Brush (Tough Weeds), Unwanted Trees, Shrubs & Vines (including): Alder, ash, (quaking) aspen, blackberry, blue gum eucalyptus, broom (French, Scotch), buckwheat, Ceanothus, chamise, cherry, coyote bush, daisy, elderberry, elm, eucalyptus, giant reed, hawkthorn, hazel, honeysuckle, kudzu, locust, madrone, maple, oak, persimmon, poison oak, poison ivy, poplar, raspberry, sedge, sedgebrush, salmonberry, salt cedar, sassafras, sumac, sweet gum, tan oak, thimbleberry, tree tobacco, wild rose (multiflora), willow and other tough weeds.

HOW TO REFILL GLYSTAR® READY-TO-USE GRASS AND WEED KILLER CONTAINER

24 fl. oz. GlyStar® Ready-to-Use Grass and Weed Killer: To empty container add 2 fl. oz. of GlyStar® Grass and Weed Killer Concentrate, then fill with water very slowly to avoid foaming.

32 fl. oz. GlyStar® Ready-to-Use Grass and Weed Killer: To empty container add 2.5 fl. oz. of GlyStar® Grass and Weed Killer Concentrate, then fill with water very slowly to avoid foaming.

1/2 gallon GlyStar® Ready-to-Use Grass and Weed Killer Concentrate then fill with water very slowly to avoid foaming.

1 gallon GlyStar® Ready-to-Use Grass and Weed Killer Concentrate then fill with water very slowly to avoid foaming.

STORAGE AND DISPOSAL

STORAGE: Store in original container in a safe place.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

NOTICE

Buyer assumes all responsibility for safety and use not in accordance with directions.

GlyStar® is a trademark of Albaugh, Inc.
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow spray to drift from the application site and contact people, structures people occupy at any time and the associated property, parks and recreation areas, non-target crops, aquatic and wetland areas, woodlands, pastures, range-lands, or animals. Apply only when wind speed is not more than 10 mph. For sprays, apply largest size droplets possible.

CONTROLS ALL WEEDS AND GRASSES INCLUDING: Barnyardgrass, Bermuda-grass, Thistle, Chickweed, Common Ragweed, Dandelion, Fescue, Johnsongrass, Clover, Yellow Nutgrass and other grasses, weeds, edges and brush.

MIXING INSTRUCTIONS

Tank Sprayer (plastic, aluminum, fiberglass, plastic-lined steel or stainless steel)

- For easy-to-kill weeds such as seedings, add 3 fl. oz. (6 Tbs) to 1 gallon of water.
- For tough, established weeds and for best results, add 6 fl. oz. (12 Tbs) to 1 gallon of water.
- Spot treat spray everly over 300 sq. ft.

1 Tablespoon (Tbs) = 3 teaspoons (tsp) 1 fl. oz. = 2 Tbs

Do not apply with a galvanized or unlined steel (except stainless steel) sprayer or through any irrigation system.

To clean sprayer after use, rinse sprayer and all sprayer parts with water 3 times. Spray rinse water on bare soil or gravel. After cleaning, sprayer may be used for other products.

HOW TO APPLY

- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plants are accidentally sprayed, rinse off immediately with water.

IMPORTANT: Do not spray plants or grasses you like – they may die, too. Not recommended for spot weed control in lawns because GlyStar® Grass and Weed Killer Concentrate kills lawn grasses.

WHEN TO APPLY

- Apply when weeds and grasses are actively growing.
- For best results, apply during warm, sunny weather (above 60°F)
- Spray when air is calm to prevent drift to desirable plants.
- Rain or watering 2 hours after application will not wash away effectiveness.
- Apply when weeds are small and before seeds form.
- All ornamental flowers, trees and shrubs may be planted 1 day after application.

ADDITIONAL TIPS

To Kill Vines

- If vines are growing up poles, fences, or tree trunks with mature bark, cut vines to a height of 3 to 4 feet and spray vines thoroughly.
- If vines are climbing shrubs, or tree trunks with green bark, cut vines at base and treat as directed for stumps or spray regrowth. If spraying regrowth, shield shrubs and green bark from spray drift with a sheet of cardboard or plastic.

