**WARNING**

**EFFECTIVE STANDARDS**

Ineffective weed and feed programs may result in:

- **Weed control failure**
- **Nutrient loss**
- **Soil erosion**

To ensure effective weed and feed control, follow these guidelines:

1. **Correct soil pH**
2. **Fertilization**
3. **Irrigation**
4. **Mowing frequency**
5. **Mulch application**

For more detailed information, contact your local extension agent or visit the website of the National Extension Service at [www.extension.org](http://www.extension.org).

**STORAGE AND DISPOSAL**

Store in a cool, dry place away from food and feed. Do not mix with other products. Disposal of containers and excess product:

- **Waste disposal**
- **Disposal of empty containers**
- **Safe handling and disposing of wastes**

For more information, contact your local waste management authority.

**SERVICE**

For service or technical assistance, contact your local dealers, or call the manufacturer at [1-800-555-1234].
