**Lesco Bandit 2F**  
1 gal 80940416A 110519AV1 ETL 040312

**Broadcast Applications:**
- Irrigate thoroughly to incorporate LESCO BAND IT 2F Insecticide into the upper soil profile.
- Refer to use directions specific for FLOWERS AND GROUNDCOVERS concerning additional use directions.

**Insecticidal Spectrum:**
- Aphids (including Glassy-winged sharpshooter)
- Mealybugs
- Pine tip moth larvae
- Saw fly larvae
- Whiteflies
- White peach scales
- Leafhoppers, planthoppers, sharpshooters (including Black margined aphid, Loquat, Crabapple, Apple, Pome Fruits)
- Root weevil larvae
- Thrips (foliage only)
- Beetle and vine weevil adults
- Emerald ash borer and Wolly adelgid
- Psyllids
- Aphids (except Woolly apple aphid)

**DOSAGE LESCO**
- **0.46 to 0.6 fl oz** (14 to 17 mL) per 1000 sq ft
- **1.5 fl oz** (45 mL) per 100 gal of water

**RESTRICTION:**
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.

**CONDITIONS:**
- Allow 10 or more days between applications.
- Do not make more than 3 applications.

**APPLICATIONS TO TREES:**
- For Control of Specified Borers:
  - For late season (preharvest) control of leafhopper species, apply LESCO BAND IT 2F Insecticide while most leafhoppers are present.
- For Control of Specified Mites:
  - For second and succeeding generations of leaffminer, optimal control is achieved only if applications are made at least 10 days apart.
- For Control of Other Pests:
  - For optimal control of mealybugs, insure good spray coverage of the trunk and scaffolding limbs or other resting sites of the pest.

**RESTRICTIONS:**
- Do not apply more than a total of 6.0 ounces of LESCO BAND IT 2F Insecticide per acre per year.
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.

**LIMITATIONS OF LIABILITY:**
- **WETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT BAYER CROPSCIENCE LP'S ELECTION, THE REPLACEMENT OF PRODUCT.**

**STOP - Read the label before use. Keep out of reach of children.**

**CAUTION:**
- Shake well before using.
- Read the label before use.
- Keep out of reach of children.

**IMPORTANT READ BEFORE USE:**
- Read and follow all precautions and directions on the label. Keep out of reach of children. Apply this product as directed on the label. If you have any questions, contact Bayer at 1-800-921-9187.

**EPA Reg. No. 432-1312**

Lesco Bandit 2F 1 gal 80940416A 110519AV1 ETL 040312

**WPS USES:**

Non-WPS USES:

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water immediately.

**• Shoes plus socks**

If in eyes:

Note to Physician

**• Rinse skin immediately with plenty of water for 15 to 20 minutes.**

Emergencies ONLY

**FIRST AID**

2 3 4 5 6

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

LESCO BAND IT 2F Insecticide contains a Group 4A insecticide. Insect biotypes with acquired or inherent resistance to Group 4A insecticides are known to cause damage to lepidopteran and coleopteran species. Some insects are known to develop resistance to insecticides after repeated use. As with any insecticide, the use of this product should conform to resistance management strategies established for the use area.

Landscape characteristics:

LESCO BAND IT 2F Insecticide can be used by soil application as directed on trees, shrubs, flowers and groundcovers in sites: lawns, business and office complexes, shopping complexes, multi-family residential complexes, golf courses, airports, cemeteries, parks, playgrounds, athletic fields and sod farms.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present.

Non-USE conditions:

LESCO BAND IT 2F Insecticide may be applied to the following non-agricultural sites:

- Residential
- Business or office complexes
- Shopping complexes
- Multi-family residential complexes
- Golf courses
- Airports
- Cemeteries
- Parks
- Playground
- Athletic fields
- Sod farms

Some insects are known to develop resistance to insecticides after repeated use. As with any insecticide, the use of this product should conform to resistance management strategies established for the use area.

The addition of a nitrogen containing fertilizer, where applicable, into the solution may enhance the uptake of the active ingredient. The treated turf area must be in such a condition that the rainfall or irrigation will penetrate vertically in the soil profile.

LESCO BAND IT 2F Insecticide mixes readily with water and may be used in many types of application equipment. Mix to a concentration of 0.6 fl oz (17 mL) per 1000 sq ft (14 to 17 mL). When making foliar applications on hard to wet foliage such as holly, pine, or ivy, the addition of a spreader/sticker is recommended. If concentrate or mist type spray equipment is used, apply an equivalent amount on the area sprayed, as would be used in a dilute application.

NOTE:

If a combination of treatments is not effective, consider other control options prior to reapplication of any treatments.

