### Conditions of Sale and Limitation of Warranty and Liability

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherent associated with the use of this product. Crop injury, ineffectiveness, or other unattended consequences may result because of such factors as manner of use or application, weather or crop conditions, prevalence of other materials, resistant strains of other interfering factors in the use of the product, which are beyond the control of Agroscope, Inc. or Seller. All such risks shall be assumed by Buyer and User and Buyer and User agree to hold Agroscope, Inc. and Seller harmless for any claims relating to such factors.

Agroscope, Inc., warrants that this product conforms to the chemical description on the label and is reasonable to the manufacturer's best efforts, and the Directions for Use for the intended use, subject to the inherent risks referred to above, which result in accordance with directions under normal use conditions. This warranty does not apply to any use under conditions not reasonably foreseeable to or beyond the control of Seller or Agroscope, Inc., and Buyer and User assumes the risk of any such use. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, AGROSCOPE, INC. MAKES NO OTHER WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

### Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

### Pesticide Storage

Keep tightly closed and stored. Product is moisture, impenetrable and light sensitive. It is hygroscopic and protected from moisture, stored in a cool (70°F, 24°C), dry place away from heat and open flames with minimum exposure to the atmosphere, stored in dry storage temperatures.

### Christmas Trees

Pesticide Use: Directions for use of this product may be applied to an area or in an approved waste disposal facility. Container Disposal: Nonrefillable Containers do not apply to Christmas trees. Completely empty tank into application equipment, then offer for recycling if available or dispose of in a sanitary landfill. By incorporation, or if allowed by state and local authorities, by burning, if burned, stay out of smoke.

---

**Fungicide/Bactericide**

### Active Ingridients:

- Streptomycin Sulfate**......................... 22.40%
- Other Ingridients.......................... 77.60%

**Equivalent to 17% streptomycin**
**PRECAUTIONARY STATEMENTS**

**Hazard to Humans & Domestic Animals**

**CAUTION** Harmful if inhaled, swallowed or absorbed through skin. Prolonged or frequent exposure to contact may cause allergic reactions in some individuals. Causes moderate eye irritation. Do not breathe dust or spray mist. This material is not to be used for medical, veterinary or human purposes.

**Personal Protective Equipment (PPE):**

- Application and other handlers must wear:
  - Long-sleeved shirt
  - Long pants
  - Chemical-resistant gloves made of a waterproof material
  - Closed toe shoes
  - MSHA/NIOSH approved dust or HE filter Face mask with a N95 or equivalent respirator with an R, P, or HE filter

Follow manufacturer’s instructions for cleaning and maintaining PPE. If no such instructions are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

**User Safety Recommendations:**

- Users should:
  - Wash hands before eating, drinking, chewing gum, or using tobacco or the toilet.

**Environmental Hazards**

This product may be hazardous to aquatic life. Do not apply directly to water, to areas where surface water is present or to riparian areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only trained handlers may be in the area during application. For any requirements specific to your State or Tribe, contact the agency responsible for pesticide regulation.

**Agricultural Use Requirements**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for protective clothing and equipment, including caps, aprons, gloves, and shoes. It contains standards, and severe restrictions-in-use extending over 120 days, for contact pesticides, and over 180 days for systemic pesticides, and includes specific instructions and precautions extending to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box apply to users that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

For easy entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water, wear:

- Chemical over long-sleeved shirt and pants
- Chemical-resistant gloves made of a waterproof material
- Closed toe shoes

**Resistant Management Statements - FIREWALL®**

Fungicide bactericide combination contains a Group 20 fungicide/bactericide. Fungicide/saflavone/bactericide with active resistant strains to Group 25 may eventually dominate the fungicide/bactericide population as Group 25 fungicide/bactericides are used repeatedly in the same field or in successive years as the primary method of control for targeted species. This may result in partial or total loss of control of these species by FIREWALL®.

- **Apply** theFirewall® 17 WP fungicide/bactericide or other Group 25 products.

**To delay fungicide/bactericide resistance consider**

- Avoiding the continuous use of FIREWALL® 17 WP fungicide/bactericide or other Group 25 fungicide/bactericides that have similar target sites of action, on the same pathogen or pest species.

- Use different or alternate fungicide/bactericide products from different target sites of action Groups as long as the involved products are all registered for the same use and are both effective in the field mix or proposed mix on the particular site of concern.

- When fungicide/bactericides are used in a comprehensive IPM program.

- Monitoring resistant fungicide/bactericide populations for loss of field efficacy.

- Contacting your local extension specialist, certified crop advisor, and manufacturer for fungicide/bactericide resistance management and/or IPM recommendations for specific crops and resistant pathogens.

PRECAUTIONARY STATEMENTS
Hazards To Humans & Domestic Animals
CAUTION: Harmful if absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Causes moderate eye irritation. Do not breathe dust or spray mist. This material is not to be used for medical, veterinary or human purposes.
Personal Protective Equipment (PPE): Applicators and other handlers must wear:
• long-sleeved shirt • long pants • chemical-resistant gloves made of a waterproof material • shoes plus socks • MSHA/NIOSH approved dust/mist respirator with any P, R, or HE filter
Follow manufacturer’s instructions for cleaning/ maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
FOR ADDITIONAL PRECAUTIONARY STATEMENTS: See attached booklet on User Safety Recommendations and Environmental Hazards.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Keep tightly closed and sealed. Product is moisture, temperature and light sensitive. Product is hygroscopic so protect from moisture. Store in a cool (-77°F, 25°C), dry place away from heat and open flames with minimum exposure to the atmosphere. Avoid extremes in temperature.
Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
Container Disposal: Nonrefillable Container. Do not reuse or refill this container. Completely empty bag into application equipment, then offer bag for recycling if available or dispose of in a sanitary landfill, by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.
