USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing.
As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate.

PHYSICAL OR CHEMICAL HAZARDS
For chemical emergency: spill, leak, fire, exposure, or accident call CHEMTREC 1-800-424-3930.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labelling. Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirement specific to your State or Tribe, consult the State/Tribal agency responsible for pesticide regulation. Do not apply this product through any type of irrigation system.

AGRICULTURAL USE REQUIREMENTS
Use this product only in accordance with its labelling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated such as, plants, soil or water is:
• Coveralls
• Shoes plus socks
• Chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride or viton.

PRODUCT INFORMATION
• EXILIS PLUS is a plant growth regulator for use on apples and pears.
• EXILIS PLUS is a post-bloom thinning agent.
• EXILIS PLUS may increase fruit weight, but this is dependent on fruit set and the physiological condition of the trees.
• Apply EXILIS PLUS using conventional spray application machinery or as otherwise directed in this label. Do not apply EXILIS PLUS using irrigation equipment.
• The effectiveness of EXILIS PLUS depends on the variety of target apple and pear trees.
• The thinning effectiveness of EXILIS PLUS is increased by:
  ○ High temperatures before and after application (70-75°F (21-24°C))
  ○ Disease and physiological stress of target trees. Apply reduced rates to low vigor trees, or trees under stress from drought, winter injury, etc.

  The effectiveness of EXILIS PLUS is reduced by:
  ○ Low temperatures before and after application. Do not apply EXILIS PLUS if the temperature is below 60°F (16°C).
  ○ Rainfall immediately after application.
  ○ pH above 8. EXILIS Plus performs best when the pH is 5-6.5. A buffer or pH enhancer may be used for this purpose.
  ○ Direct 80% of the spray to the top 2/3rds of the tree structure.
  ○ Use a properly calibrated sprayer to ensure uniform and complete coverage of all foliage and developing fruit without run-off. Spray volume should be adjusted for tree size and density.
  ○ EXILIS PLUS works best if climatic conditions allow an extended drying period. Consider application in the morning or evening when temperatures are lower and humidity tends to be higher than during the day.
  ○ Consult your farm advisor or extension specialist for advice about tank-mixing EXILIS PLUS with other compounds.
  ○ DO NOT EXCEED 296 fl oz of product (182 grams of active ingredient) PER ACRE PER SEASON.
  ○ DO NOT APPLY CLOSER THAN 86 DAYS BEFORE HARVEST.

SPRAYING GUIDE FOR FRUIT THINNING
When used to thin fruit, EXILIS PLUS is normally applied in a single spray program; if a second application is needed, allow 7-10 days after the first to observe the effect and spray before the diameter of icing bloom fruit exceeds 20mm.

Make 1 – 2 applications of 75-200 ppm when king fruitlets are 5 – 10 mm in diameter (see EXILIS Plus Dilution Guide). The effectiveness of EXILIS PLUS depends on the variety of target apple and pear trees and weather conditions. Refer to your farm advisor or extension specialist for advice about rate of application. DO NOT EXCEED 296 fl oz of product (182 grams of active ingredient) PER ACRE PER SEASON.

SPRAYING GUIDE FOR FRUIT SIZING & RETURN BLOOM
Spray 2-4 applications of 10-50 ppm at petal fall and following at 3-10 day intervals. Generally use higher rates at longer intervals and lower number of applications. Refer to your farm advisor or extension specialist for advice about rate of application. DO NOT EXCEED 296 fl oz of product (182 grams of active ingredient) PER ACRE PER SEASON.

Applications for fruit sizing may cause thinning in some varieties or conditions of application.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Keep container tightly closed when not in use. Store below 75°F.
Pesticide Disposal: Waste resulting from the use of this product may be disposed of
on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse this container to hold
materials other than pesticides or dilute pesticides (rinseate). After emptying and
cleaning, it may be allowable to temporarily hold rinseate or other pesticide-related
materials in the container. Contact your state regulatory agency to determine allowable
practices in your state. Triple rinse as follows: Empty the remaining contents into
application equipment or a mix tank and drain for 10 seconds after the flow begins
to drip. Fill the container 1/4 full with water and recaps. Shake for 10 seconds. Pour
rinseate into application equipment or a mix tank or store rinseate for later use or
disposal. Drain for 10 seconds after flow begins to drip. Repeat this procedure two
more times. Then offer for recycling or reconditioning, if available, or puncture and
dispose of in sanitary landfill or by incineration, or, if allowed by State and local
authorities, by burning. If burned, stay out of smoke.

WARRANTY DISCLAIMER AND LIMITATION OF LIABILITY
Fine Agrochemicals Limited ("FINE") warrants that this Product conforms to the specifications on this
label. To the extent consistent with applicable law, FINE makes no other warranties and disclaims all
other warranties, express or implied, including but not limited to warranties of merchantability and
fitness for a particular purpose. No agent of FINE or any other person is authorized to make any
representation or warranty beyond those contained herein.

It is impossible to eliminate all risks associated with this Product. Plant injury, lack of performance, or
other unintended consequences may result because of factors such as abnormal weather conditions,
use of the Product other than in strict accordance with this label's instructions, presence of other
materials, the manner of application or other factors, all of which are beyond the control of FINE or
the seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

To the extent consistent with applicable law: 1) FINE disclaims any liability whatsoever for special,
incidental or consequential damages resulting from the handling or use of this Product and 2) FINE's
liability under this label shall be limited to the amount of the purchase price or, at the election of FINE,
the free replacement of the Product.

exilis® plus
Plant growth regulator solution for use on apples and pears
Active Ingredient: N-(phenylmethyl)Hypurine-8-amine 2%
Other Ingredients: 98%
Total: 100%

KEEP OUT OF REACH OF CHILDREN

CAUTION

EPA Reg. No. 82997-9-62917
NET CONTENTS: 1 Gallon (3.78 L)

FIRST AID

IF IN EYES
- Hold eye open and rinse slowly and gently with water for 5-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eyes.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.
You may also contact 1-888-567-5557 (National Poison Information Center) or emergency medical treatment information seven days a week, 24 hours a day. For more information, visit: www.opic.org or call: 1-888-367-5557.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Dilute and apply the solution at the rate of 2% as directed through the dilution rate.
Wear protective gloves and rubber- or plastic-lined clothing. Wash thoroughly with soap and water after
handling and before eating, drinking, or smoking. Clean all surfaces using soap and water. Do not contaminate clothing and
wear before eating or drinking.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some ingredients in this product may cause burns. If you want more options, follow the instructions for category 6 or an EPA
combustion-resistance selection chart.

- Application and other handling: rubber glove, rubber apron, rubber boots, rubber-lined rubber, or assembly line.
- Suits and shoes.

Follow the manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for availability, use detergent and hot water. Keep and wash PPE separately from other laundry.