LESCO BAND IT 2F Insecticide is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present.

AGRICULTURAL USE REQUIREMENTS

For the product to achieve the expected control, the targets must be in contact with the active ingredient. The application rate should be based on the size of the target. The application rate may be varied to suit the conditions of the field. The treated turf area must be in such a condition that the rainfall or irrigation will penetrate vertically in the soil profile.
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Personal Protective Equipment (PPE):

- Gloves
- Chemical resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene, natural rubber, polyethylene, polyvinylchloride (PVC) or viton. If you want more options, follow the instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

CAUTION

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water and washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Note To Physician

In case of emergency call toll free the Bayer Environmental Science Emergency Response Telephone No. 800-334-7577.

Follow manufacturer's instructions for cleaning/maintaining personal protective equipment, PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering controls statements:

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product in and around the perimeter of industrial and commercial buildings and residential areas, and municipal, city, state, national, and handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for that state or tribe. With any insecticide, the use of this product should conform to resistance management strategies established for the use area.

Some insects are known to develop resistance to insecticides after repeated use. As with any insecticide, the use of this product must be placed where the growing portion of the target plant can absorb the active ingredient cannot be achieved when these conditions exist. The treated turf area must be in such a condition that the rainfall or irrigation is sufficient to move the active ingredient to the site of the pest. For suppression of chinch bugs, make application prior to the hatching of the first instar nymphs.

Supplementary control techniques:

Insecticide use in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

Environmental D...
Applicators and other handlers who handle this product for any use covered by the Worker Protection Standard must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, latex, neoprene, chloroprene rubber, or combinations thereof

If on skin

- Wash thoroughly with soap and water

If in eyes

- Wash eyes out with large amounts of water

Exception:

- For PRODUCT 2 3 4 5 6, the following personal protective equipment is required:
  - Protective eyewear that meets the requirements of ANSI Z87.1
  - Half-face respirator with a carbon filter

PRODUCT NAME:

LESCO BANDIT 2F

PRODUCT FORM:

Insecticide

APPLICABLE USE AREAS:

- Lawns, grass areas, and turf areas.
- Ornamentals and landscaping.
- Dams, reservoirs, and other water bodies (including lakes and ponds).
- Sod farms.
- Parks, playgrounds, athletic fields, and cemeteries.
- Other agricultural areas.

APPLICABLE USE:

For PRODUCT 2, 3, 4, 5, 6:

- For both soil applications and aerial applications, use in a manner that minimizes drift and run-off.
- Use equipment that is accurately calibrated and of the type normally used for the application of turfgrass insecticides.
- Use equipment that will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift.
- Check calibration for both spray characteristics and application rate before each application.

APPLICABLE USE:

- For PRODUCT 2 3 4 5 6:
  - Use equipment that is accurately calibrated and of the type normally used for the application of turfgrass insecticides.
  - Use equipment that will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift.
  - Check calibration for both spray characteristics and application rate before each application.

NOTE:

- Use LESCO BANDIT 2F to control aphids, scale insects, mealybugs and other sucking pests on ornamentals to limit the development of harmful mite populations that can become resistant to acaricides.
- Use LESCO BANDIT 2F in a manner consistent with the directions on the label and local conditions to avoid over application of the product.
- For suppression of chinch bugs, make application prior to the hatching of the first instar nymphs.
- For control of mole crickets make application prior to or during the peak egg hatch period. If application is not possible, consult local sources for information on best management practices.
- For suppression of European chafer and European cutworms, make application prior to the egg laying activity of the target pests.
- High levels of control can be achieved when applications are made prior to egg laying activity.
- Use LESCO BANDIT 2F supplemented with residual sprays, bait placements or other ant control tactics to further reduce the pest population.

APPLICABLE USE:

- For PRODUCT 2:
  - Use in a manner consistent with the directions on the label and local conditions to avoid over application of the product.
  - For suppression of chinch bugs, make application prior to the hatching of the first instar nymphs.
  - For control of mole crickets make application prior to or during the peak egg hatch period. If application is not possible, consult local sources for information on best management practices.
  - For suppression of European chafer and European cutworms, make application prior to the egg laying activity of the target pests.
  - High levels of control can be achieved when applications are made prior to egg laying activity.
  - Use LESCO BANDIT 2F supplemented with residual sprays, bait placements or other ant control tactics to further reduce the pest population.

