LEISURE TIME®
Spa Minerals

Mineral Spa Care developed with technology from FROG®
Up to 50%* reduction in bromine or chlorine use

The Leisure Time® Spa Mineral System® improves water quality by:
- Destroying bacteria for improved clarity
- Helping to maintain a neutral pH
- Reducing bromine or chlorine use for softer water

*Compared to the minimum AHA recommended bromine or chlorine level of 2.5 ppm for a spa

RECOMMENDATIONS:
- Initial filling of new spas, pool or hot tub is a two step process.
  - Step 1: Use a 2 oz. packet for each 1,000 gallons of water.
  - Step 2: Use a 1 oz. packet for each 1,000 gallons of water.

FROG® Offers More Relaxation
- Simply a more enjoyable spa experience
- Permanent rod fits almost all spas
- Welded rod helps prevent breakage
- Insert easily into filter
- Also works in most skimmers or filter walls
- Water feels softer with a crystal clear shine
- Lasts 4 full months

Leisure Time® Spa Minerals works together with very low levels of bromine or chlorine to control bacteria, condition the water and help neutralize pH.

Leisure Time® Spa Minerals System® installation:
- Step 1: Drain spa to desired level.
- Step 3: Refill spa with cold water.
- Step 4: Rebalance spa water with the appropriate Spa Maintenance System
