KPHITE 7LP
SYSTEMIC FUNGICIDE BACTERICIDE

A SYSTEMIC FUNGICIDE BACTERICIDE FOR THE CONTROL OF DOWNY MILDEW,
PHYTOPHTHORA, PYTHIUM, AND VARIOUS OTHER DISEASES ON
GREENHOUSE CROPS, INDOOR AND OUTDOOR ORNAMENTALS,
BEDDING PLANTS AND FORESTRY APPLICATIONS AND DOMESTIC TREES
INCLUDING CONIFERS, PINES, OAKS AND TURF

ACTIVE INGREDIENT:
Monosodium phosphite .......................... 60.0%
OTHER INGREDIENTS: ............................ 40.0%
TOTAL ............................................... 100.0%

Keep out of reach of children
CAUTION
See inside booklet for First Aid and additional precautionary statements.

NET CONTENTS: 2 1/2 quart pouches

MANUFACTURED BY:
PLANT FOOD SYSTEMS

PLANT FOOD SYSTEMS
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

In case of eye contact: 1. Hold eye open and gently wash with water for 15-30 minutes. 2. Remove contact lenses, if present, after first 5 minutes, then continue washing eye.

In case of skin contact: 1. Wash skin area with soap and water.

In case of ingestion: 1. Do not induce vomiting, call a poison control center or doctor for treatment advice.

NOTICE: Use of this product may result in skin irritation. Use protective clothing when mixing or applying this product.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applications and other handling must wear non-slip gloves and long sleeves, safety glasses or other protective eyewear. Follow manufacturer's instructions for cleaning/gloves and other personal protective equipment (PPE). Do not use the PPE for any other chemicals. Keep and wash PPE immediately after use.

HOT LINE NUMBER
Have the container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Poison Control Center (NPCC) at 1-800-222-1222 for emergency medical treatment information.

APPLICATIONS AND OTHER HANDLING
Verify proper compatibility of all pesticides before use. Always avoid contacting any pesticide with a contact insecticide. Avoid using pesticides that are harmful to aquatic organisms. Use protective clothing when applying pesticides. Do not apply any pesticide that contains a known or suspected carcinogen. Use personal protective equipment (PPE) according to the manufacturer's instructions. Always follow the manufacturer's instructions for cleaning and disposal of equipment. Do not use any pesticide that contains a carcinogen or any other hazardous substance. Use personal protective equipment (PPE) according to the manufacturer's instructions. Always follow the manufacturer's instructions for cleaning and disposal of equipment.

APPLICATIONS
Applications and other handling must wear non-slip gloves and long sleeves, safety glasses or other protective eyewear. Follow manufacturer's instructions for cleaning/gloves and other personal protective equipment (PPE). Do not use the PPE for any other chemicals. Keep and wash PPE immediately after use.

USER SAFETY RECOMMENDATIONS BOX
Use personal protective equipment (PPE) immediately. Keep it outside. Wash thoroughly after handling this product. See as soon as possible, wash thoroughly and changes into clean clothing.

ENVIRONMENTAL HAZARDS
For terminal use: Do not apply directly to water, to areas where surface water is present or to identifiable areas below the mean high water mark. Do not contaminate water when disposing of equipment. Do not contaminate water when disposing of equipment. Do not contaminate water when disposing of equipment. Do not contaminate water when disposing of equipment.

DIRECTIONS FOR USE
Carefully follow the instructions on the label and in the Material Safety Data Sheet (MSDS). If you mix or use this product in conjunction with other chemicals, make sure they are compatible. Always use the product as directed on the label. When mixing or applying this product, do not mix or apply it with any other product. Do not mix or apply it with any other product. Do not mix or apply it with any other product. Do not mix or apply it with any other product.

AGRICULTURAL USE REQUIREMENTS
Use the product in accordance with the safety and health rules of the Food and Drug Administration (FDA) or the Occupational Safety and Health Administration (OSHA). This product contains water-dilutable pesticides which are non-toxic to humans, animals, and other non-target species. It contains a slight amount of water-soluble materials which may be harmful to aquatic species. It contains a slight amount of water-soluble materials which may be harmful to aquatic species. It contains a slight amount of water-soluble materials which may be harmful to aquatic species.

NON-AGRICULTURAL USE REQUIREMENTS
The requirements of this label apply to uses of this product that are not within the scope of the Whole Food Standard (WFS) for pesticide labels. The WFS applies to this product and is subject to the regulations of the EPA. The WFS applies to this product and is subject to the regulations of the EPA. The WFS applies to this product and is subject to the regulations of the EPA.

GENERAL APPLICATION INSTRUCTIONS
Apple a 1:1000 to 1:5000 ratio for uniform application. Apply to non-target areas to avoid contact with the eyes or skin. Do not apply to plants that are in direct sunlight. Do not apply to plants that are in direct sunlight. Do not apply to plants that are in direct sunlight.

MIXING INSTRUCTIONS
1. Fill the spray tank with 1:1 of the required volume of water. 2. Add K-MITE TF to the tank and stir gently by hydraulic or mechanical means. 3. Continue to fill the tank with water to the desired volume while stirring. 4. Continue agitation when applying.

GENERAL PRECAUTIONS FOR APPLICATIONS THROUGH DRIP SPRINKLER AND Drip IRIGATION SYSTEMS
The system must contain a functional check valve, return flows, and a flow-restricting device to prevent water from entering the irrigation system. The flow-restricting device must be a physical restriction, such as a check valve, a filter, or a flow-limiting device. Do not apply this product through any other irrigation system.

**Application Program**

1. For spring/spring protection, apply at soil level before planting. Stir into soil to a depth of 2-3 inches.
2. For fall/fall protection, apply at soil level after planting. Stir into soil to a depth of 2-3 inches.
3. For disease management, apply at soil level at regular intervals throughout the growing season. Stir into soil to a depth of 2-3 inches.

**Preparation:**

- Thoroughly mix and distribute the granules into the soil. Be sure to cover the entire root zone. Avoid applying to leaves or foliage.

**Storage:**

- Store in a cool, dry place. Keep away from food, drink, and pet food.

**Safety:**

- Read and follow all safety instructions on the label. Wear appropriate personal protective equipment when handling.

**Notes:**

- Always check the local Extension Agent for the latest recommendations.