STORAGE AND DISPOSAL:

- Store in the original container in a cool, dry place.
- Protect from freezing or exposure to direct sunlight.
- Keep out of reach of children.
- Do not apply when turfgrass areas are waterlogged or the soil is saturated with water.
- Adequate distribution of the active ingredient is required. Evenness of distribution is enhanced by using a boom sprayer to apply this product on large lawns and for aerial applications.
- Do not apply this product in a manner that will contact workers or other persons, either directly or through drift.
- Do not apply this product over water bodies.
- Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected end-use products should conform to resistance management strategies established for the use area.
- Do not formulate this product into other end-use products.
- Do not apply this product in a manner inconsistent with its labeling.

# User Instructions

**Engineered Product Name:** LESCO BANDIT 2F

**Insecticide in Concentrate Form for Use on Trees, Shrubs, Flowers, and Groundcovers**

**Active Ingredient:** Imidacloprid (100%)

**Use Sites:** Turfgrass (including sod), Trees, Shrubs, Flowers, and Groundcovers

**Use Statements:**
- **TREES, SHRUBS, FLOWERS and GROUNDCOVERS:**
  - Mix required dosage in sufficient water to inject an equal amount of solution in each hole. Maintain low pressure and apply beneath the drip line of the tree extending in from that line.
  - BASAL SYSTEM: Space injection holes evenly around the base of the tree trunk no more than 6 to 12 inches out from the base.
  - **Soil Injection:** Mix required amount of product in sufficient water to uniformly and accurately cover the area being treated. Do not use less than 2 gallons of water per 1000 sq ft.
  - For optimal control, start treatments prior to establishment of high pest populations and reapply on or per foot of shrub height.
  - Apply the following rates as a function of tree diameter at breast height (D.B.H.):
    - 0.1 to 0.2 fl oz (3 to 6 mL) per inch of trunk diameter (D.B.H.)
    - 0.46 to 0.6 fl oz (14 to 17 mL) per 1000 sq ft
    - 0.2 fl oz (6 mL) per inch of trunk diameter (D.B.H.)
    - 1.5 fl oz (45 mL) per 100 gal
  - For foliar and systemic insect control in turfgrass (including sod), apply specified dosage as a foliar spray using 200 gallons of water per acre.

**Conditions:**
- Do not apply more than 18.0 fluid ounces of LESCO BANDIT 2F Insecticide per acre per year.
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Do not apply to areas which are waterlogged or saturated, which will not allow penetration.
- Make foliar applications as pests begin to build before populations become extreme. Two applications at a 10 to 14 day interval will result from the earliest possible application. For second and succeeding generations of leafminer, optimal control is otherwise, that extend beyond the statements made on this label. No agent of Bayer CropScience is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with limitations of liability:

**RESTRICTIONS:**
- Do not apply LESCO BANDIT 2F Insecticide to areas which are waterlogged or saturated, which will not allow penetration.
- Do not apply more than a total of 18.0 fluid ounces of LESCO BANDIT 2F Insecticide per acre per year.
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Do not graze treated areas or use clippings from treated areas for feed or forage.
- Keep children and pets off treated area until dry.

**OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL.**

**LIM I TATIONS OF LIABILITY:** The directions for use of this product are believed to be adequate and must be followed carefully. However, it is the user's responsibility to ensure compliance with all applicable laws and regulations.

**Pesticide:** LESCO BANDIT 2F Insecticide

**Components:**
- 100% Imidacloprid

**Net Contents:**
- 80940416A 110519AV1

**Additional Information:**
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Do not apply more than a total of 18.0 fluid ounces of LESCO BANDIT 2F Insecticide per acre per year.
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Do not graze treated areas or use clippings from treated areas for feed or forage.
- Keep children and pets off treated area until dry.

**Research Triangle Park, NC 27709**

**SHAKE WELL BEFORE USING.**

**INFORMATION FOR USERS:**
- Before use, read all directions and precautionary statements on this label and product container.
- Bayer CropScience is not responsible for any use of this product that does not comply with these directions and statements.

**FIRST AID INSTRUCTIONS:**
- See inside leaflet for complete First Aid Instructions.
- **CAUTION:** Use only in accordance with label directions. Avoid direct contact with skin, eyes, and clothing.

**Stop - Read the label before use.**

**Shrubs**

**Trees**

**Evergreens**

**Groundcovers**

**Interior**

an as needed basis.

Refer to use directions specific for FLOWERS and GROUND COVERS concerning additional use directions.

**Aphids**

**Adelgids (including hemlock woolly adelgid)**

**Thrips (foliage only)**

**Saw fly larvae**

**Whiteflies**

(including glassy-winged sharpshooter)

**Psyllids**

**Mealybugs**

**Glassy-winged sharpshooter** and spittle bugs)

**Black margined aphid**

**Pecan leaf phylloxera**

**Roundheaded borers (including Asian**

**Maleic hydrazide**

**Philornis**

**Royal palm bug**

**Pecan* Yellow pecan aphid**

* Not for use in California for control on pears.

