PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER
Convulsive Poison! Fatal if swallowed or inhaled.
Causes irreversible eye damage. Harmful if absorbed through skin. Do not get in eyes on clothing. Avoid contact with skin. Do not breathe dust. Wear goggles or face shield. For handling activities, use dust/mist filtering respirator (MSHAA/NIOSH approval number prefix TC-21C), or a NIOSH approved respirator with any N, P, R, or HE filter. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS
This product is toxic to fish, birds, and other wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into local sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or regional Office of the EPA.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labelling.
This product may be used only to formulate end-use rodenticide concentrates or ready-to-use baits which are limited by labelling to below-ground applications.
Formulators who use this product are responsible for providing data to support their registrations. End-use products formulated from this technical product may not be registered for uses that might contaminate human foods, animal feeds, meat, milk, poultry, or eggs.

KEEP OUT OF REACH OF CHILDREN
DANGER 
POISON
FIRST AID
IF SWALLOWED: CALL A PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY. If less than ten (10) minutes have passed since the poison was taken, give 1 or 2 glasses of water and induce vomiting by touching the back of the throat with the finger. Repeat until vomit fluid is clear. Have patient lie down in a quiet, darkened room and keep him warm and quiet. If person is unconscious, do not give anything by mouth and do not induce vomiting.
IF INHALED: Remove victim to fresh air. If breathing is difficult, give artificial respiration, preferably mouth-to-mouth. Get medical attention.
IF IN EYES: Hold eyelids open and flush with steady, gentle stream of water for 15 minutes. Get medical attention.
IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

NOTE TO PHYSICIAN
A. Administer 100% OXYGEN by positive pressure to provide as much pulmonary gas exchange as possible despite seizures.
B. Administer ANTI-CONVULSANT DRUGS intravenously to control convulsions. NOTICE: It may be difficult or impossible to stop seizure activity without stopping respiration. Be prepared to maintain pulmonary ventilation mechanically. Tracheotomy may be necessary before seizures are prolonged.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage of disposal.

PESTICIDE STORAGE: Store in a locked area, in a cool, dry place inaccessible to children. If container is damaged, stop any leaks by repositioning the container or by patching it or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On clean-up of spills, wear protective equipment as required to prevent contact with the product or its vapours. Sweep into a shovel and put the sweeping into a salvage drum. Dispose of wastes as indicated below.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spilled product, or rinsates is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping side and bottom to loosen clinging particles. Empty residue into mixing equipment. Then, dispose of liner in a sanitary landfill, or by incineration if allowed by State and local authorities. If container is contaminated and cannot be reused, dispose of it in the same manner.
