PRECAUTIONARY STATEMENT
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear (if appropriate). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

PERSONAL PROTECTIVE EQUIPMENT
Applicators and other handlers must wear:
- Coveralls over long-sleeved shirt and long pants,
- Socks and chemical resistant footwear,
- Goggles or face shield,
- Chemical-resistant gloves (such as: Barrier Laminato or Vito).

USER SAFETY REQUIREMENTS AND RECOMMENDATIONS

Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/contaminated PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should wash hands before eating, drinking chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

User should remove personal protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Store in original container in a cool, dry and well-ventilated area. Keep in tightly closed container. Store away from incompatible materials. Protect containers from physical damage. Observe all applicable local, state, federal guidelines for storage and disposal.

PESTICIDE DISPOSAL: Pesticide wastes are exactly hazardous. Improper disposal of excess pesticide, spray mixture, or rinse is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, burn. If burned, stay out of smoke.

ANTI-BLU® IP75
FOR THE CONTROL OF SAPSTAIN AND MOLD ON FRESH WOOD AND SEASONED WOOD AND WOOD PRODUCTS.

INGREDIENT STATEMENT

Active Ingredients:
- Propanthiophos: 4.0%
- 3-Iodo-2-propynyl butylcarbamate: 6.0%

Inert Ingredients: 90.0%

TOTAL: 100.0%

KEEP OUT OF REACH OF CHILDREN
CAUTION

See side panel for precautionary statements

FIRST AID

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Do not induce vomiting unless told to do so by poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF IN EYES:
- Hold eye and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.

Call a poison control center or doctor for further treatment advice.

Have the MSDS or label with you when calling a poison control center or doctor, or going for treatment.

Note to physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

Outside US: 423-780-2970

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in any way that will contact workers or other persons.

For Industrial or Commercial Use Only

APPLICATION DIRECTIONS:

Anti-BLU® IP75 may be applied to wood and wood products by immersion or spray methods according to the dilutions provided below. Dilution levels may vary widely and will depend on application methods, wood species, seasonal changes in exposure conditions, length of protection desired, geographical locations, and wood storage and transport conditions.

- For spray applications: Mix one gallon of Anti-BLU® IP75 to 15-100 gallons of water.

- For immersion applications: Mix one gallon of Anti-BLU® IP75 to 50-300 gallons of water. If immersion is to be treated by dipping, then the treating solution should contact the wood for at least 10 seconds. For block stacked lumber, immersion time must be sufficient to allow penetration of the treating solution to the center of the piece. For best results, green wood should be treated immediately at least within 24 hours after cutting or sawing. Mold and fungus growth begins immediately after cutting so delayed treatment is less effective and requires increased chemical concentration. Allow treated wood to drain in a controlled area before storage, and ensure that freshly treated wood is not allowed to remain unprotected in heavy rains. For actual recommended dilution rates in specific locations/conditions and for a given type of application method (dip or spray) contact an Arch Wood Protection representative for detailed supporting information.

ENVIRONMENTAL HAZARDS:

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previous approval from the local sewage treatment plant authority. For guidance, contact your State Environmental Protection Agency or Regional Office of EPA.

WARRANTY:

We warrant this material to comply with our published specifications and to be of good merchantable quality and such use will effectively pass in the trade for goods within the description, and further warrant it to be fit for the normal purposes for which such goods are used. We assure no responsibility that this material is fit for any particular purpose outside of the general purposes of goods in the description.
