IMPORTANT: READ BEFORE USE

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Pesticide Storage:

- Do not store in contact with food, feed, or drinking water. Completely empty container into application equipment. After dry-clogging, if available, or dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Pesticide Disposal:

- Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal:

- Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ½ full with water and stir. Drain 3 times. Pour rinsate into application equipment or a mix tank. Drain for later use or disposal. Drain for 10 seconds after the flow begins to drip. Replicate this procedure two more times. Do not use container in connection with food, feed, or drinking water. Completely empty container into application equipment. After dry-clogging, if available, or dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Dylox 420 SL Turf & Ornamental Insecticide is a soluble concentrate which dissolves readily in water and is suitable for use in all powered spraying equipment.

Use specified dosage of DYLOX 420 SL Turf & Ornamental Insecticide in sufficient water to provide adequate distribution during applications.

For ornam entals, apply to soil around the plant. For turf, spray at the rate listed in the table. Repeat, as needed, for continued control. See label for complete instructions.

Mix specified dosage of DYLOX 420 SL Turf & Ornamental Insecticide in sufficient water to provide adequate distribution during applications.

If the turf is being maintained at a mowing height of greater than 1 in., then the higher application rate (0.3 oz per 1000 sq ft or 1 lb per acre) may be used for narrowly spaced cultivars that tolerate frequent mowing.

Narcissus (narcissus fly) 0.5 oz (6 fl oz per 1000 sq ft) 0.5 oz (6 fl oz per 1000 sq ft)

Narcissus (narcissus fly) 0.5 oz (6 fl oz per 1000 sq ft) 0.5 oz (6 fl oz per 1000 sq ft)

The type of equipment used will affect the concentration of product used.

This product may be used to control a wide variety of arthropod pests. For complete instructions on proper system of pest management in relation to insects, use appropriate soil or turf management practices.

For ornam entals, apply to soil around the plant. For turf, spray at the rate listed in the table. Repeat, as needed, for continued control. See label for complete instructions.

This pesticide is toxic to fish and wildlife and is extremely toxic to aquatic invertebrates. Apply the product in strict accordance with label directions. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application of this product. Direct stream to base of plants at 1/2 to 1 1/2 times with water. While mixing and applying the active ingredient and products in PM bags (Note: Below), allow time for mixing. Do not apply this product if the wind speed is greater than 10 miles per hour. Do not spray this product when grass is wet. Allow the active ingredient to be incorporated in the soil before irrigation or crop harvest. This product contains an organophosphate that inhibits cholinesterase. Contains an organophosphate that inhibits cholinesterase. Prolonged exposure will cause cholinesterase depression. Atropine Sulfate is antidotal. 2-PA M is also antidotal and may be used in combination with Atropine Sulfate.

When handlers use closed systems or enclosed cabs, in a manner that meets the requirements labeled in the Operator Protective Equipment (OPE) standard (40 CFR 170, subpart 1.4), the handler PPE requirements may be relaxed as noted in the OPE standard.

User Safety Recommendations

User should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Wash hands after eating, drinking, using tobacco or going to the toilet.
- Wash hands after applying any product and after any other contact with the treated area.
- Wash hands after removing contamination from spray equipment, and after cleaning or changing PPE.
- Wash hands after removing contaminated clothing before reuse.
- Wash hands after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and put on clean clothes.

Note: Do not use PVA packets in a tank mix with products that contain boron or release free chlorine. The resultant reaction of PVA and boron or chlorine is a flammable mixture. The reaction of sodium and boron or chlorine is a flammable mixture.

Mixing instructions

Compatibility / Mixing / Order of Mixing

Observe all caution and limitations on all packages of used products mixed in

Use only the specified dosage of DYLOX 420 SL Turf and Ornamental Insecticide in the amount of water necessary to give complete coverage of soil or turf. The type of equipment used will affect the concentration of product used.

This product may not be used on all ornamental plants. Read label for appropriate use. This product contains an organophosphate that inhibits cholinesterase. Contains an organophosphate that inhibits cholinesterase. Prolonged exposure will cause cholinesterase depression. Atropine Sulfate is antidotal. 2-PA M is also antidotal and may be used in combination with Atropine Sulfate.

To determine physical compatibility, and the recommended proportions of each with the same proportion of water or surfactant to the chemical supply line, refer to the nearest local area Bayer representative.

Environmental hazard

This pesticide is toxic to fish and wildlife and is extremely toxic to aquatic invertebrates. Apply this product in strict accordance with label directions. For special areas, use does not apply directly to water. Do not contaminate water by clearing or draining of equipment or disposal of waste.