**Allow 10 or more days between applications.**

**GRID SYSTEM:** Space holes on 2.5 foot centers, in a grid pattern, extending to the drip line of the tree.

**CIRCLE SYSTEM:** Apply in holes evenly spaced in circles, (use more than one circle dependent upon the size of the tree)

**BASEMENT:** Space injection holes evenly around the base of the tree trunk no more than 6 to 12 inches out from the base.

**Soil Injection:**

M ix required dosage in sufficient water to inject an equal amount of solution in each hole. Maintain a low pressure and root zone.

**BANDIT 2F Insecticide per 100 gal**

**Trees and Shrubs**

**Groundcovers**

**FLOWERS and GROUND COVERS**

**TREES, SHRUBS, FLOWERS and GROUND COVERS**

** Einsatz von LESCO BANDIT 2F Insecticide per year**

**Apply the following rates as a function of tree diameter at breast height (D.B.H.):**

- **0.1 to 0.2 fl oz (3 to 6 mL) per inch of trunk diameter (D.B.H.)**
- **0.2 fl oz (6 mL) per inch of trunk diameter (D.B.H.)**

**RESTRICTIONS**

Thorough uniform coverage of foliage is necessary for optimal control. Addition of an organosilicone-based spray adjuvant at a rate not to exceed the adjuvant manufacturer’s recommended use rate may improve coverage.

**IMPORTANT: READ BEFORE USE**

**STOP - Read the label before use. Keep out of reach of children.**

CAUTION

See inside leaflet for complete First Aid Instructions, Precautionary Statements, Directions for Use and Storage and Disposal.
For foliar and systemic insect control in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees and interior plantscapes.

**ACTIVE INGREDIENT:** 1-imidacloprid, 1-(6-Chloro-3-pyridinyl)methyl]-N-nitro-2-imidazolidinimin .............................. 21.4%
**OTHER INGREDIENTS:** .................................................................. 78.6%

*Contains 2 pounds of imidacloprid per gallon. SHAKE WELL BEFORE USING.
EPA Reg. No. 432-1312

STOP - Read the label before use. Keep out of reach of children.

**CAUTION**

PARA EL USUARIO: Si usted no lee o entiende inglés, no use este producto hasta que le hayan explicado completamente las instrucciones que figuran en la etiqueta.

(TO THE USER: If you cannot read or understand English, do not use this product until the label has been fully explained to you.)

**FIRST AID**

- Do not give anything by mouth to an unconscious person.

**If swallowed**
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**If on skin or clothing**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.
- If in eyes
  - Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
  - Call a poison control center or doctor for treatment advice.

**In case of emergency call toll free the Bayer Environmental Science Emergency Response Telephone No. 800-334-7577. Have a product container or label with you when calling a poison control center or doctor, or going for treatment.**

**Note To Physician:** No specific antidote is available. Treat the patient symptomatically.

**Net Contents**
1Gallon
80894015
80940416A 110519AV1

**PREGNANCY**

Avoid use in areas where food is grown. Do not apply to vegetation that may be forage for livestock.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Keep children or pets off treated area until spray is dry.

**ENVIRONMENTAL HAZARDS**

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

**Handle and open container in a manner as to prevent spillage. If the container is leaking, invert to prevent leakage. If container is leaking or material spilled for any reason or cause, carefully dam up spilled material to prevent runoff. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Absorb spilled material with absorbing type compounds and dispose of as directed for pesticides above. In spill or leak incidents, keep unauthorized people away. You may contact the Bayer Environmental Science Emergency Response Team for decontamination procedures or any other assistance that may be necessary. The Bayer Environmental Science Emergency Response Telephone No. is 1-800-334-7577 or contact Chemtrec at 1-800-424-9300.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Follow the rinsate disposal procedure two more times. Offer for recycling, if available, or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Research Triangle Park, NC 27709

WARNINGS AND PRECAUTIONS:

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Keep children or pets off treated area until spray is dry.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Keep children or pets off treated area until spray is dry.
Foliar Applications:

- Adultgids (including hemlock
- Asiatic garden beetle, Oriental beetle)
- Leaffeet-feeding bugs (including lace bugs, leaf
- Phyllophaga spp.,
- 1.5 fl oz (45 mL)
- BANDIT 2F (14 to 17 mL)
- Leaffeepers (including glassy-winged sharpshooter) and spittle bugs
- Thrips (foliage only)
- Soft scales
- Florida red, oystershell, tea, and
- Pecan*
- * Not for use in California for control on pears.

