Eliminator Indoor Fogger - 20130522_194.pdf
Read entire label before use.

**DIRECTIONS FOR USE**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Apply this product only as specified on this label.

**TO USE THIS PRODUCT CORRECTLY**

- DO NOT USE MORE THAN ONE FOGGER PER ROOM.
- DO NOT use in small, enclosed spaces such as closets and cabinets or under counters or tables. Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property. DO NOT use in a room 5 ft x 5 ft or smaller. Instead, allow fog to enter from other rooms.

Turn off ALL ignition sources such as pilot lights (plug off gas valves), other open flames and running electrical appliances that cycle on and off (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights. Apply this product only as specified on this label.

**General Precautions and Restrictions**

- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during treatment.
- Do not allow adults, children or pets to enter the treated area until vapors, mists and aerosols have dispersed and the treated area has been thoroughly ventilated.
- Cover any water inhabited by fish (such as aquariums and ornamental fish ponds) during treatment, and turn aquarium systems off. All food-preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.
- Do not use in greenhouses where plants are grown for food. Exit area immediately and remain outside the treated area until the area is thoroughly ventilated and until aerosols, vapors or mists have dispersed.
- Wait two hours after application, then open windows, vents and doors for two hours. If an odor is detected, additional ventilation is required.
- Does not control bed bugs.

**BEFORE YOU FOG**

1. OPEN cabinets, cupboards, drawers, closets and doors in areas to be treated.
2. REMOVE or cover exposed foods, dishes, utensils, food-processing equipment and surfaces. REMOVE pets and birds and COVER and turn off or close systems in air conditioning. REMOVE or COVER children’s and pet toys. COVER waxes, wood floors and waxed wood furniture in the immediate area surrounding the fogger (newspaper may be used).
3. CLOSE outside doors and windows.
4. TURN OFF ALL FLAMES, PILOT LIGHTS, IGNITION SOURCES and running electrical appliances that cycle on and off. Call your gas utility or management company if you need assistance.
5. DO NOT use fogger in a cabinet or under a counter or table.

**TO START FOGGING**

1. Place a chair, table or stand in the center of the room to be fogged. Cover with several layers of newspaper or paper towels. SHAKE WELL BEFORE USING. Tilt sprayer AWAY from face (fogger sprays up).
2. Press valve all the way down, holding the catch. Do not inhale the spray mist. Set sprayer on newspaper or paper towels and leave the premises immediately.
3. Close door(s) and hang “Fogger in Use” sign on doorknob. KEEP TRAVERSED CLOSED AND DO NOT RE-ENTER FOR AT LEAST TWO HOURS. Keeping treated area closed for a longer period will enhance fogger performance. Vacate the treated house, individual apartment unit or other structure immediately.

**AFTER FOGGING**

AIRING OUT: BEFORE REOCCUPATING THE AREA, OPEN ALL DOORS AND WINDOWS. TURN ON AIR CONDITIONER AND FANS AND ALLOW TREATED AREA TO AIR OUT FOR TWO HOURS. Turn on smoke alarms and air conditioners. NOTE: When heating for fleas or ticks, clean and treat pet sleeping areas. Also treat dogs and cats with a flea and tick control product registered for use on pets before allowing them to re-enter the treated areas.
Save for Future Use/Guarde para uso futuro

ELIMINATOR
INDOOR FOGGER

Fill out and place hangtag on the door to the treated area to alert family and others with access to the treated area not to enter for two hours.

Total Release Fogger Use Area
