KILLS: Angoumois Grain Moths, Ants (excluding Harvester), Boxelder Bugs, Cadelles, Cheese Mites, Cigarette Beetles, Confused Flour Beetles, Crickets, Earwigs, Fruit Flies, German Cockroaches, Gnats, Granary Weevils, House Flies, Indianmeal Moths, Mosquitoes, Rice Weevils, Spiders (excluding Black Widow and Brown Recluse) and Tobacco Moths

FOR USE IN AND AROUND: Commercial (including Food Handling Establishments, Food Service, Storage, Preparation and Processing Areas, and Meat, Poultry and Egg Processing Facilities), Institutional and Residential Areas

See inside booklet for additional insects and use sites.

ACTIVE INGREDIENTS:
Pyrethrins*, a botanical insecticide 3.0%
Piperonyl butoxide** 15.0%

OTHER INGREDIENTS: 82.0%

* 1 gallon contains 0.25 lb of pyrethrins and 1.25 lb piperonyl butoxide
** (butylcarbityl)(6-propylpiperonyl) ether and related compounds

TOTAL: 100.0%

KILLS: Angoumois Grain Moths, Ants (excluding Harvester), Boxelder Bugs, Cadelles, Cheese Mites, Cigarette Beetles, Confused Flour Beetles, Crickets, Earwigs, Fruit Flies, German Cockroaches, Gnats, Granary Weevils, House Flies, Indianmeal Moths, Mosquitoes, Rice Weevils, Spiders (excluding Black Widow and Brown Recluse) and Tobacco Moths

FOR USE IN AND AROUND: Commercial (including Food Handling Establishments, Food Service, Storage, Preparation and Processing Areas, and Meat, Poultry and Egg Processing Facilities), Institutional and Residential Areas

See inside booklet for additional insects and use sites.

ACTIVE INGREDIENTS:
Pyrethrins*, a botanical insecticide 3.0%
Piperonyl butoxide** 15.0%

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use or store near heat or open flame. See inside booklet for additional Precautionary Statements.

**DIRECTIONS FOR USE**

**IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.**

READ ENTIRE LABEL BEFORE EACH USE. See inside booklet for complete Directions for Use.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Store in original container in secured, dry storage area. Do not store above 100°F for extended periods of time. Storage below 32°F may cause freezing. If container is damaged or spill occurs, use product immediately or dispose of product and damaged container as indicated below.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Empty container by using the product according to the label directions. Do not reuse or refill this container! Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 sec after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 sec. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 sec after the flow begins to drip. Repeat this procedure 2 more times. Offer for recycling if available, for reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**FIRST AID**

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 min. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15 – 20 min. Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-832-HELP (4357) 24 hr/day, 7 days/week.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Remove and wash contaminated clothing before reuse. Wear long-sleeved shirt and long pants, socks, shoes and chemical-resistant gloves.

**ENVIRONMENTAL HAZARDS**

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for run-off for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce run-off that contains this product. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.
Applicators, mixers and other handlers must wear: Long-sleeved shirt, long pants, socks, shoes, chemical-resistant gloves and protective eyewear. Personal Protective Equipment (PPE): Applicators, mixers and other handlers must wear: Long-sleeved shirt, long pants, socks, shoes, chemical-resistant gloves and protective eyewear.

FOR USE IN AND AROUND: Commercial (including Food Handling Establishments, Food Service, Storage, Preparation and Processing Areas, and Meat, Poultry and Egg Processing Facilities), Institutional and Residential Areas
See inside booklet for additional insects and use sites.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing.

FIRST AID

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15 − 20 min. Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take-off contaminated clothing. Rinse skin immediately with plenty of water for 15 − 20 min. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove to fresh air. Provide artificial ventilation if necessary. Call a poison control center or doctor for treatment advice.

IF SKIN IS EXPOSED: Wash contaminated clothing before reuse. Wear long-sleeved shirt and long pants, socks, shoes and chemical-resistant gloves.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for run-off for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce run-off. This product may contaminate water through runoff. This product may contaminate water through runoff.

NOTE: Same size and application on the following four PDF pages which are pages 3-10 of the booklet.
This product may be combined with other insecticides and acaricides where use equipment designed for space or mist treatments. Follow the manufacturer’s recommendations for proper equipment setup and operation. Place the tip of the applicator at or into the crack or crevice or opening to the void. Apply in short bursts into area being treated. Apply 1 sec of product for every 3 ft² of void area.