Do not apply more than a total of 18.0 fluid ounces of LESCO BANDIT 2F Insecticide per acre per year.

RESTRICTIONS

- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Do not make more than 5 applications.

Do not make more than 5 applications. The amount of LESCO BANDIT 2F required per acre will depend on tree size and volume of foliage present. The rate per 100 gal is calculated for 1.5 fl oz or more, as applicable.

RESTRICTIONS

- Make foliar applications as pests begin to build before populations become extreme. Two applications at a 10 to 14 day interval may be required to achieve control. Scout and retreat if needed.
- Uniform coverage of foliage is necessary for optimal control. Addition of an organosilicone-based spray adjuvant at a rate not to exceed the adjuvant manufacturer’s recommended use rate may improve coverage.

Applications may be applied up to and including day of harvest.

DIRECTIONS FOR USE

- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Thorough uniform coverage of foliage is necessary for optimal control. Addition of an organosilicone-based spray adjuvant at a rate not to exceed the adjuvant manufacturer’s recommended use rate may improve coverage.

CAUTION

- Keep out of reach of children.
- Do not apply more than 18.0 fluid ounces of LESCO BANDIT 2F Insecticide per acre per year.
- Do not apply more than 1.6 pints (0.4 lb of active ingredient) per acre per year.
- Do not make more than 5 applications.

Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product.

DISCLAIMER OF WARRANTIES:

- Bayer Environmental Science will not be liable for losses or damages resulting from the use or handling of this product.

STOP! Read the label before use. Keep out of reach of children.
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Personal Protective Equipment (PPE):

- • Shoes plus socks
- Non-WPS USES:
  - • Long-sleeved shirt and long pants
  - • Chemical resistant gloves made of any water proof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene

Note To Physician

- • Do not give anything by mouth to an unconscious person.
- • Have person sip a glass of water if able to swallow.
- • Take off contaminated clothing.
- • Rinse skin immediately with plenty of water for 15 to 20 minutes.
- • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Application to Ornamentals

This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. This chemical is a soil-applied systemic insecticide. Systemic activity is expressed as slow release of active material. Applications can be made in new and established turf, both grass and ornamental plants. Systemic activity cannot be achieved when these conditions exist. The treated turf area must be in such a condition that the rainfall period is to ensure that equipment is working properly.

APPLICATION EQUIPMENT FOR FOLIAR APPLICATIONS

LESCO BANDIT 2 F Insecticide mixes readily with water and may be used in many types of application equipment. Mix product with the required amount of water and apply as desired dependent upon the selected use pattern.

NOTE:

RESTRICTIONS:

- • Restriction is a commercial greenhouse, nursery, or park pest in need of a consumer label and does not have a consumer label.

APPLICABLE EQUIPMENT FOR FOLIAR APPLICATIONS

The active ingredient in LESCO BANDIT 2 F Insecticide has sufficient residual activity so that applications can be made prior to egg hatch of the target pests, followed by sufficient irrigation or rainfall to move the active ingredient into the part of plant that is more susceptible to damage. Application to ornamentals can be made any time during the growing season as needed. LESCO BANDIT 2 F Insecticide can be used as directed on turfgrass and ornamentals on such sites: residential home and private wooded and forested areas.

RESTRICTION:

- • Ant Management Programs

Honeydew available as a food source for ant populations. LESCO BANDIT 2 F Insecticide applications can be then be scheduled to coincide with ant activity, but not more than once a month. LESCO BANDIT 2 F Insecticide can be used annually at the rate of 2 fl oz per 100 square feet for ant management. Ant population densities vary from area to area. Additional applications may be required.

AGRICULTURAL USE REQUIREMENTS

For this product to reduce the effects of chinch bugs, make application prior to the hatching of the first instar nymphs. The replacement in the soil is not to be used in turfgrass applications as directed on ornamentals. The replacement in the soil application is to be used in turfgrass applications as directed on ornamentals.

Storage and Disposal

AGRICULTURAL USE REQUIREMENTS

For this product to reduce the effects of chinch bugs, make application prior to the hatching of the first instar nymphs. The replacement in the soil is not to be used in turfgrass applications as directed on ornamentals. The replacement in the soil application is to be used in turfgrass applications as directed on ornamentals.

Storage and Disposal

For this product to reduce the effects of chinch bugs, make application prior to the hatching of the first instar nymphs. The replacement in the soil is not to be used in turfgrass applications as directed on ornamentals. The replacement in the soil application is to be used in turfgrass applications as directed on ornamentals.
