PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed, or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling, before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE)
Applicators and other handlers should wear eye protection, such as goggles or face shield, and rubber or nitrile gloves. Protective clothing must be changed when it shows signs of contamination. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal of equipment.

PESTICIDE STORAGE: Store product in original container only. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these pesticides cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Offer for recycling, if available or puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

BATCH NO: ________________

MP400-EXT
Not For Household Use.

Active Ingredients:
- Copper 8-quinolinolate* .................................... 0.30%
- Tebuconazole ............................................. 0.20%
- Sulfenthrin ................................................... 0.04%
- Sodium Tetaborate Decahydrate ......................... 43.70%

Inert Ingredients: ........................................... 55.76%

Total: 100.00%

*Metallic Copper Equivalent: 0.05%
Patent pending, all rights reserved.

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

- If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
- If swallowed: Call a poison control center or doctor for treatment advice.
- If inhaled: If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
- In case of emergency, call CHEMTREC toll free at 800-424-9300.

INFORMATION FOR USE

- Use of this product can result in death or serious injury to humans and wildlife. Do not apply to poles, posts or other exposed areas of the cord. It may be applied by brush, trowel or pump.

DIRECTIONS FOR USE

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

EXTERNAL TREATMENT: Apply to a thickness of 1/16" on poles or timber. Typical pole application is from 3' to 18' below groundline and lower where deeper decay is suspected. Application on poles to be restored should extend the length of wrap-around type repair systems. Wrap the treated area with water-proof bandage. OSMOSHIELD.

Proper use includes the covering of any exposed product above the groundline in areas where children or livestock may come in contact with it. Various products which can be used for this purpose are Osmose's Pasture Wrap or some other type of barrier which prevents the product from being easily removed and consumed.

INTERNAL TREATMENT: For control of internal decay in poles and other timbers, holes may be drilled in areas of the pole or timber where protection is required. Fill drilled holes, decay pockets, and voids using a grease gun or other pressurized applicator. Plug application holes with secure-fitting dowels.
