ULTIMA

S-O-S™

Shock • Oxidizer • Sanitizer

• Quick dissolving shock, oxidizer, buffer and clarifier
• Boosts chlorine residual
• Multi-functional shock treatment

ACTIVE INGREDIENT:
Sodium dichloro-s-triazinetrione 15%
OTHER INGREDIENTS:
Potassium peroxymonosulfate 72%
Other 13%
TOTAL 100%
Available Chlorine 9.53%

KEEP OUT OF REACH OF CHILDREN
DANGER

NET WT. 1 LB. (454 g)

Ultima S.O.S. is a proprietary blend of DuPont Oxone®, a powerful oxygen based oxidizer, and a chelating agent, combined with a pH buffer and a dry clarifier. This unique formulation provides the benefits of oxygen-based oxidation, while boosting free chlorine concentrations. This one-two punch keeps water sparkling clean, by oxidizing and eliminating organic contaminants. Since Ultima S.O.S. is buffered, it will not affect water balance; therefore pH and total alkalinity will remain unchanged. The addition of clarifier aids the oxidation filtration process so water contaminants are more readily removed.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY:
FOR POOLS: Always add with pump and filter running to ensure complete mixing and good circulation. Ultima S.O.S. is completely soluble and dissolves quickly, so no mixing is required. Broadcast Ultima S.O.S. uniformly over the surface of the water, allowing about two-thirds of the total dose into the deep end of the pool. Apply product when swimming pool is not in use. Swimming may resume as soon as 15 minutes after product application, provided the chlorine residual concentration in the pool is between 1 and 3 ppm.

For pools with moderate daily usage, add Ultima S.O.S., weekly at a dose of 1 pound per 10,000 gallons of pool water. Each pound of Ultima S.O.S. will raise the free chlorine concentration by 1 ppm (part per million) in 10,000 gallons of pool water. More frequent or heavier doses may be required during periods of heavy use or following heavy rains or high winds.

For pool opening and pool closing applications, add Ultima S.O.S. at a dose of 2 pounds per 10,000 gallons of pool water. This dose will provide sufficient oxidizer to eliminate most of the contaminants that accumulate in a pool during the winter months. Ultima S.O.S. will be added to the pool as a fog, and will immediately raise the free chlorine concentration by 1 ppm (part per million) in 10,000 gallons of pool water.

Reentry is prohibited above levels of 3 ppm chlorine due to risk of bodily injury.

STORAGE AND DISPOSAL: Keep this product dry, in its original unopened bag until use. Store in a cool, dry, well-ventilated area, away from combustible materials, incompatible chemicals and sources of heat. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate bag in open area if possible and flood area with large amounts of water to dissolve all material before discarding this bag. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Remove empty bag thoroughly. Do not re-use bag. Discard in trash.

ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
DANGER: Corrosive. Causes irreversible eye damage. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wear chemical resistant gloves and protective eyewear. May be fatal if inhaled. Do not breathe dust or spray mist. Harmful if swallowed or absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and contact with skin or clothing.

See other precautions and first aid on back panel.
