Add 20 fluid ounces of this product per 100 lbs. of dry laundry to the final rinse cycle. Add 5 fluid ounces of this product per 100 lbs. of dry laundry to the final rinse cycle. Do not use with chlorine bleach. This product provides, to the fabric, a residual bacteriostatic activity against odor-causing Gram positive and Gram negative organisms under conditions of high relative humidity or wet contamination. At this rate, this product provides, to the final rinse cycle, a residual self-sanitizing activity for rinsates of brightener-containing laundry. If the water has a hardness greater than 350 parts per million as calcium carbonate, then a water softener should be used before the final rinse cycle, or a water softener may be used after the final rinse cycle. The residual self-sanitizing activity reduces the potential for bacterial regrowth without the use of chlorine bleach. The residual self-sanitizing activity reduces the potential for bacterial regrowth without the use of chlorine bleach. Fabric Softener Concentrate, Residual Bacteriostatic and Residual Self-Sanitizer under conditions of high humidity or wet conditions of high relative humidity or wet conditions of high relative humidity or wet conditions.
