PREPARATION OF DISPENSER: Remove cover from container and discard covering seal. From center of wipes roll, pull up a wipe corner, twist into a point and thread through the tear slot in the underside of the lid cover. Pull wipe through about one (1) inch. Replace the lid cover on container, securing a secure fit. Pull out first wipe and snap at 90° angle. Remaining wipes feed automatically for next use. Always reseal hung cap after each use to ensure moisture retention.

DIRECTIONS FOR USE: It is a violation of U.S. Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal/stealth level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate only semi-critical medical devices prior to sterilization or high level disinfection. This product is not for use on the inhalation therapy and/or pulmonary diagnostic equipment.

DISINFECT: Thoroughly wet pre-cleaned, hard, non-porous surface with a wipe, keep wet for 2 minutes (5 minutes if fungus is suspected), and allow to air dry. Use as many wipes as needed for the treated surface to remain wet for the entire contact time. For use as a general disinfectant on hard, non-porous, inanimate surfaces such as:

- stainless steel
- exam tables
- counters tops
- chair racks
- equipment cards
- razor blades
- cutters
- wheel chairs
- chains
- wastebaskets
- sinks
- light fixtures
- switches
- cages
- operating room hard surfaces
- ambulatory equipment and surfaces
- external surfaces of respirators, and/or anesthesia equipment

You may use a wipe to pre-clean the surface to be disinfected, but thorough re-wiping with a fresh wipe is required for disinfection. Use on food contact surfaces, must be followed by a potable water rinse.

DEODORIZING: Wipes hard, non-porous surface thoroughly to eliminate odors from bathrooms, fecal matter, urine, burns, smoke, mold and mild, dye, stale air, tobacco, sickness and musty closets.

CLEANING: To clean surfaces, wipe thoroughly with a fresh wipe, which may be used to deodorize the area at the same time as cleaning. When used to clean a hard non-porous surface prior to disinfection, a second wipe must be used for disinfection.

THE ACTIVITY OF MEDLINE Micro-Kill™ Disinfecting, Deodorizing, Cleaning Wipes with Alcohol against the HIV-1 (AIDS VIRUS) is intact at room temperature (20°C-25°C). Medline Micro-Kill™ Disinfecting, Cleaning Wipes with Alcohol kill HIV-1 on inanimate, non-porous surfaces/objects soiled with blood/body fluids, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type-1 (HIV-1)(as associated with drug use). HIV-1 is the virus that causes AIDS.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

- Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Medline Micro-Kill™ Disinfecting, Deodorizing, Cleaning Wipes with Alcohol. Contact Time: HIV-1 virus is inactivated in 1 minute, however, other pathogens require 5 minutes exposure for complete kill. See direction directions. Disposal of Infectious Materials: Materials that may contain blood or other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

STORAGE AND DISPOSAL:

- Store in cool area. Keep away from heat or open flame. Do not reuse wipes. Dispose of used wipes in trash. Container Disposal: Non-refillable container. Do not re-use or refill this container. Offer for recycling if available.

PRECAUTIONARY STATEMENTS:

- Hazard to Humans and Domestic Animals

WARNING: Causes substantial, but temporary eye injury. Do not get in eyes or on clothing. Wear (specific appropriate protective eye wear such as goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Wear disposable latex gloves, gowns, masks and eye coverings, when handling HIV-1 infected blood or body fluids. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

FIRST AID:

- If in eyes: Hold eye open and rinse slowly and gently with water for at least 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then, continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. Wash contaminated clothing before reuse. WASH THOROUGHLY AFTER HANDLING WIPES.
