THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE LP DISCLAIMS ANY LIABILITY WHATSOEVER FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

LIMITATIONS OF LIABILITY:
TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT BAYER CROPSCIENCE LP’S ELECTION, THE REPLACEMENT OF PRODUCT.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of in sito or at an approved waste disposal facility.

Container Disposal: Nonrefillable container. Do not reuse or refill the container. Offer for recycling if available or dispose of in a sanitary landfill or by burning. If burned, stay out of smoke.

Pesticide Storage: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

IMPORTANT: READ BEFORE USE
Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.

CONDITIONS:
The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury or ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Bayer CropScience LP. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES:
TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, EXCEPT AS EXPRESSED ON THE LABEL, BAYER CROPSCIENCE LP MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE.

User Safety Recommendations

User should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Leave the vicinity of gloves before removing. Air as soon as possible, wash thoroughly and keep clothing area clean.
• Have protective gloves available for anyone who is present.
• Do not inhale or ingest.
• Do not lie down or sleep.
• Do not plant plants or add living soil to areas where surface water is present or to be used for irrigation, within 3-5" of newly planted trees or shrubs, or within 10-20" of well-developed ornamentals.

Do not apply this product in a way that will contact workers or other persons, post-plant to plants with a definite drip-line, place tablets 2-5" below the soil surface, next to the plant (ca. within 3-5" of newly planted trees or shrubs, or within 20-24" of well-established ornamentals). Ensure that the tablets are completely covered with soil after application.

Resistance Management Recommendations

Some insects are known to develop resistance to insecticides after repeated use. As with any insecticide, the use of this product should conform to resistance management strategies established for this use area. CoreTect™ Tree and Shrub Tablets Insecticide may eventually dominate the insect population if Group 4A insecticides are used repetitively on the same crop. For best results, rotate products that have a different mode of action after 2-3 months after treatment to prevent development of resistance.

The label also has been shown to improve survival and growth rates of newly established woody ornamentals, containerized trees and shrubs, newly-planted and well-established ornamental plants. CoreTect™ Tree and Shrub Tablets Insecticide is formulated to provide consistent control of insects for up to two years. The decision to retreat plants in the second year after application should be based on the presence of pests.

PRECAUTIONARY STATEMENTS

Hazardous to humans and domestic animals

Caution
Risk of serious or moderate illness if absorbed through skin. Avoid contact with eyes, mouth, or mucous membranes.

Personal Protective Equipment (PPE):
Applications and other handlers must wear:
• Shirt and pants
• Shoes and socks
• Gloves

Follow manufacturer’s instructions for cleaning and maintaining personal protective equipment. PPE, if not such instructions for washability, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID

In case of emergency call the Bayer Environmental Science Emergency Response Telephone No. 1-800-245-5481. Have a product container or label with you when calling a poison control center or doctor.

User should:
• Call a poison control center or doctor immediately for treatment advice.
• Call a poison control center or doctor immediately for treatment advice.
• Put on protective gloves and eye protection and wash with plenty of water for 15 to 20 minutes.

If in Eyes:
Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.

• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Call a poison control center or doctor immediately for treatment advice.

Do not apply more than 450 tablets per acre per year (0.5 lb imidacloprid) to in-ground plants.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. Do not apply directly to water. Do not apply to areas where surface water is present or to be used for irrigation, within 3-5" of newly planted trees or shrubs, or within 6-24" of well-developed ornamentals.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. This chemical demonstrates the properties and characteristics associated with chemicals selected in the GAP. The use of this chemical in areas where salts are prominent, particularly where the water table is shallow, may result in groundwater contamination.

Do not distribute this product to any end-use products.

Japan

This product is very toxic to aquatic invertebrates. Do not apply directly to water. Do not apply to areas where surface water is present or to be used for irrigation, within 3-5" of newly planted trees or shrubs, or within 6-24" of well-established ornamentals. Consult the agency responsible for pesticide regulation.

CoreTect™ Tree and Shrub Tablets Insecticide can be used as directed on trees and shrubs in sites such as home lawns, businesses and office complexes, hanging containers, multi-family residential complexes, golf courses, airports, cemeteries, parks, playgrounds, athletic fields, and municipal, city, state, federal, and private wooded and fronted areas.

