See side panel for additional precautionary statements.
BLEACH-FREE, ALCOHOL-FREE

DIRECTIONS FOR USE:

- Use one wipe to completely remove surface of all gross debris from surfaces to be treated.
- Disinfectant: To disinfect hard, non-porous surfaces, thoroughly wet the surface to be treated. Treated surface must remain visibly wet for disinfection; to disinfect against Escherichia coli (E. coli), Staphylococcus aureus (MRSA), Mycobacterium bovis (TB) (Tuberculosis) and Vancomycin intermediate-resistant Staphylococcus aureus (VISA), allow the treated surface to remain wet for 10 minutes. A potable water source is required for surfaces in direct contact with food. For plastic and painted surfaces, spot test on an inconspicuous area before use. For heavily soiled surfaces, clean before following disinfecting instructions.

VIRUCIDAL ACTIVITY: Medline Micro-Kill™ is an effective virucide on hard, non-porous surfaces against Human Immunodeficiency Virus Type 1 (HIV-1) when the treated surface is allowed to remain wet for 2 minutes. Herpes simplex Virus (HSV) and Feline calicivirus when the treated surface is allowed to remain wet for 10 minutes. Use additional wipes if needed to ensure that the treated surface remains continuously wet for the prescribed time.

For Ultrasound Transducers and Probes: Use only on external surfaces of ultrasound transducers and probes. With a clean washcloth, clean gel from external surface of ultrasound transducer or probe to be disinfected. Then thoroughly wet probe with wipe. Treated surface must remain wet for 10 minutes. Use additional wipes if needed to assure continuous 10 minute wet contact time. Let air dry.

STORAGE AND DISPOSAL

Do not store on or near heat sources or near open flames or sparks, or while wearing any clothing. Avoid continuous contact with eyes or skin. Wear gloves, safety glasses, and protective clothing. Use soap and water after handling and before eating, drinking, chewing gum or using tobacco. Do not contaminate water, food, or household items. Wash hands after handling. Do not treat or reuse.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

FOR EXTERNAL USE ONLY. NOT FOR INHALATION OR INTRAVENOUS USE. THIS PRODUCT IS NOT INTENDED TO BE USED AS A SUBSTITUTE FOR PROPER HYGIENE OR AS A SUBSTITUTE FOR PRACTICE STANDARDS OR STANDARDS FOR INFECTION CONTROL.
