**Agricultural Use Requirements**

Use this product in accordance with the labeling and with the Worker Protection Standard (WPS). This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It also contains specific requirements for training, occupational exposure, and emergency response. It also contains specific regulations and exceptions pertaining to the storage of this label-adapted personal protective equipment (PPE). Revisions to WPS standards are included in this product's label. Always use the PPE required by the WPS. PPE required to comply with WPS includes: 1. Coveralls, 2. Gloves, 3. Respirators, and 4. Footwear. PPE must be maintained and used properly.

**PLANTS Rooted with This Strength:**
- Chamaecyparis obtusa aurea
- Hexaquifolium and Taxus baccata aurea (yw)

**Caution:** 
- Do not mix with other pesticides, fertilizers, or chemicals. If mixed, this product is void of any use that will contact non-targeted plants, non-targeted areas, or non-targeted water. Do not use within 48 hours of any other treatment. 
- Do not use within 100 feet of any water bodies, ponds, lakes, or streams. Do not mix with any other chemicals that may cause water pollution or environmental damage. 
- Do not use on or near domestic animals.

**For Rooting Very Difficult to Propagate Plants**