EN VIRONMENTAL HAZARDS

CAUTION
Do not get in eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Mixers, loaders, applicators, and other handlers must wear:

• Long-sleeved shirts and pants
• Eye and face protection
• Impervious and steel toe boots

When handlers use closed systems or enclosed cabs, in a manner that meets the requirements listed in the Employer Information Standard (29 CFR 1910.134): (a) administers or has the authority to administer all personal protective equipment (PPE) for the handlers, and (b) has the authority to developWritten by: S. de la Rosa 5/23/11

MIXING INSTRUCTIONS

COMPATIBILITY / MIXING / ORDER-OF-MIXING

Environmental hazards. This product is bio-based and readily biodegradable in aerobic systems. Apply this product in strict accordance with label directions,

FURTHERMORE, THIS PRODUCT IS NOT TO BE APPLIED TO POWDERED MATERIALS.

Do not apply this product to areas where it can run off, such as streets, drainageways, or other waterways.

However, this product may be used with non-pH buffered fungicides, pesticides, or other material in a manner that does not cause the product to become incompatible or lose its physical and biological characteristics.

Written by: S. de la Rosa 5/23/11

AEROSOL INSECTICIDES

1) Measure weight of material to be treated, then use a hand calculator to determine the amount of Dylox 420 SL Turf and Ornamental Insecticide to be

5) Add any "flowable" (FL or SC) type products;

6) Add the required amount of Dylox 420 SL Turf and Ornamental Insecticide, and any other "LT"-type products; emulsifiable concentrates (EC),

3) Add any "flowable" (FL or SC) type products;

2) While recirculating and with the agitator running, add any products in PVA bags (See Note: Below).

4) Add the required amount of Dylox 420 SL Turf and Ornamental Insecticide, and any other "LT"-type products; emulsifiable concentrates (EC),

PACKAGING: This product is available in 2.5 gal, 4.5 gal, 8 gal and 12 gal containers. It may also be available in bulk quantities.

INSTRUCTIONS FOR USE

APPLICATIONS

Dylox 420 SL is a broad spectrum insecticide for the non-selective control of Turfgrass and ornamental insect pests. Dylox 420 SL is a systemic insecticide which moves into the plant system and creates a systemic barrier in the plant. The insecticide will move throughout the plant and be available for uptake by the insect pests for several weeks after application. Dylox 420 SL Turf and Ornamental Insecticide is not a soil solarization agent and should not be applied in that manner. Dylox 420 SL Turf and Ornamental Insecticide is available in an emulsifiable concentrate (EC), water dispersible concentrate (WDIC) and a dry flowable (DF) formulation. Rx

2) Fill the spray tank 1/4 to 1/2 full with cold water.

3) While recirculating and with the agitator running, add the appropriate product into the PVA bags (See Note: Below). NOTE: Leave room for mixing and flushing traps.

4) Add any "flowable" (FL or SC) type products;

5) Add any "flowable" (FL or SC) type products;

6) Add any "flowable" (FL or SC) type products;

7) Add the required amount of Dylox 420 SL Turf and Ornamental Insecticide, and any other "LT"-type products; emulsifiable concentrates (EC),

8) Mixers, loaders, applicators, and other handlers must wear:

• Broadcast use is limited to tees and greens. Use on fairways is limited to spot treatment.

• Do not use this product on turf being grown for sale or other commercial use as sod. Do not use this product on turf being grown for commercial and/or ornamental use as turf. Do not use this product on turf being grown for ornamental and/or recreational use. Do not use this product on turf being grown for ornamental and/or recreational use.

• Do not use this product on turf being grown for sale or other commercial use as sod. Do not use this product on turf being grown for commercial and/or ornamental use as turf. Do not use this product on turf being grown for ornamental and/or recreational use.

• For ground boom applications, apply with nozzle height no more than 4 feet above the ground or crop canopy and when wind speed is 10 mph or less at the application site, as measured by an anemometer. Use coarse or coarser spray according to ASA BE S-572 definition for standard sprays (40 psi) and coarse sprays (25 psi or less).

MIXING DIRECTIONS: Do not add Dylox 420 SL Turf and Ornamental Insecticide with any other pesticide, fertilizer, or additive unless specified by the manufacturer to be compatible. Mixers, loaders, applicators, and other handlers must wear:

• Long-sleeved shirts and pants
• Eye and face protection
• Impervious and steel toe boots

Written by: S. de la Rosa 5/23/11

MIXING INSTRUCTIONS

COMPATIBILITY / MIXING / ORDER-OF-MIXING

ENVIRONMENTAL HAZARDS

This product is bio-based and readily biodegradable in aerobic systems. Apply this product in strict accordance with label directions, for ornamental uses, one does not apply directly to water. Do not contaminate water by washing equipment designed or used for eating or drinking purposes.

