DIRECTIONS FOR USE

Place sticks approximately every 10-12 ft. around the perimeter of the area to be protected. Sticks will be most effective when burned in breeze, especially on windward side. Depending on air movement, sticks will last 3-4 hours. If a crack appears in the body of the stick when there is little or no breeze. Depending on air movement, sticks will last 3-4 hours. To extinguish, gently knock off glowing end and put the tip out by blowing out the flame. It will continue to burn without a flame but will not create smoke which will repel mosquitoes. Insert the bottom end of the stick into the ground or a bucket of sand, making sure that the stick stands upright.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Avoid prolonged inhalation. Do not touch lit end of stick. Sticks will last 3-4 hours. If a crack appears in the body of the stick when there is little or no breeze. Depending on air movement, sticks will last 3-4 hours. To extinguish, gently knock off glowing end and put the tip out by blowing out the flame. It will continue to burn without a flame but will not create smoke which will repel mosquitoes. Insert the bottom end of the stick into the ground or a bucket of sand, making sure that the stick stands upright.

First Aid

If Inhaled

• Move person to fresh air.
• Expose to fresh air, call 911 or an ambulance, or use artificial respiration, preferably by mouth-to-mouth, if possible.
• Call poison control center or doctor for further treatment advice.

If Swallowed

• Do not induce vomiting.
• Call poison control center or doctor for further treatment advice.

If Contacted with Eyes

• Do not rub eyes. Remove contaminated clothing.
• Call poison control center or doctor for further treatment advice.

IF ON SKIN

• Remove contaminated clothing and wash skin with soap and water after use.

If Ingested

• Do not induce vomiting.
• Call poison control center or doctor for further treatment advice.

Storage

Store in a cool, dry, preferably locked area inaccessible to children and pets and away from sources of heat or ignition.

Disposal of Empty Containers

Non-refillable container; do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Do not place or re-fill this container. Place in trash or offer for recycling if available. If empty: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying the product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain do not blow or wash the product away from the treatment area.

Questions or Comments?

Call 1-888-880-1181 for emergency medical treatment information.

Additional Precautionary Statements

See back panel for First Aid and treatment information.
DIRECTIONS FOR USE
Place sticks approximately every 10-12 ft.

FIRST AID
If Inhaled
• Remove person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• If partly filled:
• Call a poison control center or doctor for further treatment advice.

If Swallowed
• Do not attempt to induce vomiting.
• Call a poison control center or doctor for further treatment advice.

DANGERS AND PRECAUTIONS
Keep out of reach of children.

Active Ingredient:
d-cis/trans allethrin ........... 0.25%

This product is toxic to fish and aquatic invertebrates. To protect the environment, do not allow product to enter or run off into storm drains, ditches, ditches, gutters or surface waters. Applying the product in calm weather when river or stream flow is low is recommended. Inconsistent with its labeling.

Questions or Comments?
Call 1-888-880-1181.

FIRST AID
If Inhaled
• Remove person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• If partly filled:
• Call a poison control center or doctor for further treatment advice.
**PRECAUTIONARY STATEMENTS**

**DIRECTIONS FOR USE**

Place sticks approximately every 10-12 ft.

Do not use indoors. Thoroughly wash with soap and water after use.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Avoid contact with the eyes or mucous membranes. If contact occurs, rinse thoroughly with water. Do not allow burning sticks to contact flammable objects, materials or surfaces.

**DISPOSAL OF UPTO USE MATERIALS**

To extinguish, gently knock off glowing end and put the tip out by inserting in dirt or sand. To extinguish, blow out the flame. It will continue to burn without a flame but will significantly decrease in effectiveness.

**PERIMETER OF THE AREA TO BE PROTECTED**

Sticks will be most effective when there is little or no breeze. Depending on air movement, sticks will last 3-4 hours. If a crack appears in the body of the stick when there is little or no breeze, it is simply drying. This is normal and in no way impedes effectiveness.

**EACH STICK LASTS 3-4 HRS**

Use one stick every 100 sq ft (10 ft x 10 ft). Use all the sticks in the box. Thoroughly wash with soap and water after use.

**STORAGE**

Shake in cool, dry preferably locked area inaccessible to children and pets and away from sources of heat or ignition.

**FIRST AID**

If Inhaled

1. Remove person to fresh air.

2. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

3. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-888-880-1181 for emergency medical treatment information.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, ditches, ditches, pattern or surface waters. Applying the product in calm weather when winds are not predicted will be most effective. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
