**MICROCARE® 3%**

Controlled Release Pyrethrins

Liquid Concentrate

**ACTIVE INGREDIENTS:**
Pyrethrins*, a botanical insecticide ........................................ 3.0%
Piperonyl Butoxide** .......................................................... 15.0%

**OTHER INGREDIENTS:** ......................................................... 82.0%
* 1 gal contains 0.25 lb of Pyrethrins and 1.25 lb piperonyl butoxide
** (butyloxy)phenylpropionate and related compounds

TOTAL: 100.0%

EPA Reg. No. 499-516 • EPA Est. No. 7969-M0-1
KEEP OUT OF REACH OF CHILDREN

CAUTION
See inside booklet/back-panel for pests and uses sites, First Aid,
Precautionary Statements, Directions for Use and Storage and Disposal.

NET CONTENTS: 3.75 qt (120 fl oz)
FIRST AID

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15 - 20 min. Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-832-HELP (24 hr/day, 7 days/week).

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for run-off for several months or more after application. Property draining soils and soils with shallow water tables are more prone to produce run-off that contains this product.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or rinsate.

PHYSICAL OR CHEMICAL HAZARDS

Do not spray where electrical short circuits might result, such as wall outlets, conduits, motors, switches, etc. Do not spray directly into any electronic equipment, such as radios, televisions, computers, telephones, etc.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. See inside booklet/back panel for additional Precautionary Statements, Directions for Use and Storage and Disposal.

STORAGE AND DISPOSAL

Do not contain water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container in secured, dry storage areas. Do not store above 100°F for extended periods of time. Storage below 32°F may cause freezing. If container is damaged or spill occurs, use product immediately or dispose of product and damaged container as indicated below.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site in accordance with the label directions, or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Empty container by using the product according to the label directions. Triple rinse container (or equivalent) promptly after emptying.Triple rinse as follows:

Empty the remaining contents into application equipment or a mix tank and drain for 10 sec after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 sec. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 sec after the flow begins to drip. Repeat this procedure 2 more times. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

Manufactured for:
Whitmore Micro-Gen Research Laboratories, Inc.®, by BASF Corporation

KILLS ACCESSIBLE STAGES OF: Angoumois Grain Moths, Ants (excluding Harvester Ants), Asian Lady Beetles, Bees, Boxelder Bugs, Caddies, Carpet Beetles, Carpenter Ants, Carpenter Bees, Centipedes, Cigarette Beetles, Cockerelles, Cocksroaches, Confused Flour Beetles, Crickets, Dermestid Beetles, Dried Fruit Beetles, Drugstore Beetles, Firebrats, Fleas, Flies, Fungus Gnats, Fungus Gnat Larvae, Gnats, Grain Mites, Indianmeal Moths, Mealworms, Mealworms, Mediterranean Flour Moths, Millipedes, Mosquitoes, Moths, Red Flour Beetles, Sawtoothed Grain Beetles, Scorpions, Silverfish, Spiders, Spiders, Ticks, Trogoderma, Wasps, Weevils (Granary Weevils and Rice Weevils) and Yellowjackets

FOR USE IN AND AROUND: Bakeries; Beverage Plants; Cell Hutchies; Canneries; Dairies; Flour Mills; Federally Inspected Meat and Poultry Plants; Food Handling Establishments; Food Processing Plants; Food Storage Areas; Grain Mills; Hog Operations; Homes; Horse Barns; Hospitals and Nursing Homes (except patient rooms while occupied); Hotels; Industrial Installations; Kennels; Landscapes; Loafing Sheds; Meat Packing Plants; Milk Rooms; Milking Parlors; Motels; Office Buildings; Poultry Operations; Residences; Restaurants; Schools; Stables; Supermarkets; Transportation Equipment (Airplanes [cargo areas only], Boats, Buses, Railcars, Ships, Trailers and Trucks); Warehouses and Zoos

FIRST AID
IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15 – 20 min. Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-632-HELP 24 hr/day, 7 days/week.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
**Personal Protective Equipment (PPE):** Applicators, mixers and other handlers must wear: Long-sleeved shirt, long pants, socks and shoes.

**User Safety Requirements:** Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

### USER SAFETY RECOMMENDATIONS

**Users should:**
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

### ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for run-off for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce run-off that contains this product.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or rinsate.

