Disinfectant – Sanitizer – Food Contact Sanitizer – Mildewstat – Viricide

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. Keep Out of Reach of Children. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD
This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, swamps, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority, for guidance contact your State Water Board or Regional Office or the EPA.

PHYSICAL OR CHEMICAL HAZARDS
Do not mix with oxidizers, ammonia soaps and detergents.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Open dumping is prohibited. Store in original container. Do not use empty containers. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representatives at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). To dispose of rinsates, follow the requirements of your State or Federal and/or local or Federal authorities. Do not use the equipment for any purpose other than the disposal of treated wastes. Some authorities require a licensed waste disposal facility, so verify with local authorities.

TOTE CONTAINER DISPOSAL: Verify that the tote is empty. Do not rinse or clean. Seal tote and contact supplier for return.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
This product is not for use on Medical device surfaces.
Before use in federally inspected meat and poultry processing plants and abattoirs, food products and packaging materials must be removed from room or carefully protected. A portable water rinse is not allowed following use of the product as a sanitizer on previously cleaned hard surfaces provided that the surfaces are adequately drained before contact with food so that little or no residue remains.

Apply this product with a cloth, mop or mechanical spray device. When applied with a mechanical spray device, surfaces must be sprayed until thoroughly wetted. Treated surfaces must remain wet for 10 minutes. For sprayer applications, use a coarse spray pump or trigger sprayer. Spray 6-8 inches from surface. Polish with brush, sponge or cloth. Do not use a pressure spray. NOTE: With spray applications, cover or remove all food products. A fresh solution must be prepared at least daily or when use solution becomes visibly dirty. For heated soiled areas, a preliminary cleaning is required.

DISINFECTION
For disinfecting floors, walls, counter tops and other hard non-porous surfaces.
Add 1.5 ounces of this product to 4.5 gallons of water (3.78 liters per gallon) (450 ppm active). Treated surfaces must remain wet for 10 minutes. At this use level, this product is bactericidal according to the AOAC Use Dilution Test method on hard inanimate surfaces modified in the presence of 5% organic serum against:
• Listeria monocytogenes
• Pseudomonas aeruginosa
• Staphylococcus aureus

Virucidal Performance: At 0.1 ounces per 4.5 gallons of this product, this product was evaluated in the presence of 5% serum with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces:
• Human Coronavirus
• Hepatitis A virus

General Disinfectant-Non-medical (sinks, restaurants, food services, laboratories, food preparation areas). 4.5 ounces of this product to 4.5 gallons of water (360 ppm active). This product is not to be used as a diagnostic disinfection, and dishes and eating utensils.
