• Gluco-Chlor® meets OSHA blood borne pathogen standards in 29 CFR 1910-1030
• Gluco-Chlor® meets the CDC guidelines for disinfection of blood glucose meters
• Gluco-Chlor® meets the CMS guidelines for Tag F441 in 42 CFR 483.65 for disinfection of blood glucose meters.
• Gluco-Chlor® is a one-step cleaner and disinfectant that is sporicidal and meets the CDC, CMS Tag F441, SHEA-IDSA, APIC and Joint Commission guidelines for killing Clostridium difficile spores.
SUGGESTED AREAS OF USAGE: Medical, Dental and Laboratory Counters, Exam Tables, Blood Glucose Meter, Cart, Patient Care Equipment, Printed-Care Equipment, Digital Screens on Panels, Glass Bottle, Stainless Steel, Furniture, Vinyl, and Rubber Surfaces.

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISINFECTION:
1. Always use personal protective equipment.
2. Open Clorox® bleach packet.
3. Remove premixed 3x1.5 wipe.
4. Apple wipe and wipe desired surface to be disinfected.
5. A 30 second contact time is required to kill HIV and HBV. A 4 minute contact time is required to kill Clostridium difficile spores. A 4 minute contact time is required to kill HIV and other organisms listed on the label. As necessary, to ensure that the surface remains wet for entire contact time.
6. Allow surface to air dry and discard used wipe and empty packet (flee savings and dispose).

*KILLS HIV-1, HBV and HCV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of contaminated surfaces/objects with blood/body fluids and in which the surfaces/objects likely to be soiled with blood/body fluids can be monitored and the potential for transmission of HBV and/or HCV is known.

SPECIAL INSTRUCTIONS FOR CLEANING & DISINFECTION AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling soiled/contaminated blood or body fluids, use disposable gloves, gowns, masks and eye protection.

CLEANING PROCEDURES: Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of Clorox® bleach.

CONTACT TIME: Allow surface to remain wet for 30 seconds or see HBV and HCV for 4 minutes. See instructions for different surfaces and 5 minutes to kill HIV and other organisms listed on the label.

DISPOSAL OF INFECTIOUS MATERIALS: Blood/body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal. Contact products by calling 1-800-872-8711.

PRECAUTIONARY STATEMENTS:

Hazard to humans and domestic animals.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

This product shall not be used as a terminal sterilization/disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) comes in direct contact with mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

*This product is for the exterior surfaces of Glucometers and is not for use on the needle and/or the meter.

STORAGE AND DISPOSAL

Do not contaminate: water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry, and well-ventilated area away from heat, open flames, direct sunlight and inaccessible to children.

Pesticide (wipe) Disposal: Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: Dispose of waste in trash after use. Do not flush. Offer empty container for recycling if available or discard in trash.

Rotate dated products while in inventory.
Directions for use:

1. Always use personal protective equipment. *
2. Open Gluco-Chlor® packet.
3. Remove pre-saturated 3 x 3" wipe.
4. Apply wipe and wipe desired surface to be disinfected.
5. A 30 second contact time is required to kill HBV and HCV.
   A 5 minute contact time is required to kill HIV and other
   organisms listed on the label. Repeat as necessary to ensure that
   the surface remains wet for entire contact time.
6. Allow surface to air dry and discard used wipe and empty
   packet (see storage and disposal).

Disposal:
Disposal of wipe in trash after use. Do not flush. Offer empty packet
for recycling if available or discard in trash.