### PHYSICAL OR CHEMICAL HAZARDS

Do not spray where electrical short circuits might result, such as wall outlets, conduits, motors, switches, etc. Do not spray directly into any electronic equipment, such as radios, televisions, computers, telephones, etc.

### DIRECTIONS FOR USE

**IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.**

**USE RESTRICTIONS**

- Apply this product only as specified on this label.
- Except when applying to domestic animals (livestock), do not apply this product in a way that will contact workers or other persons, either directly or through drift.
- Except when applying to domestic animals (livestock), only protected applicators may be in treated area during application.
- Except when applying to domestic animals (livestock), do not enter or allow others to enter treated area until sprays have dried.
- Do not apply more than 1 time/day.
- Remove pets, birds and cover fish aquariums before spraying.
- Remove or cover exposed food and drinking water, in the treatment area, before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces in the treatment area, or wash them before use.
- Except when applying to sewers or drains as instructed on this label, do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur.
- In hospitals and nursing homes, do not use in patient rooms while occupied.
- In schools, do not apply to classrooms when in use.
- Do not use in aircraft cabins.
- Do not make outdoor applications during rain.
- All outdoor applications must be limited to spot or Crack & Crevice treatments only, except for the following permitted uses:
  1. Treatment to soil or vegetation around structures;
  2. Application to lawns, turf and other vegetation;
  3. Applications to building foundations, up to a maximum height of 3 ft. Other than applications to building foundations, all outdoor applications to impervious surfac-
as such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, door and eaves) are limited to spot and Crack & Crevise applications only.

- Do not water the treated area to the point of runoff.
- Do not wet plants to point of runoff or drip.
- Do not wet articles to point of runoff or drip.
- Do not use treated articles until spray has dried.
- When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.

**MIXING INSTRUCTIONS**
Shake container well. Fill spray tank half full with water. Add the appropriate amount of concentrate according to the dilution table. Add remaining water to spray tank and mix well. Agitate material while using. Use 50 mesh screen in sprayer.

**APPLICATION INSTRUCTIONS**
Apply via Crack & Crevise®, direct, spot or surface application method(s). Do not apply as a space spray.

**HOSE-END SPRAYERS:** Dilute, as desired, according to the dilution table or specific directions for use. Shake sprayer to disperse the product and shake occasionally during use to maintain dispersion.

**COMPRESSED AIR SPRAYERS:** For surface applications, apply as a coarse, wet spray at the rate of 1 gal/diluted product/1,000 ft² of surface. For Crack & Crevise applications, inject product at the rate of 1 sec/ft. In long running cracks, move injector tip at the rate of 1 ft/sec.

**VOID/Crack & CREVICE APPLICATION:** To treat insects harboring in voids and in cracks and crevices, use equipment designed for void applications. Follow the manufacturer's recommendations for proper equipment setup and operating pressures. Place the tip of the applicator at or into the crack, crevice or void to be treated. Apply product in short bursts while keeping the tip in position. Allow the air stream to push insects deep into voids. Apply in such a manner to limit dripping and run-off on structural surfaces and plants.

**CRAWLING INSECTS AND SPIDERS:** Apply as a Crack & Crevise or spot treatment to hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators and manholes. Treat floors, walls, under pallets, behind shelves and drawers. Apply directly on insects in these locations where possible.

**PERIDOMESTIC COCKROACHES:** Apply at the 0.10% rate, as a Crack & Crevise or spot treatment to hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators and manholes. Treat floors, walls, under pallets, behind shelves and drawers. Apply directly on insects in these locations where possible.

**ANTS (excluding Harvester Ants):** Treat trails, nests and points of entry around doors, bookcases and storage areas. Apply directly on insects in these locations where possible.
CARPENTER ANTS: Locate source of infestation. Inject 5 – 10 sec of product into insect tunnels and cavities.

BED BUGS: Apply to cracks and crevices where evidence of bed bugs occurs. This includes bed frames, mattresses, box springs, inside empty dressers and clothes closets, carpet edges, high and low wall moldings and wallpaper edges. Take bed apart. Treat joints and channels if hollow, such as square or round tubing, and see that the interior framework is treated. Treat mattresses, especially tufts, folds and edges. Allow all treated areas to dry thoroughly before use. Not recommended for use as sole protection against bed bugs. Do not apply more than once every 7 days.