For Direct Spray or Void Injection: Use equipment designed for space or mist treatments. Follow the manufacturer’s recommendations for proper equipment setup and operation. Place the tip of the applicator at or into the crack or crevice or opening to the void. Apply in short bursts into area where insects are to be contacted, such as corners of the room, behind and under furniture or other equipment. Apply from a distance of 18 - 24” away from the surface and allow the material to drift to area to be treated. The amount of product applied is not to exceed 0.5 fl oz/1,000 ft².

Do not make outdoor applications during rain.

For space sprays:
- Do not enter or allow others to enter until vapors, mists and aerosols have dispersed and the treated area has been thoroughly ventilated.
- Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosol, vapors and/or mists and aerosols have dispersed and the treated area has been thoroughly ventilated.

For space spray in residential areas:
- Use at 0.5% or lower dilution rate.
- Apply a maximum of 1 fl oz/1,000 ft².
- Use only for flying insects, not crawling insects.
- Do not make outdoor applications during rain.
- All outdoor applications must be limited to spot or Crack & Crevice® treatments only, except for the following permitted uses:
  1. Treatment to soil or vegetation around structures.
  2. Applications to lawns, turf and other vegetation;
  3. Applications to building foundations, up to a maximum height of 3 ft.
- Do not wet plant to point of runoff or drip.
- Do not use treated articles until spray has dried.
- Do not wash treated articles until spray has dried.
- Do not water the treated area to the point of run-off.
- Do not wet articles to point of runoff or drip.
- Do not wet plant to point of runoff or drip.
- Do not make outdoor applications where pests hide, harbor, live and breed (such as behind baseboards, sinks, cabinets, door frames and windows). Place injector tip into cracks, crevices, holes and other small (openings) areas. For lighter infestations, move injector tip along cracks while treating at the rate of 1 fl oz/1,000 ft².
- Do not water the treated area to the point of run-off.
- Do not wet articles to point of runoff or drip.
- Do not wet plant to point of runoff or drip.

For Crack & Crevice treatment:
- Use diluted or undiluted. Apply as a Crack & Crevice treatment into cracks, crevices and void spaces where pests hide, harbor, live and breed (such as behind baseboards, sinks, cabinets, door frames and windows). Place injector tip into cracks, crevices, holes and other small (openings) areas. For lighter infestations, move injector tip along cracks while treating at the rate of 0.5 fl oz/1,000 ft².
- To flush and kill insects harboring in closed or inaccessible areas such as attics, false ceilings and crawl spaces. Calculate the cubic volume (area) of the void and treat at a rate of 1 fl oz/1,000 ft².

Physical or Chemical Hazards

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label before each use.

Use Restrictions

- Apply this product only as specified on this label.
- Do not apply more than 1 time/day.
- Only protected applicators may be in treatment area during application.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift.
- Remove pets, birds and cover fish aquariums before spraying.
- When used as a direct or space spray, do not enter or allow others to enter until sprays have dried.
- For space sprays:
  - Do not enter or allow others to enter until sprays have dried and the treated area has been thoroughly ventilated.
  - Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosol, vapors and/or mists and aerosols have dispersed and the treated area has been thoroughly ventilated.

For space spray in residential areas:
- Use at 0.5% or lower dilution rate.
- Apply a maximum of 1 fl oz/1,000 ft².
- Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosol, vapors and/or mists and aerosols have dispersed and the treated area has been thoroughly ventilated.
- Do not use in patient rooms in hospitals and nursing homes for treatment of bed bugs.

For Crack & Crevice treatments only, except for the following permitted uses:
- Treatment to soil or vegetation around structures.
- Applications to lawns, turf and other vegetation;
- Applications to building foundations, up to a maximum height of 3 ft.
- Do not wet plant to point of runoff or drip.
- Do not use treated articles until spray has dried.
- Do not wash treated articles until spray has dried.
- Do not water the treated area to the point of run-off.
- Do not wet articles to point of runoff or drip.
- Do not wet plant to point of runoff or drip.
- Do not make outdoor applications where pests hide, harbor, live and breed (such as behind baseboards, sinks, cabinets, door frames and windows). Place injector tip into cracks, crevices, holes and other small (openings) areas. For lighter infestations, move injector tip along cracks while treating at the rate of 1 fl oz/1,000 ft².

When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from spray and from dead or falling insects.