CoreTect™ Tree and Shrub Tablets Insecticide can be used as directed for intercropped areas.

In-Field, Post-Plant

For bushy coniferous trees and shrubs, numerous absorptive roots may be located near the drip-line. To apply CoreTect™ Tree and Shrub Tablets Insecticide pour plants to plants with a definite drip-line, place tablets 2-5" below the soil surface, next to the plant (ca. within 3-5" of newly planted trees or shrubs, or within 20-24" of well-established ornamentals). Ensure that the tablets are completely covered with soil after application.

For newly-established trees and shrubs, numerous absorptive roots may be located near the drip-line. To apply CoreTect™ Tree and Shrub Tablets Insecticide pour plants to plants with a definite drip-line, place tablets 2-5" below the soil surface, next to the plant (ca. within 3-5" of newly planted trees or shrubs, or within 20-24" of well-established ornamentals). Ensure that the tablets are completely covered with soil after application.

Note to Physician:
No specific antidote is available. Treat the patient symptomatically.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
CoreTect™
Tree and Shrub Tablets Insecticide

FIRST AID

IF ON SKIN OR CLOTHING
• Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED
• Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF IN EYES
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

In case of emergency call toll free the Bayer Environmental Science Emergency Response Telephone No. 1-800-334-7577. Have a product container or label with you when calling a poison control center or doctor, or going for treatment.

User Safety Recommendations
User should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

Do not formulate this product into other end-use products.

Resistance Management Recommendations
Some insects are known to develop resistance to insecticides after repeated use. As with any insecticide, the use of this product should conform to resistance management strategies established for the use area. CoreTect™ Tree and Shrub Tablets Insecticide contains a Group 4A insecticide. Insect biotypes with acquired or inherent resistance to Group 4A insecticides may eventually dominate the insect population if Group 4A insecticides are used repeatedly as the predominant method of control for targeted species. The active ingredient in CoreTect Tree and Shrub Tablets Insecticide is a member of the neonicotinoid chemical class. Insect pests resistant to other chemical classes have not shown cross-resistance to CoreTect Tree and Shrub Tablets Insecticide. Contact your Cooperative Extension specialist, certified crop advisor and/or product manufacturer for additional insect resistance management recommendations.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirement specific to your State or Tribe, consult the agency responsible for pesticide regulation.

CoreTect Tree and Shrub Tablets Insecticide can be used as directed on trees and shrubs in sites such as home lawns, business and office complexes, shopping complexes, multi-family residential complexes, golf courses, airports, cemeteries, parks, playgrounds, athletic fields, and municipal, city, state, national, and private wooded and forested areas. CoreTect Tree and Shrub Tablets Insecticide can be used as directed in interiorscapes. Do not apply more than 450 tablets per acre per year (0.5 lb meqalap) to in-ground plants. Not for use on plants being grown for sale, or for commercial seed production, or for research purposes.

LANDSCAPE, INTERIORSCAPES AND FORESTED AREAS
CoreTect Tree and Shrub Tablets Insecticide will control or significantly reduce populations of insects that attack containerized, newly-planted, and established trees. For trees and shrubs grown in landscapes and interiorscapes for more than one year, CoreTect Tree and Shrub Tablets Insecticide will in some cases provide control of insects for up to two years. The decision to retreat plants in the second year after application should be based on the presence of pests. The tablet also has been shown to improve survival and growth rates of newly established seedlings, containerized trees and shrubs, and newly-planted and well-established ornamental plants. CoreTect Tree and Shrub Tablets Insecticide is formulated to provide consistent delivery of active ingredient over time. Release of active ingredient is dependent on presence of adequate soil moisture. For best results, irrigate the plant after treatment, and ensure that the plant receives regular irrigation for at least 2-3 months after treatment.

Treatment of containerized or balled and burlapped ornamentals at planting – While planting containerized ornamentals, place the prescribed number of CoreTect Tree and Shrub Tablets Insecticide in each planting hole directly beneath the root ball, or 1-4” deep into the root ball after the plant has been placed in the hole and the hole filled with soil. Do not apply tablets if the soil is saturated or if there is water present at the bottom of the planting hole.