CARPET BEETLES: Apply on and under edge of floor coverings, under carpets and furniture and in closets or other locations where these insects are found. Entire carpets may be treated.

TICKS: Direct product toward pet beds and resting areas. Treat adjacent cracks and crevices such as behind baseboards and edges of carpet and floor coverings. Treat higher cracks such as upper door jams and window framing, behind pictures and other areas where females may crawl to lay eggs. Allow spray to thoroughly dry before allowing pets to return.

Do not treat companion animals, such as dogs, cats, puppies or kittens, with this product.

STORED PRODUCT PESTS: Apply as a Crack & Crevice or spot treatment to localized areas including shelves, cupboards, walls and floors where food products suspected of being infested are stored. Remove or cover food, in the treatment area, before application. This treatment is supplemental to good housekeeping, since it will have no effect on insects inside packaging. Dispose all infested foodstuffs.

FOAM APPLICATION: This product can be converted to a foam and the foam used to treat structural voids to kill insect and arthropod pests in walls, under slabs or in other void areas. Mix 1 part end-use dilution with 25 parts foaming agent. This will provide adequate coverage and expansion without significant wetting to interior wall surfaces. Verify, before treatment, that the foaming agent is compatible with this product.

FOOD HANDLING ESTABLISHMENTS

Applications are permitted in food/feed areas of food/feed handling establishments as a Crack & Crevice, spot or direct spray treatment, including those operating under the Federal meat, poultry, shell egg grading and egg products inspection programs. Do not apply as a space spray.

Food handling establishments are places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS: Include areas for receiving, serving, storing (dry, cold, frozen, raw), packing (canning, bottling, wrapping, boxing), preparing (cleaning, slicing, cooking, grinding), edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups).

NON-FOOD AREAS: Include areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas after canning or bottling.

Apply according to specific directions for pest(s) to be treated under the indoor Use section.

OUTDOOR USE

Do not apply this product through any type of irrigation system or sprinkler systems, cold ULV foggers, thermal foggers or hand-held, aerosol mister/foggers. Apply only as a surface application by backpack, hose-end sprayer, hydraulic sprayer or compressed air sprayer.

FLYING INSECTS: Treat outside surfaces of screens, doors, window frames or wherever insects may enter indoors. Also treat surfaces around light fixtures on porches, in garages and other places insects alight or congregate.

MOSQUITOES, FLIES AND GNATS: Apply as a wet spray to open areas near homes, buildings and in camping grounds. Treat shrubbery, vegetation and other areas where these pests may rest. Shrubbery and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Treatment of vegetation in water from land is also permitted by allowing wind to move product into vegetation, but application of this product directly to any body of water is prohibited.

CRAWLING INSECTS AND SPIDERS: For treatment of localized infestations of these insects in outdoor areas which are landscaped, planted, mulched or unmaintained, treat infested areas. For ants, wet hills and runways. Repeat applications as infestation warrants and as reinfestations occur. For ants and spiders, apply product to cracks and crevices where insects may enter premises or harbor. Areas to be treated include weep holes, under siding, wall voids,
soffits, eaves around attic vents, cracks and crevices, openings around windows, doors and pipes. Treatment of infested fences and tree holes is permitted.

**PERIDOMESTIC COCKROACHES:** Apply at the 0.10% rate, as a Crack & Crevice or spot treatment to hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators and manholes. Treat floors, walls, under pallets, behind shelves and drawers. Apply directly or insects in these locations where possible.

**STRUCTURAL PERIMETER TREATMENT:** To reduce infestations of buildings, treat a band of soil 6 – 10 ft wide around and adjacent to the building. Also treat the building foundation to a height of 2 – 3 ft where pests are active and may find entrance. Treat other insect entry points and harborage such as doors, windows, under siding and eaves of structure. This product may be applied in compressed air, backpack or power spray equipment. Apply at the rate of 1 – 4 fl oz of concentrate/1,000 ft² (see chart below). Apply in sufficient water to adequately cover the area being treated. Apply in such a manner to limit dripping and run-off on structural surfaces and plants.

