FOR INDUSTRIAL USE ONLY / Keep Out Of Reach Of Children

DANGER

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear protective clothing, eye wear (goggles, face shield, or safety glasses) and rubber gloves when handling. May be harmful if swallowed, inhaled, or absorbed through the skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and washing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without prior notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep container closed when not in use. Do not store below 0°F for extended periods.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of pesticide wastes or rinsewater is a violation of Federal law. These wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Continue rinsing. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Call a Poison Control Center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Do not give anything to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may take place. Reactions against respiratory depression and convulsion may be needed.

CHEMTREC EMERGENCY NUMBER: 1-800-424-9300

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. AUTHORIZED BY USDA FOR USE IN FEDERALLY INSPECTED MEAT AND POULTRY PLANTS

Sanitizing of Food Processing Equipment and other hard surfaces in food contact locations.

For sanitizing food processing equipment, dairy equipment, food utensils and other non-porous hard surfaces. No potable water rinse is required. Prior to application, remove non food particles and soil by a pre-scrub and, when necessary, pre-spray. Then wash thoroughly, flush object with a good detergent or cleaner, followed by a potable water rinse before application of sanitizing solution. Apply a solution of 1 oz. of BIo HATCH in 4 gallons of water (150 ppm active). Surfaces should remain wet for at least 5 minutes before being dried. Drying is recommended in this solution. Prior to distribution, all equipment, utensils, and their feds must be removed from the premises. This includes emptying all troughs, racks and other feeding and watering equipment. Remove all litter and droppings from floors, walls and other surfaces occupied or traversed by poultry or other animals. Thoroughly clean with soap or detergent and rinse with water. After disinfecting, ventilate buildings, coops and other closed spaces. Do not house poultry or other animals, or employ equipment until treatment has been absorbed, set or dried. All treatment equipment that will contain feed or drinking water must be rinsed with potable water before reuse.

SANITIZING FOOD EGGS: To sanitize previously cleaned food grade eggs and egg product processing plants, spray with 1 oz. BIo HATCH in 4 gallons of water (150 ppm active). The solution should be warmer than the eggs, but not to exceed 105°F. Wet eggs thoroughly and allow to drain. Eggs sanitized with this product shall be subjected to a potable water rinse only if they are to be immediately broken open for use in the manufacture of egg products. Eggs should be reasonably dry before caging or breaking. The solution should not be re-used for sanitizing eggs.