Remove or cover milking utensils before application. Wash teats of animals before milking.

NOTE: 1/3 fl oz = 2 tsp and 1/2 fl oz = 1 tbsp

* Do not dilute with oil.

Use in combination with other insecticides: This product may be combined with other insecticides and acaricides where resistance may be a problem, and to flush insects from hiding and into contact with other spray residues. The application must conform to the accepted use precautions and directions for both products.

Prior to tank-mixing, conduct a compatibility test using the proper proportions of chemicals and water to ensure the physical compatibility of the mixture. Tank-mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label application rates may be exceeded. This product cannot be mixed with any product with label prohibitions against such mixing. To provide flushing and quick knockdown, mix 0.50 - 6.0 fl oz/gal. It is recommended that the final spray mix be buffered to a pH of 5.5 - 7.0.

Space Spray (indoors): Apply using a mechanical aerosol generator which creates particles of aerosol size (80% of droplets < 30 microns). Prior to treatment, open cabinets, doors and equipment to be treated, turn off air conditioners and fans, extinguish all flames and close windows in the area to be treated. Disperse toward areas suspected of harboring the greatest infestations of listed pests. Disperse in all locations (including around equipment, appliances and pallets, if desired) contacting as many insects as possible. Do not remain in treated areas after application. Keep area closed for at least 1 hr. Open and thoroughly ventilate treated areas before reoccupying. For space treatment in residences, only for flying insects, use at the 0.5% or below rate.

Application Instructions

Physical or Chemical Hazards

Do not use or store near heat or open flame.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label before each use.

Use Restrictions

- Apply this product only as specified on this label.
- Do not apply more than 1 time/day.
- Only protected applicators may be in treatment area during application.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift.
- Remove pets, birds and cover fish aquariums before spraying.
- When used as a direct or space spray, do not enter or allow others to enter until sprays have dried.
- For space sprays:
  - Do not enter or allow others to enter until sprays have dried and the treated area has been thoroughly ventilated.
  - Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosol, vapors and/or mists and aerosols have dispersed and the treated area has been thoroughly ventilated.

For space spray in residential areas:
- Use at 0.5% or lower dilution rate.
- Apply a maximum of 1 fl oz/1,000 ft².
- Use only for flying insects, not crawling insects.
- Do not make outdoor applications during rain.
- All outdoor applications must be limited to spot or Crack & Crevice® treatments only, except for the following permitted uses:
  1. Treatment to soil or vegetation around structures.
  2. Applications to lawns, turf and other vegetation;
  3. Applications to building foundations, up to a maximum height of 3 ft.
- Do not wet plant to point of runoff or drip.
- Do not wet plant to point of runoff or drip.
- Do not wet plant to point of runoff or drip.
- Do not water the treated area to the point of run-off.
- Do not wet articles to point of runoff or drip.
- Do not wet plant to point of runoff or drip.

Do not make outdoor applications where pests hide, harbor, live and breed (such as behind baseboards, sinks, cabinets, door frames and windows). Place injector tip into cracks, crevices, holes and other small (openings) areas. For lighter infestations, move injector tip along cracks while treating at the rate of 1 fl oz/1,000 ft². For heavier infestations, move injector tip along cracks while treating at the rate of 2 fl oz/1,000 ft². Apply in such a manner that dripping and run-off on structural surfaces is minimized.

Direct spray or void injection: Use equipment designed for space or mist treatments. Follow the manufacturer’s recommendations for proper equipment setup and operation. Place the tip of the applicator at or into the crack or crevice or opening to the void. Apply in short bursts into area where insects are to be contacted, such as corners of the room, behind and under furniture or other equipment. Apply from a distance of 18 - 24” away from the surface and allow the material to drift to area to be treated. The amount of product applied is not to exceed 0.5 fl oz/1,000 ft².

Application Use

Do not apply to classrooms when in use.

Do not use in patient rooms in hospitals and nursing homes for treatment of bed bugs.

Do not apply to classrooms when in use.
INDOOR TREATMENTS

FLYING INSECTS (such as Cluster Flies, Flies, Gnats, Mosquitoes, Moths, Small Flying Moths and Webbing Clothes Moths): Apply as a crack and crevice, void treatment, direct spray, or space spray at 0.125% – 3.0%, using 1.0 fl oz concentrate/1,000 ft² of space. Close all windows and doors. Direct aerosol upward and disperse in all locations. Do not remain in treated areas after application. Keep area closed for at least 1 hr. Open and thoroughly ventilate treated areas before reoccupying.

