DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Industrial microicide for use in wood and wood products.

PREPARATIVE FOR WOOD AND WOOD PRODUCTS: CleanWood® AC is recommended for the protection of wood and wood products such as landscape timbers, fences, posts, pilings, cross ties, decks and similar exterior structures, from mold and mildew. Treat pressure-treatment solution with 0.2 mg to 0.085 mg of CleanWood® AC per 1000 gallons of solution (40 to 12.6 ppm active isothiazolones) in the pressure treating process for mold and mildew control. Under extreme mildew conditions, CleanWood® AC may be used up to a maximum concentration of 46 ppm active isothiazolones (up to 32 fluid ounces per 1000 gallons of treatment solution). This application will afford protection up to 12 weeks and during repeated use of solution. CleanWood® AC may be used at higher concentrations so long as the end-use product/vehicle contain a maximum concentration of 46 ppm active isothiazolones.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARD
This product is corrosive to mild steel.

STORAGE AND DISPOSAL
PROHIBITED: This product (pH 3.0) is corrosive to mild steel. PESTICIDE STORAGE: Do not store or transport in unlined metal containers. Do not contaminate food or feed by storage, disposal, or cleaning of equipment. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides or residue is a violation of Federal Law. If these wastes cannot be destroyed by one according to label instructions, contact your state Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for instructions on how to dispose of these wastes.

CONTAINER DISPOSAL: Plastic nonrefillable container: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tap container on the side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its side and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinseate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure until rinsate is no longer discolored or puncture and dispose of in a sanitary landfill by incinerator or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not reuse this container to handle other pesticides or dilute pesticides (rinsate). After emptying and cleaning, it may be allowable to temporarily hold rinsate or other pesticide-related materials in the container. Contact your State regulatory agency to determine allowable practices in your state.

GENERAL: CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

CleanWood® AC

ACTIVE INGREDIENTS:
5-Chloro-2-methyl-4-thiazolin-3-one ........................................ 16.60%
2-Methyl-4-thiazolin-3-one .................................................. 3.40%
2-Methyl-4-thiazolin-3-one .................................................. 3.40%
OTHER INGREDIENTS .......................................................... 0.80%
TOTAL .............................................................................. 20.00%

CleanWood® AC microicide weighs 10.4 lb. per gallon

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO
See side panel for additional precautionary statements

FIRST AID

In Eyes:
* Hold eye open and rinse slowly and gently with water for 15-20 minutes.
* Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
* Call a poison control center or doctor for treatment advice.

In Swallowed:
* Call a poison control center or doctor immediately for treatment advice.
* Have person sip a glass of water if able to swallow.
* Do not induce vomiting unless told to do so by the poison control center or doctor.
* If on Skin:
* Take off contaminated clothing.
* Rinse skin immediately with plenty of water for 15-20 minutes.
* Call a poison control center or doctor for treatment advice.

Inhaled:
* Move person to fresh air.
* If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
* Call a poison control center or doctor for further treatment advice.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

EPA Reg. No. 67071-5-3006 EPA Est. No: 67071-DEU-001

Manufactured For:
Osmose, Inc.
982 Ellicott Street
Buffalo, NY 14209

Precautionary Statements:
Hazards to Humans and Domestic Animals

DANGER
Comprise. Cause irreversible eye damage and skin burns. May be fatal if swallowed or absorbed through skin. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Do not breathe vapor or spray mist. Avoid contact with skin. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Remove contaminated clothing and wash before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE):
- Gloves and goggles
- Respirator and face shield
- Chemical-resistant gloves (such as rubber or nitrile)

A respirator with an organic-vapor removal cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14C), or NIOSH approved Respirator with an organic (CV) cartridge or canister with any R, P, or HE prefilter.

In addition, miners and loaders and persons cleaning equipment must wear a chemical-resistant apron.

Follow manufacturer’s instructions for cleaning / maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly. Do not discard or otherwise contaminate with this product's container.

CONDITIONS OF SALE AND WARRANTY
Manufacturer warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with labeled directions under normal conditions of use. MANUFACTURER/SHIPPER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User is beyond the control of Manufacturer/Shipper. Risks such as negligence or other unintended consequences resulting from, but not limited to, failure to follow label directions will be assessed by the Buyer or User. IN NO CASES WILL MANUFACTURER/SHIPPER BE HELD LIABLE TO CONSUMER/BUYER OR INDIRECT DAMAGER RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.

CORROSIVE LIQUID, TOXIC, N.O.S. [mixture containing 5-Chloro-2-methyl-4-thiazolin-3-one and 2-Methyl-4-thiazolin-3-one (8.8%), 8. UN 2022, PG-D