Note: For applications to turf, limit the number of applications to 1 per calendar year with a minimum re-treatment interval of 7-days.

• Do not use more than 24.5 oz of active ingredient per day on small plots and bare soil.

• Do not use this product on turf being grown for ornamental and/or recreational use. Do not use this product on turf being grown for ornamental and/or recreational use.

• Do not use this product on turf being grown for sale or other commercial use as sod. Do not use this product on turf being grown for commercial and/or ornamental use as turf. Do not use this product on turf being grown for ornamental and/or recreational use.

• Do not use this product on turf being grown for sale or other commercial use as sod. Do not use this product on turf being grown for commercial and/or ornamental use as turf. Do not use this product on turf being grown for ornamental and/or recreational use.

• Do not mix applications of DYLOX 420 SL Turf and Ornamental Insecticide with any other pesticide, fertilizer, or additive unless specified by the manufacturer to be compatible.
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Some materials that are chemical-resistant to this product are natural rubber, barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, and polyethylene/plyerite (PE). Protective clothing and equipment should be worn according to the category of an OP or an oral chemical category chart. Worns, bearers, applicators, and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical resistant gloves

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Worker Protection Standard (WPS) for agricultural pesticides [40 C FR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

- Do not apply this product to crops for food or forage.
- Do not apply this product to ornamentals
- Do not use PVA packets in a tank mix with products that contain boron or release free chlorine. The resultant reaction of PVA and boron may produce a substance that is not suitable for water based materials.
- Do not apply this product to crops intended for sale, use, or consumption.
- Do not use treated area or clippings from treated areas for feed or forage.
- Do not apply this product through any type of chemigation system.
- Do not apply this product to commercial seed production or for research purposes.

**APPLICATIONS**

The proper mixing procedure for Dylox 420 SL Turf and Ornamental Insecticide alone or in tank mix combinations with other pesticides is:

1) Fill the spray tank 1/4 to 1/3 full with clean water;
2) While mixing the water and surfactant, add the Pyraclostrobin, and any other SL-type products; emulsifiable concentrates (EC), wettable powder (WP), or emulsifiable concentrate (EC);
3) Fill spray tank to desired level and maintain constant agitation to ensure uniformity of spray mixture.

**DIRECTIVES FOR USE**

A label for each batch of Dylox 420 SL Turf and Ornamental Insecticide is required with each application. For any requirements specific to your State, see Ager Policy调节指南 appropriate to that state.

**APPLICATIONS**

- Do not apply this product in a tank mix with products that contain boron or release free chlorine.
- The resultant reaction of PVA and boron is not suitable for water based materials.

**RESTRICTIONS**

- Do not apply this product to crops for food or forage.
- Do not apply this product to ornamentals
- Do not use PVA packets in a tank mix with products that contain boron or release free chlorine. The resultant reaction of PVA and boron may produce a substance that is not suitable for water based materials.

**DISCLAIMER**

This product is not to be sold or used by retail establishments.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and wildlife and is extremely toxic to aquatic invertebrates. Apply this product in strict accordance with label directions.

**USA**

- Do not apply this product within 100 feet of lakes, reservoirs, rivers, permanent stream, marshes, natural ponds, or estuaries.
- Do not apply within 1000 feet of commercial seed production or for research purposes.
- Do not apply this product in any type of chemigation system.
- Do not apply this product to crops intended for sale, use, or consumption.
- Do not apply to ornamentals.
- Do not apply this product to crops for food or forage.
- Do not apply to ornamentals
- Do not use PVA packets in a tank mix with products that contain boron or release free chlorine. The resultant reaction of PVA and boron is not suitable for water based materials.

**CAUTION**

Some materials that are chemical-resistant to this product are natural rubber, barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, and polyethylene/plyerite (PE). Protective clothing and equipment should be worn according to the category of an OP or an oral chemical category chart. Worns, bearers, applicators, and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical resistant gloves

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Worker Protection Standard (WPS) for agricultural pesticides [40 C FR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

The proper mixing procedure for Dylox 420 SL Turf and Ornamental Insecticide alone or in tank mix combinations with other pesticides is:

1) Fill the spray tank 1/4 to 1/3 full with clean water;
2) While mixing the water and surfactant, add the Pyraclostrobin, and any other SL-type products; emulsifiable concentrates (EC), wettable powder (WP), or emulsifiable concentrate (EC);
3) Fill spray tank to desired level and maintain constant agitation to ensure uniformity of spray mixture.

