entry.

Cockroaches: Thoroughly spray all parts of the room suggested of harboring these pests. Special attention should be paid to hiding places such as cracks and crevices, behind and beneath sinks, stoves, refrigerators, around garbage cans, in cabinets, along baseboards, door sills, frames and floors, around drains, pipes and plumbing, behind bookcases, in storage areas and other utility utilization areas, contacting insects with spray wherever possible.

BEDBUGS: Spray mattresses, particularly around tufts and seams. Take bed apart and spray into all joints. Treat baseboards, moldings and floor. Allow treated fabric to dry thoroughly before using.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in a cool, dry place. Keep container closed. Do Not Puncture or Incinerate. DISPOSAL: IF EMPTY: Place in trash or offer for recycling if available. IF Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Avoid contamination of food or feedstuffs.

ENVIRONMENTAL HAZARDS: For terrestrial use, do not apply directly to water, or to areas where surface water is present or to intermittent slopes below the mean high water mark.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do NOT USE OR STORE NEAR HEAT OR OPEN FLAME. Do NOT puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting. Do not use this product in or on electrical equipment due to possibility of shock hazard.

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-746-7812.

ACTIVE INGREDIENTS:

Pyrethrins: 0.25%
Piperonyl butoxide, Technical: 2.50%
OTHER INGREDIENTS: 97.25%
TOTAL: 100.00%
Equivalent to 4.00% (butylcarbaryl) (6-propylpiperonyl) ether and 1.00% related compounds.

EPA Reg. No. 1021-1732-70627 EPA Est. No. 706-IL-1

KEEP OUT OF REACH OF CHILDREN

CAUTION: SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.
