DIRECTIONS FOR USE (Continued):

NON-FOOD CONTACT SANITIZING PERFORMANCE: At 1/4 ounce per 1 gallon use level (600 ppm active) or equivalent use dilution), this product is an effective one-step sanitizer and a 3-minute contact time against the following on hard non-porous surfaces: Klebsiella pneumoniae, Staphylococcus aureus.

For DISINFECTION and to CONTROL the GROWTH of MOLD and MILDEW on NON-POROUS ATHLETIC EQUIPMENT: For use on wrestling and gymnastic mats, athletic mats, exercise equipment, athletic training tables, physical therapy tables, athletic helmets, wrestling boxing headgear, athletic shoe soles, and other hard nonporous surfaces. Saturate surfaces with a use solution of 1/4 ounce per 1 gallon of water (or equivalent dilution). Apply by cloth, sponge, mop, brush, hand pump spray device. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Allow surfaces to remain wet for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution begins to visibly dirty.

"KILLS HIV, HBV AND HCV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soil of the surface by objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS, Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING and DECONTAMINATION AGAINST HIV-1, HBV and HCV on SURFACES/OBJECTS SOILED with BLOOD/BODY FLUIDS. Personal Protection: Clean up must always be done wearing protective latex gloves, goggles, masks and eye protection.

Cleaning Procedure: Blood and other body fluids containing HIV-1, HBV and HCV must be thoroughly cleaned from hard nonporous surfaces and objects before application of this product.

Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

Contact Time: Leave hard nonporous surfaces wet for 10 minutes with a 1/4 fluid ounce per gallon use solution (or equivalent use dilution).

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS and DOMESTIC ANIMALS

DANGER. KEEP OUT OF REACH OF CHILDREN.

Corrosive, Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD: This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with oxidizers, anionic soaps and detergents. Do not use or store near heat or open flame.

First Aid: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE and DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

CONTAINER DISPOSAL: Non-refillable container. Store only in original container. Do not reuse empty container. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. Triple rinse as follows: Fill container 1/4 full with water and redissolve the container. Agitate vigorously and dispose of rinsate. Repeat two more times. Wrap container and put in trash or offer for recycling if available.

RESIDUE REMOVAL INSTRUCTIONS: Triple rinse container promptly after emptying. Triple rinse as follows: Fill the container 1/4 full with water and recapt. Shake for 10 seconds. Follow Pesticide Disposal Instructions for rinsate disposal. Disbar for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

One Step Disinfectant Germicidal Detergent.

Disinfectant, Non-Food Contact Sanitizer, Cleaner, Mildewstat, Fungicide, Virucide*, for Hospitals, Nursing Homes, Commercial, Institutional, and Industrial Use.

Non-Dulling to Floor Finishes.

Effective in hard water up to 400 ppm hardness (Calculated as CaCO₃) in the presence of 5% serum contamination.

ACTIVE INGREDIENTS:

Didecyldimethyl Ammonium Chloride 10.14%

n-Alkyl (C₉, 50%, C₁₀, 40%, C₁₁, 10%) dimethyl Benzyl ammonium Chloride 6.76%

INERT INGREDIENTS: 83.10%

TOTAL 100.00%

Multi-Clean®

Net Contents: 1 U.S. Gallon 3.78 Liters
Century Q 256 is a no-rinse neutral pH disinfectant cleaner that disinfects and cleans in one labor saving step. Century Q 256 is for use on hard, non-porous surfaces in: Hospitals, medical and dental offices and clinics, healthcare facilities, nursing homes, EMS & fire facilities, emergency vehicles, day care centers and nurseries, restaurants and bars, supermarkets, retail and wholesale establish-
ments, commercial facilities, Institutional facilities, hotels and motels, public restrooms, shower rooms, schools, colleges, and commercial and industrial institutions, athletic facilities and locker rooms, exercise facilities, health clubs, whirlpools, food preparation and storage areas, food processing plants, USDA inspected food processing facilities, farm, veterinary clinics, animal life science laboratories, kennels, zoos, tack shops, pet shops, campers, RV’s, automobiles, cruise lines, cruise ships and public transportation.

Century Q 256 is formulated to disinfect on hard, non-porous surfaces such as: Hospital beds, beds, railings, beds, bed railers, toilet bowls, sinks, urinals, empty diaper pans, vanity tops, glazed porcelain, glazed tile and restroom fixtures, tables, chairs, desks, bed frames, lifts, washable walls, cabinets, doorknobs and garbage cans/pails, glass, laminated surfaces, metal, stainless steel, glazed porcelain, glazed ceramic, sealed granite, sealed marble, plastic (such as polycarbonate, polyvinylchloride, polyethylene or polypropylene), sealed lino, sealed slate, sealed stone, sealed terra cotta, sealed terrazzo, chrome and vinyl, enameled surfaces, finished woodwork, vinyl and plastic upholstery, washable wallpaper, wrestling and gymnastics mats, athletic training tables, physical therapy tables, exercise equipment.

See Enclosed Master Label for Additional Directions For Use and a Complete List of Bacteria and Viruses This Product is Effective Against.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Before using this product, food products and packaging materials must be removed from the room or carefully protected.