**MOSQUITOES, FLIES AND GNATS:** For pests in open areas near homes, buildings and in campgrounds, apply as a surface spray to shrubbery and vegetation, and other areas where these pests may rest. Structural surfaces, shrubbery and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Treatment of vegetation in water from land is also permitted by allowing wind to move product into vegetation, but application of this product directly to any body of water is prohibited.

**OUTDOOR RESIDENTIAL MISTING SYSTEMS†:** Dilute 0.5 – 1 gal of concentrate in 54 gal of water.

**USE RESTRICTIONS**

- When using this product, installers and service technicians must comply with the license, certification or registration requirements of the state(s), tribe(s) or local authority(ies) where they are installed.
- If the system works on an automatic timer, set the timing for application when people, pets and food are unlikely to be present.
- If the system works when a person operates a remote activation device, then application of this pesticide when people, pets and food are present is prohibited.
- Do not use in an evaporative cooling system.
- Direct nozzles to spray towards the target area and away from swimming pools, water bodies, or eating and cooking areas.
- Do not set nozzles to direct mist near outside air condition systems or other home air intakes.
- If used in a system with a reservoir tank for the end use dilution, the system reservoir tank must be locked. Securely attach the end use pesticide label and a dilution statement to the system reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be phrased as follows: This container holds ____ parts [product name] to ____ parts water.
- If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.
- Contact the system manufacturer for guidance or assistance to ensure compliance with the following requirement.
- This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 3 fl oz of a 0.02% pyrethrins dilution/1,000 ft²/day. † In New York State, this product may NOT be applied using residential automated misting systems.

**USE IN AND AROUND LIVESTOCK HOUSING**

**FOR FAST KNOCKDOWN OF FLYING INSECTS:** Close all windows and doors. Using a mixture of 1 – 2 fl oz of product per gallon of water, direct fog upward in all directions at the rate of 3 fl oz diluted product per 1,000 ft² of space. Thoroughly ventilate the area after treatment is completed.
TO KILL FLIES IN NON FOOD ANIMAL AREAS SUCH AS DOG KENNELS, HOG BARNS, RABBIT HUTCHES, DAIRY AREAS, MILKROOMS, CALF HUTCHES, CALVING PENS AND PARLORS: Treat normal fly resting areas such as ceilings, screens, upper corners of the area, around windows and doors, light fixtures and other surfaces known to attract flies. Apply as a coarse, wet spray using a mixture of 1.5 fl oz of product per gallon of water. Apply at a rate of 1 gal diluted product per 1,000 ft² of surface. Initiate treatments at the beginning of the fly season and repeat weekly during periods of heavy fly activity.

FOR FLEA CONTROL: Treat animal areas such as dog kennels and runs. Apply as a coarse, wet spray using a mixture of 2 fl oz of product per gallon of water. Apply at a rate of 1 gal diluted product per 1,000 ft² of surface.

FOR TREATMENT OF DOMESTIC ANIMALS: Use 2 fl oz of product per gallon of water (use 4 fl oz for quick knock-down and longer residual control) and apply as a low pressure spray. Lightly mist animals thoroughly, but do not treat to runoff. Do not spray directly toward the face or eyes. Application may be repeated daily.

Do not treat companion animals, such as dogs, cats, puppies or kittens, with this product.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container in secured, dry storage area. Do not store above 100°F for extended periods of time. Storage below 32°F may cause freezing. If container is damaged or spill occurs, use product immediately or dispose of product and damaged container as indicated below.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site, in accordance with the label directions, or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container! Empty container by using the product according to the label directions. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows:

1. Empty the remaining contents into application equipment or a mix tank and drain for 10 sec.
2. After the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 sec. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 sec after the flow begins to drip. Repeat this procedure 2 more times.
3. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

CONDITIONS OF SALE AND WARRANTY

Follow the Directions for Use. It is impossible to eliminate all risks inherently associated with use of this product, and therefore all such risk shall be assumed by the Buyer. Whitmire warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks, referred to above. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW: (A) WHITMIRE MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY, (B) BUYER'S EXCLUSIVE REMEDY AND WHITMIRE'S AND SELLER'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT, AND (C) WHITMIRE AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. Whitmire and the Seller offer this product, and the Buyer accepts it, subject to these Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of Whitmire.
