FLEA & TICK COLLAR
FOR LARGE DOGS

READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Remove collar around dog's neck. Fit collar snug enough to prevent placement of the dog's leg or lower jaw through the collar, yet loose enough to be rotated around the neck. Generally, 2 or 3 fingers should fit between the collar and dog's neck.
2. Leave 2-3 extra inches on the collar for adjustment, cut off excess length, and dispose of in trash.
3. Check periodically and adjust if necessary, especially when puppies are rapidly growing.
4. May be used in addition to regular collar. Replace collar when effectiveness diminishes.

WHAT TO EXPECT

FOR FLEAS: 1. This BIO SPOT® Flea & Tick Collar for Large Dogs is designed to kill adult Fleas. 2. This collar starts killing Fleas as soon as it is placed around dog's neck. 3. Protection against Fleas will be achieved within a few days, providing continuous protection for up to 5 months. 4. Replace collar every 5 months to help control flea infestations on your dog.

FOR TICKS: 1. Full protection against adult and immature ticks will be achieved within a few days, providing continuous protection for up to 5 months. 2. Adult Ticks will be killed over the entire pet. Dead Ticks will fall off or may be easily removed. 3. Replace collar every 5 months for continuous protection from Ticks. If your dog goes swimming or is out in the rain, it is not necessary to remove the collar. The continuous action collar will rapidly replace any flea and tick killing material removed.

STORAGE AND DISPOSAL: Store in original, unopened container away from children. Disposal: Do not reuse container or used collar. Dispose of to trash.

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION: Do not get dust or collar in mouth, hair, nails or skin. Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling collar. ANIMALS: Consult a veterinarian before using this product on pregnant, lactating, premature, or nursing dogs. DO NOT USE ON PUPPIES UNDER 12 WEEKS OF AGE. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to chloroquine-resistant Plasmodium, or chloroquine. However, flea and tick collars may be immediately replaced. When collar is first worn, observe next area every few days for irritation. Remove collar at the first sign of irritation or adverse reaction. Sensitivities may occur after using any pesticide product for pets. If signs of sensitivity occur, remove collar and bathe your pet with mild soap and rinse with large amounts of water.

FIRST AID: Call a poison control center or doctor for treatment advice.

If swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.

WHAT TO DO IF OVERDOSED:
- Take off collar and have your dog examined by your veterinarian.

NOTE TO PHYSICIAN/VETERINARIAN: "Alopecrine" and "Xenobenzine" are anticonvulsant and are used as a deterrent to control seizures. If symptoms of chloroquine-induced seizures are present, call your veterinarian for further medical treatment information.

Seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risks of use and handling of the material when such use and handling are contrary to label instructions.

Use Precautions as listed on label.
