Sani-Step is a water activated, time-released, solid sanitizer specifically formulated to improve environmental sanitation on floors where wet conditions favor microorganism growth and cause sanitation concern.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

After cleaning and sanitizing equipment, apply Sani-Step every 4 to 6 hours, at a rate of 1.2 grams - 2.4 grams per square foot. Product may be reapplied as needed during the production process. Sani-Step does not become active until it comes in contact with moisture on the floor.

Sani-Step has been evaluated at a concentration that supports a dilution of 5.1 oz/pint in the presence of 5% soil contamination and in waters up to 500 ppm hardness (29.2 gpp calculated as CaCO3). Treated surfaces must remain wet for 5 minutes.

Sani-Step was evaluated using the Non-Food Contact Surface Sanitizer Test and was proven to be effective against the following organisms:

- Staphylococcus aureus
- Enterococcus aerogenes
- Escherichia coli
- Listeria monocytogenes
- Salmonella enterica

**ENVIRONMENTAL HAZARDS:** Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**FOR INDUSTRIAL USE ONLY**

**STORAGE & DISPOSAL**

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

- **Pesticide Storage:** Store in a dry area.
- **Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to the instructions, they should be returned to the manufacturer or contacted the State Pesticide Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Completely empty any liquid by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into approved equipment. Then dispose of liquid in a sanitary landfill or by incineration if allowed by state and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.