**DIRECTIVES FOR USE**

A label for each batch of Dylox 420 SL Turf and Ornamental Insecticide is required with each application. For any requirements specific to your State, see Ager Policy调节指南 appropriate to that state.

**APPLICATIONS**

- Do not apply this product in a tank mix with products that contain boron or release free chlorine.
- The resultant reaction of PVA and boron is not suitable for water based materials.

**RESTRICTIONS**

- Do not apply this product to crops for food or forage.
- Do not apply this product to ornamentals
- Do not use PVA packets in a tank mix with products that contain boron or release free chlorine. The resultant reaction of PVA and boron is not suitable for water based materials.

**DISCLAIMER**

This product is not to be sold or used by retail establishments.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and wildlife and is extremely toxic to aquatic invertebrates. Apply this product in strict accordance with label directions.

**USA**

- Do not apply this product within 100 feet of lakes, reservoirs, rivers, permanent stream, marshes, natural ponds, or estuaries.
- Do not apply within 1000 feet of commercial seed production or for research purposes.
- Do not apply this product in any type of chemigation system.
- Do not apply this product to crops intended for sale, use, or consumption.
- Do not apply to ornamentals.
- Do not apply this product to crops for food or forage.
- Do not apply to ornamentals
- Do not use PVA packets in a tank mix with products that contain boron or release free chlorine. The resultant reaction of PVA and boron is not suitable for water based materials.
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage:
Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Handle and open container in a manner so as to prevent spillage. If the container is leaking or material applied for any reason or cause, begin immediate measures to contain the liquid in use of a spill kit or absorbent clay carrier and carefully sweep material into a pile preventing runoff into drains or waterways.

Refer to Precautionary Statements on label for hazards associated with this handling of this material. Do not walk through spilt material. Do not walk through or on discarded or used containers. When these containers are disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency.

Do not contaminate water, food or feed by storage and disposal.

Pesticides and waste materials are acutely hazardous. Improper disposal of excess pesticide, spray residue or rinse waters is a violation of Federal Law.

Disposal of waste materials is the responsibility of the user and must be done in a manner consistent with Federal, State and local regulations.

Condition, Disclaimers of Warranties and Limitations of Liability.

CONDITIONS:
Eliminate all risks associated with the use of this product. Ineffectiveness, plant injury or other property damage, or other unintended consequences may result because of factors beyond the control of Bayer CropScience LP such as weather conditions, presence of other materials or the manner of use or application. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES:
The Statements Made on this Label. No agent of Bayer CropScience LP is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, Bayer CropScience LP DISCLAIMS ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE DESCRIPTION ON THE LABEL OF THIS PRODUCT. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE LP DISCLAIMS ANY LIABILITY WHATSOEVER for personal or economic damages, resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY:
To the extent consistent with applicable law, the exclusive remedy of the user or buyer for any and all losses, injury or damages resulting from the use or handling of this product is limited to (i) the purchase price paid, or (ii) Bayer CropScience LP's election, the replacement of product. Bayer (reg'd), the Bayer Cross (reg'd), DYLOX® and Backed by Bayer™ are trademarks of Bayer.

IMPORTANT: READ BEFORE USE
Read the entire Directions for Use, Conditions, Disclaimers of Warranties and Limitations of Liability before using this product.

If farmers are not acceptable, return the unused product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability. CONDITIONS: The restrictions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness, plant injury or other property damage, or other unintended consequences may result because of factors beyond the control of Bayer CropScience LP such as weather conditions, presence of other materials or the manner of use or application. All such risks shall be assumed by the user or buyer.

STOP - READ THE LABEL BEFORE USE.
KEEP OUT OF REACH OF CHILDREN.

CAUTION

FIRST AID
Contains an organophosphate that inhibits cholinesterase.

IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN:
• Take off contaminated clothing.
• Call a poison control center or doctor for treatment advice.

In case of emergency call toll free the Bayer Environmental Science Emergency Response Telephone No. 1-800-334-7577. Have a product container or label with you when calling a poison control center or doctor, or going for treatment.

Note To Physician: Prolonged exposure will cause cholinesterase depression. Atropine Sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

See inside leaflet for complete First Aid Instructions, Precautionary Statements, Directions for Use and Storage and Disposal Instructions.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Protect from freezing. Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Do not take internally. Avoid contact with eyes, skin or clothing. Do not get in eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife and is extremely toxic to aquatic invertebrates. Apply the product in strict accordance with label directions. For terrestrial uses, do not apply directly to water. Do not contaminate water by cleaning or equipment or disposal of waste.

Refer to attached leaflet for complete Directions for Use and Precautionary Statements.
