PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID:
Contains organophosphate that inhibits cholinesterase.

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Note to Physicians and Veterinarians: This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine.

Directions for Use:
This product is for external use on cats only. Apply the collar tightly around the cat’s neck. The collar should be tight enough to allow room for growth of the cat and to prevent the collar from moving. For best results, do not unroll the collar. Do not remove the collar at any time. If irritation continues, remove the collar from the animal.

Note:
- Do NOT use this product on animals simultaneously or within 30 days before or after treatment with or exposure to other cholinesterase inhibiting drugs, pesticides, or chemicals.
- This product is for use on cats only.
- Do NOT use on kittens under 12 weeks old or nursing cats, do not replace collar until the kittens are at least 12 weeks old.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage and disposal. Pesticide Storage: Store this product in a cool, dry place that is inaccessible to children. Pesticide Disposal: Do not reuse or refill this container. Offer it for recycling, if available. Do not contaminate water, food or feed by storage and disposal. Pesticide Storage: Store this product in a cool, dry place that is inaccessible to children. Pesticide Disposal: Do not reuse or refill this container. Offer it for recycling, if available. If partially filled: Call your local waste agency for disposal instructions.