Treatment of in-ground and permanently-containerized ornamentals – For best results on established ornamentals, place CoreTect Tree and Shrub Tablets Insecticide as close to the fine absorptive roots as possible. For most

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing.

Personal Protective Equipment (PPE):
Applicators and other handlers must wear:
• Shirt and pants
• Shoes plus socks
• Gloves

Follow manufacturer’s instructions for cleaning/maintaining personal protective equipment, PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
deciduous trees and shrubs, an adequate number of these absorptive roots are located within 6-24 inches of the trunk, depending on tree size. Apply CoreTect Tree and Shrub Tablets Insecticide 2-5 inches below the soil surface, next to the plant (in 3-5 inches of newly planted trees or shrubs, or within 6-24 inches of well-established ornamentals). Ensure that the tablets are completely covered with soil after application. For bushy coniferous trees and shrubs, numerous absorptive roots may be located near the drip-line. To apply CoreTect Tree and Shrub Tablets Insecticide post-plant, to plants with a definite drip-line, place tablets 2-5 inches below the soil surface, evenly spaced around the tree and along the drip-line. Ensure that the tablets are completely covered with soil after application.

Derived from: Isobutylidene Dinitramine, Ammonium Phosphate, Ammonium Sulfate, Sulfate of Potash, Magnesium Sulfate and Ammonium Molybdate

CAUTION: Forage crops high in molybdenum (Mo) are toxic to ruminant ani-
imals. This fertilizer contains molybdenum (Mo) and should not be applied on
plants that can be consumed by grazing animals (ruminants).

*10.00% Slowly Available Nitrogen from Isobutylidene Dinitramine.

*WIN (Water Insoluble Nitrogen) is stated on an unground basis. Powdered or
ground samples will analyze at 3.00%.

Information regarding the contents and levels of metals in this product are
available on the Internet at http://www.regulatory-info-ba.com

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Disposal: Wastes resulting from the use of this product may be dis-
posed of on site or at an approved waste disposal facility.

Container Disposal: Nonrefillable container: Do not reuse or refill this contain-
er. Offer for recycling if available or dispose of in a sanitary landfill or by incin-
eration, or if allowed by State and local authorities, by burning. If burned, stay out
of smoke.

Pesticide Storage: Store in a cool, dry place and in such a manner as to pre-
vent cross contamination with other pesticides, fertilizers, food, and feed. Store
in original container and out of the reach of children, preferably in a locked
storage area.

Handle and open container in a manner as to prevent spillage. If the container
is leaking, invert to prevent leakage. Refer to Precautionary Statements on label
for hazards associated with the handling of this material. Do not walk through
spilled material. Absorb spilled material with absorbing type compounds and
dispose of as directed for pesticides above. In spill or leak incidents, keep
unauthorized people away. You may contact the Bayer Environmental Science
Emergency Response Team for decontamination procedures or any other assis-
tance that may be necessary. The Bayer Environmental Science Emergency
Response Telephone No. is 1-800-334-7577 or contact Chemtrec at 1-800-
424-9300.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and
Limitations of Liability before using this product. If terms are not acceptable,
return the unopened product container at once. By using this product, user or
buyer accepts the following Conditions, Disclaimer of Warranties and Limitations
of Liability.

CONDITIONS: The directions for use of this product are believed to be ade-
quate and must be followed carefully. However, it is impossible to eliminate all risks
associated with the use of this product. Crop injury or ineffectiveness or other
unintended consequences may result because of such factors as weather con-
ditions, presence of other materials, or the manner of use or application, all of
which are beyond the control of Bayer CropScience LP. All such risks shall be
assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: TO THE EXTENT CONSISTENT WITH APPLICABLE
LAW, BAYER CROPSCIENCE LP MAKES NO OTHER WARRANTIES, EXPRESS OR
IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE
OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS
LABEL. No agent of Bayer CropScience LP is authorized to make any warranties
beyond those contained herein or to modify the warranties contained herein. TO
THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE LP DISCLAIMS ANY LIABILITY WHATSOEVER FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

LIMITATIONS OF LIABILITY: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT BAYER CROPSCIENCE LP’S ELECTION, THE REPLACEMENT OF PRODUCT.
