FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

PEAR WRAP
TREATED WITH ETHOXYQUIN

EPA REG NO 61718-4 EPA SLN NO WA-070010

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

PEARS - To prevent scald.

Wrap Pears within one week of post-harvest. Wraps treated with a maximum of 1,000 ppm ethoxyquin may be used on pears that have either been sprayed or drenched once with ethoxyquin. Application of ethoxyquin by line spraying must not exceed a total of 1,700 ppm or 1,000 ppm when applied as a drench. Do not re-use fruit wrap.

This label for Pear Wrap Treated with Ethoxyquin expires and must not be distributed or used in accordance with this SLN registration after December 31, 2011.

WSDA Container Disposal Guidance: Completely empty the contents of the pesticide container into application equipment, and apply to a labeled crop or site. The empty container may be disposed of in a sanitary landfill. Burning is not a legal method of container disposal in Washington.