This product is not to be used as a terminal sterilization high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product can be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

DISINFECTION PERFORMANCE IN INSTITUTIONS (Hospitals, Dental Offices, Nursing Homes, and Other Health Care Institutions) AND NON-MEDICAL FACILITIES (Households, Schools, Restaurants, Hotels, Farms, Beverage Food Processing Plants and Other Non-Medical Facilities): At ½ fluid ounce per 1 gallon of water use level (1.2567% or equivalent use dilution) and with a 10-minute contact time, this product is effective in 400 ppm hard water against the following pathogens on hard non-porous surfaces: Acinetobacter baumannii, Bacteroides bronchiseptica, Enterobacter agglomerans, Enterobacter aerogenes, Escherichia coli, Escherichia coli O111:H8 Extended Spectrum B-Lactamase-ESBL, Escherichia coli, Enterococcus faecalis, Klebsiella pneumoniae, Listeria monocytogenes, Micrococcus luteus, Pasteurella multocida, Proteus vulgaris, Pseudomonas aeruginosa, Pseudomonas cepacia, Salmonella enterica serotype pulorum, Salmonella typhi, Salmonella typhimurium, Shigella flexneri, Shigella sonnei, Staphylococcus aureus, Staphylococcus aureus sub species aureus, Community Associated Methicillin Resistant Staphylococcus aureus CA-MRSA Gentamicin- Resistant Staphylococcus aureus, MRSA, Staphylococcus epidermidis, Antibiotic resistant Staphylococcus epidermidis, Streptococcus pneumoniae Penicillin Resistant, Streptococcus pyogenes, Streptococcus mutans, Vancomycin Resistant Enterococcus faecalis, VRE, Vancomycin Intermediate Resistant Staphylococcus aureus- VISA.

VIRUCIDAL PERFORMANCE: At ½ ounce per 1 gallon of water use level (1.2567% or equivalent use dilution) (800 ppm active), this product was evaluated in the presence of 400 ppm hard water and 5% serum with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous surfaces: Avian Influenza A H1N2 virus - Avian Resistant, Avian Influenza A H7N1 virus, Cyromegalovirus, SARs associated Coronavirus, Hepatitis B Virus. Hepatitis C Virus, Herpes Simplex Virus Type 1, Herpes Simplex Virus Type 2, Human Coronavirus, Human Immunodeficiency Virus Type 1 - HIV- 1, Influenza A Virus, Influenza A H3N2 virus, Respiratory syncytial virus.

PREPARATION OF DISINFECTION/FUNGICIDAL/VIRUCIDAL USE SOLUTION: For heavily soiled areas, a preliminary cleaning is required. Add 1½ ounces of this product to 1 gallon of water (1.2567) to disinfect hard non-porous surfaces. Apply use solution using a brush, cloth, mop, sponge, or scrubber, mechanical spray device or by immersion so as to thoroughly wet surfaces. For spray applications, spray 6-9 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Change cloth, sponge or towels frequently to avoid redeposition of soil. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished. Rinse all treated surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before use. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

ANIMAL PREMISE VIRUCIDAL PERFORMANCE: At ¼ ounce per gallon of water use level, (600 ppm quat active) (or equivalent use dilution) this product was evaluated in the presence of 5% serum and with a 10 minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces: Avian Infectious Bronchitis virus Beaudette B42, Avian Influenza A H3N2 virus, Avian Influenza A H7N1 virus, Avian Influenza A H5N2 virus Avian Reassortant, Canine Coronavirus, Canine Distemper virus, Feline Coronavirus, Feline Infectious Rhinotracheitis virus, Feline Rhinotracheitis virus, Fibropapilloma virus, Swine Influenza A H1N1 virus, Transmissible Gastroenteritis virus, Varicella virus.

Prior to use of this product, cover or remove all food and packaging material before disinfection and remove all animals and foods from areas to be treated, animal transportation vehicles and enclosures. Remove all litter, droppings and manure from floors, walls and surfaces of barns, pens, stalls, chutes and other surfaces of facilities and fixtures occupied or intersected by poultry or other animals. Empty all troughs, basins and other feeding and watering appliances. Thoroughly clean surfaces with soap or detergent and rinse with water.

** EFFECTIVENESS AGAINST CANINE PARVOVIRUS - CPV: At 0.2 ounces per gallon of water use level this product was evaluated and with a 10 minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces: Canine Parvovirus - CPV, Mouse Parvovirus, Rabies, Porcine Parvovirus.

FUNGICIDAL PERFORMANCE: When used as directed at a 1.256 dilution, ½ fluid ounce per 1 gallon of water, (or equivalent use dilution) and a 10-minute contact time, this product is highly effective against the following on hard, non-porous surfaces: Aspergillus niger, Candida albicans, Trichophyton mentagrophytes - Athlete’s foot fungus - a cause of Ringworm.

MOLD AND MILDEW CONTROL: To control the growth of mold and mildew and their odors on hard, non-porous surfaces, apply use solution of 1.256 dilution, ½ ounce per 1 gallon of water (or equivalent use dilution). Apply by cloth, sponge, mop, brush, auto scrubber or mechanical spray device. Allow surfaces to remain wet for 10 minutes. Allow solution to dry on surface and repeat treatment every seven days or when new growth appears. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes dirty.

See other panel for continued DIRECTIONS FOR USE.
