and Disposal Instructions.

EPA Reg. No. 432-1457 EPA Est. No. 3125-FRA-001

For use in forestry.

ACTIVE INGREDIENT:
Imidacloprid, 1-[(6-Chloro-3-pyridinyl)
methyl]-N-nitro-2-imidazolidinimine............................................... 20%
OTHER INGREDIENTS: ................................................................. 80%

Net Contents
1200 Tablets
3 Kg (6.6 lbs)

Derived from: Isobutylidene Diurea, Ammonium Phosphate, Ammonium Sulfate,
Sulfate of Potash, Magnesium Sulfate and Ammonium Molybdate

CAUTION: Forage crops high in molybdenum (Mo) are toxic to ruminant animals.
This fertilizer contains molybdenum (Mo) and should not be applied on crops that
can be consumed by grazing animals (ruminants).

*10.00% Slowly Available Nitrogen from Isobutylidene Diurea.
*WIN (Water Insoluble Nitrogen) is stated on an unground basis. Powdered or ground
samples will analyze at 3.00%.

Information regarding the contents and levels of metals in this product are available
on the Internet at http://www.regulatory-info-ba.com
SilkShield® Forestry Tablets™ contain a neonicotinoid insecticide. The active ingredient in these tablets is acetamiprid, a member of the neonicotinoid chemical class. Insect pests resistant to this chemical class have not shown cross-resistance to other chemical classes. Some insects are known to develop resistance to insecticides after repeated use. As with any pesticide product, follow the label directions, keep unauthorized people away. You may contact the Bayer Environmental Science Emergency Response Telephone No. is 1-800-334-7577 or contact any State or local authorities, by burning. If burned, stay out of smoke. Do not walk through spilled material. Absorb spilled material with non-combustible type compounds and dispose of as directed for pesticides above. In spill or leak incidents, refer to Precautionary Statements on label for hazards associated with the product.

### First Aid

**WARNING**

- **IF IN EYES:** Have person sip a glass of water if able to swallow.
- **IF SWALLOWED:** Place one tablet directly into the planting hole of seedlings, cuttings, or into each container as soon as possible after planting. For containerized plants, place the tablets approximately 1-2" below the soil surface, near the roots of each container. Do not apply tablets if the soil is saturated or if there is water present at the bottom of the planting hole.

### Precautionary Statements

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing.

**Personal Protective Equipment (PPE)**

- **Applicators and Other Handlers:**
  - Long-sleeved shirt and long pants
  - Chemical-resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, or natural rubber

**PRECAUTIONARY STATEMENTS**

Note to Physician:

- Call a poison control center or doctor for treatment advice.
- Remove contact lenses, if present, after the first 5 minutes, then continue.
- Have the potential exposed person rinse immediately with plenty of water for 15 to 20 minutes.

### Environmental Hazards

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

### Directions for Use

- Use with care. Wash hands and clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing, if possible, wash thoroughly and change into clean clothing.

### Storage and Disposal

- Do not contaminate water, food, or feed by accidental release.
- Use with care. Wash hands and clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