CRAWLING INSECTS (such as Ants (excluding Harvester), Booklice, Carpet Beetles, Centipedes, Clothes Moths, Clover Mites, Cockroaches, Crickets, Dermentid Beetles, Earwigs, Firebrats, Fleas, Millipedes, Scorpions, Silverfish, Sowbugs and Spiders (excluding Black Widow and Brown Recluse)): Crack & Crevice, Void, Direct Spray and/or Space Treatment. Apply at 1.0% to cracks and crevices and structural void spaces as well as behind baseboards, sinks, cabinets, door frames and windows, and inside and around food conveying, processing and handling equipment. Do not apply as a space spray in residences.

STORED PRODUCT PESTS (such as Angoumois Grain Moths, Cadelle, Carpet Beetles, Chocolate Moths, Cigarette Beetles, Dermestid Beetles, Dried Fruit Beetles, Drug Store Beetles, Flour Beetles, Grain Mites, Granary Weevils, Indianmeal Moths, Meal Worms, Mediterranean Flour Moths, Psocids, Red Flour Beetles, Sawtoothed Grain Beetles, Spider Beetles, Trogoderma and Weevils): Apply as a crack and crevice, void treatment, direct spray, or space spray at 1% – 3%, using 0.5 – 1.0 fl oz concentrate/1,000 ft² of space. Open and thoroughly ventilate treated areas before reoccupying. Do not apply as a space spray in residences.

BED BUGS AND TICS: Apply as a space spray, directed spray treatment or Crack & Crevice treatment. Expose mattress and box springs. Space Spray: Apply at 1% – 3%, using 0.5 – 1.0 fl oz concentrate/1,000 ft² of space. Crack & Crevice Treatment or Void Injection: Apply at 1% – 3% to cracks and crevices or structural voids around baseboards, floorboards, bed boards and walls. Direct Spray Treatment: Apply as a spot treatment where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty drawers and clothes closets, night stands and other furniture in the room, carpet edges, high and low wall moldings such as (floor molding or window casings), wall voids, behind wall hangings, wallpaper edges and popcorn ceilings. Take bed apart. Treat prints and channels if hollow, such as square or round tubing, and see that interior framework is treated. Do not apply as a space spray in residences.

FLEAS: Apply as a directed or space spray to infested areas at 1% – 3%. Remove or cover animal feed and drinking water before spraying. To control the source of flea infestations, treat pets with a registered product for such use. Do not apply as a space spray in residences.

DARKLING BEETLES: Empty poultry houses and apply, undiluted, as a space spray using 0.25 % oz concentrate/1,000 ft² of space. Keep closed for 1 hr. Thoroughly ventilate (24 hr) before returning poultry.

INDOOR AND OUTDOOR TREATMENTS

BOXLDER BUGS, CARPENTER ANTS, CLUSTER FLIES AND ELM LEAF BEETLES: Apply as a Crack & Crevice treatment or as a void injection to voids and other areas where these insects are found. Use undiluted or diluted at 1% – 3%.

CRAWLING INSECTS (such as Ants (excluding Harvester), Booklice, Carpet Beetles, Centipedes, Clothes Moths, Clover Mites, Cockroaches, Crickets, Dermentid Beetles, Earwigs, Firebrats, Fleas, Millipedes, Scorpions, Silverfish, Sowbugs and Spiders (excluding Black Widow and Brown Recluse)): Crack & Crevice, Void and/or Direct Spray: Apply at 1% – 3% into cracks, crevices and structural voids as well as behind baseboards, sinks, cabinets, door frames and windows, and inside and around food conveying, processing and handling equipment.

OUTDOOR TREATMENTS

MOSQUITOES, FLIES, MIDGEs AND GNATS: Dilute to 0.05% – 0.125% when applying with mechanical, electrical, fogging or automated misting equipment. To combat these pests in open areas near homes, buildings and in campgrounds, allow product to drift through shrubbery, vegetation and other harborage/residing areas. Structural surfaces, shrubbery and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Treatment of vegetation in water from land is also permitted by allowing wind to move product into vegetation, but application of this product directly to any body of water is prohibited.