To Kill Stumps

- Cut living stump close to ground.
- Drive 4 to 5 holes into freshly cut stump.
- Immediately pour undiluted product into holes.

For Lawn Replacement

Use GlyStar® Grass and Weed Killer Concentrate to kill a lawn and weeds before planting new lawn.

- Skip mowing before spraying.
- Use 6 fl. oz. (12 Tbs) per gallon of water for each 300 sq. ft.
- If soil is dry, water before application and 2 to 3 days after application.
- If green patches remain after 7 days, reapply.
- Wait 7 days for weeds and lawn to die. Repeat if necessary.
- Rake or till to prepare area for planting seed or sod.

Kudzu

For best results, apply in mid to late summer when vines are mature and actively growing.

Wild Blackberry

Spray anytime plants are actively growing. Dead canes should be cut down and removed. Reapplication is often required to kill deep roots.

Poison Ivy & Poison Oak

Contact with these plants anytime of the year can cause an allergic reaction. Spray anytime plants are actively growing, but at least 4 weeks before the first killing frost in the fall. Reapply, if new growth appears. Handle dead plants with rubber gloves. Dispose of plants and rubber gloves in tightly sealed garbage bags.

For Flowerbed & Garden Preparation

Use GlyStar® Grass and Weed Killer Concentrate to kill weeds, grasses and brush before planting flowers, fruits, vegetables or herbs.

- If soil is dry, water before application and 2 to 3 days after application.
- Apply evenly over treatment area.
- Wait the number of days indicated below before planting.

WHEN TO REPLANT

- All ornamental flowers, trees and shrubs and the following berries, fruits, vegetables and herbs may be planted 1 day after application: Arcthoke (Jerusalem), beans (all), beet greens, blackberry, blueberry, boysenberry, broccoli, Brussels sprouts, cabbage (all), carrot, cauliflower, celery, chard (Swiss), chicory, collards, cranberry, currant, dewberry, elderberry, endive, gooseberry, horseradish, huckleberry, kale, kohlrabi, leek, lettuce, loganberry, mustard greens, okra, blackberry, onion, parsley, parsnips, potato, radish, rape greens, raspberry (black and red), rhubarb, rutabaga, spinach, sweet potato, turnip and yam.

- The following fruits, vegetables and herbs may be planted 3 days after application: Corn, cucumber, eggplant, garlic, gourd, melons (all), peas (all), peppers (all), pumpkin, squash (summer and winter), tomatillo, tomato (by seed) and watercress.

- Lawn grasses may be replanted 7 days after application.

- Tomatoes from transplant and unlisted fruits, vegetables and herbs may be planted 30 days after application.

WHEN TO HARVEST

If used to control weeds around fruits or nuts, allow the following number of days before harvesting:

- Citrus (citron, grapefruit, lemon, lime, mandarin, orange, tangelo, tangerine) – 1 day.
- Nuts (almond, beechnut, cashew, chestnut, hazelnut, pecan, pistachio and walnut) – 3 days.
- Apple, avocado, banana (plantains), berries (except cranberries), dates, figs, grapes, kiwi fruit, loquat, passion fruit, pear, persimmon, pomegranate and prune – 14 days.
- Apricot, cherries, nectarine, olives, peach, plum and prunes – 17 days.

HOW IT WORKS

GlyStar® Grass and Weed Killer Concentrate enters plants through foliage and moves systematically to the roots, killing weeds by stopping the production of a substance found only in plants. Any product not absorbed by plants breaks down into natural materials without moving in or on the soil to untreated plants. Weeds usually yellow and wilt within 2 to 4 days with complete kill in 1 to 2 weeks.
KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID
If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-
  20 minutes.
• Remove contact lenses, if present, after the first 5 minutes,
  then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control cen-
  ter or doctor, or going for treatment. You may also contact 1-800-424-9300 for
  emergency medical treatment information.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION
Causes moderate eye irritation. Avoid contact with eyes or clothing.
Wish thoroughly with soap and water after handling.
People and pets may enter treated areas after spray has dried.

ENVIRONMENTAL HAZARDS
Do not apply directly to water. Do not contaminate water when dis-
posing of equipment washwaters.