PERIMETER TREATMENT: For crawling insects, apply at 1% – 3% to cracks and crevices where insects may enter premises, such as weep holes, under siding, wall voids, softs, around attic vents and openings around windows, doors and pipes. Treatment of infested fences and tree holes is permitted. To help prevent infestations of buildings, treat a band of soil 3 – 10 ft wide around and adjacent to the building. Also treat the building foundation to a height of 2 – 3 ft where pests are active and may find entrance.

OUTDOOR RESIDENTIAL MISTING SYSTEMS: Use of 0.025% (1:108) – 0.108% (1:27) is permitted to control these pests.

In New York State, this product may NOT be used along with outdoor residential automated misting systems.

**USE RESTRICTIONS**

- When using this product, installers and service technicians must comply with the license, certification or registration requirements of the state(s) (tribe(s) or local authority(ies) where they are installed.
- If the system works on an automatic timer, set the timing for application when people, pets and food are unlikely to be present.
- If the system works when a person operates a remote activation device, then application of this pesticide when people, pets and food are present is prohibited.
- Do not use in an evaporative cooling system.
- Direct nozzles to spray towards the target area and away from swimming pools, water bodies, or eating and cooking areas.
- Do not set nozzles to direct mist near outdoor air condition systems or other home air intakes.
- If used in a system with a reservoir tank for the end use dilution, the system reservoir tank must be locked. Securely attach the end use pesticide label and a dilution statement to the system reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be phrased as follows: "This container holds ___ parts product/2 _______ parts water."
- If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.
- Contact the system manufacturer for guidance or assistance to ensure compliance with the following requirement: This product must only be used in systems that have been calibrated to apply no more than the maximum application rate equal to 0.00011 lbs peryehrs per 1,000 ft²/day.

**LIVESTOCK** (DOMESTIC)

On Domestic Animals/Livestocks: Use to protect beef cattle, dairy cattle and horses from horn flies, house flies and gnats. Apply a light mist sufficient to wet the tips of the hair. To kill stable flies on beef cattle, dairy cattle and horses, apply 2 fl oz/adult animal, sufficient to wet the hair but not to soak the hide. Repeat every 2 – 3 weeks as required, but do not apply more than 1 time/day. Do not use on dogs and cats.

Space Treatment Over Animals in Barns and Corrals or in Indoor Misting Systems Used in Commercial Barns, Stables and Animal Quarters: Select proper dilution and treat with ULG equipment over animals. Use only in areas where food is not exposed. Thoroughly clean all food preparation areas after treatment.

**USE RESTRICTIONS FOR INDOOR MISTING SYSTEMS**

- Not for use in outdoor residential misting systems (indoor or outdoor). See URBAN MISTING SYSTEMS under OUTDOOR TREATMENTS for directions for use in Urban/Residential automated misting systems.
- Do not apply this product in barns or stables where animals intended for slaughter or human consumption will be maintained.
- Do not apply when food, feed and/or water is present.
- When using this product, installers and service technicians must comply with the license, certification or registration requirements of the state(s) (tribe(s) or local authority(ies) where they are installed.
- When applying via a remote activation device, do not apply whenever pets are present. If possible, when applying via automatic timer, set the timing for application when people and pets are unlikely to be present.

• Direct nozzles to spray towards the target area and away from areas where people are typically present.
• Do not use in evaporative cooling systems.
• Do not use in misters located within 3 ft of air vents, air conditioner units or windows.
• If used in a system with a reservoir tank for the end use dilution, the system reservoir tank must be locked. Securely attach the end use pesticide label and a dilution statement to the system reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be phrased as follows: [this container holds] x parts [product name] to y parts water.
• If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.
• This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 0.0033 lbs/1,000 ft³ (no animals present) [diluted to 1% = 4.5 fl oz/1,000 ft³ = 0.0833 lbs/gal] or 0.0008 lbs/1,000 ft³ (animals present) [diluted to 1% = 0.0007 lbs/1 ft³ = 0.0183 lbs/gal].

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container in secured, dry storage area. Do not store above 100°F for extended periods of time. Storage below 32°F may cause freezing. If container is damaged or spill occurs, use product immediately or dispose of product and damaged container as indicated below.

CONTAINER DISPOSAL: Nonrefillable container. Empty container by using the product according to the label directions. Do not reuse or refill this container! Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 sec after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 sec. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 sec after the flow begins to drip. Repeat this procedure 2 more times.

PESTICIDE DISPOSAL:

• Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
• Offer for recycling if available, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
