DIRECTIONS FOR USE

KEEP OUT OF REACH OF CHILDREN

CAUTION. Causes irreversible eye damage. Causes skin burns. Harmful if inhaled. May be fatal if swallowed. Harmful if swallowed through the skin. Prolonged or frequent contact on skin may cause allergic reactions in some individuals. Causes asthma symptoms and is hyperreactive in individuals. Do not get in eyes, on, or in, clothing. Avoid breathing vapor. Do not wash eyes, skin, or clothing. Avoid contact with skin and clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and shoes.

DIRECTIONS FOR USE

PAPER MILLS AND MILL PAPER PROCESS WATER SYSTEMS

B.I.O. Blast 500 should be added to the paper making system at a point of uniform mixing such as the basin area, sump and Warmers) B.I.O. Blast 500 should be used at the same application rates, and in the same manner as (Evaporative Condensers, Dairy Sweetwater Systems, Hydrostatic Sterilizers and Retorts, and Pasteurizers

INTERMITTENT (SLUG DOSE) METHOD

Initial Dose: When the system is noticeably fouled apply 11.3 to 22.7 fluid ounces (100 to 200 ppm product) per 1,000 gallons of water in the system or 89 to 177 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system at a point of uniform mixing such as the basin area. Addition may be made to the system at any convenient point of uniform mixing such as the sump, beaten, broke chest pump, save-all tank, or white-water tank. B.I.O. Blast 500 should be added to the paper making system at a point of uniform mixing such as the basin area. Addition may be made to the system at any convenient point of uniform mixing such as the sump, beaten, broke chest pump, save-all tank, or white-water tank.

Subsequent Dose: When microbial control is evident, add 4.5 to 11.3 fluid ounces (40 to 100 ppm) of B.I.O. Blast 500 per 1,000 gallons of water in the system or 89 to 177 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day or 17.7 to 88.6 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day. Daily additions should be made until control is achieved or at a frequency determined by system performance.

CAUTION. Causes irreversible eye damage. Causes skin burns. Harmful if inhaled. May be fatal if swallowed. Harmful if swallowed through the skin. Prolonged or frequent contact on skin may cause allergic reactions in some individuals. Causes asthma symptoms and is hyperreactive in individuals. Do not get in eyes, on, or in, clothing. Avoid breathing vapor. Do not wash eyes, skin, or clothing. Avoid contact with skin and clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and shoes.

NOTE: For use in mixed cooling system only.

When microbial control is evident, add 4.5 to 11.3 fluid ounces (40 to 100 ppm) of B.I.O. Blast 500 per 1,000 gallons of water in the system or 89 to 177 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day or 17.7 to 88.6 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day.

NOTE: For use in mixed cooling system only.

When microbial control is evident, add 4.5 to 11.3 fluid ounces (40 to 100 ppm) of B.I.O. Blast 500 per 1,000 gallons of water in the system or 89 to 177 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day or 17.7 to 88.6 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day.

NOTE: For use in mixed cooling system only.

When microbial control is evident, add 4.5 to 11.3 fluid ounces (40 to 100 ppm) of B.I.O. Blast 500 per 1,000 gallons of water in the system or 89 to 177 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day or 17.7 to 88.6 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day.

NOTE: For use in mixed cooling system only.

When microbial control is evident, add 4.5 to 11.3 fluid ounces (40 to 100 ppm) of B.I.O. Blast 500 per 1,000 gallons of water in the system or 89 to 177 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day or 17.7 to 88.6 mL of B.I.O. Blast 500 per 1,000 gallons of water in the system per day.

NOTE: For use in mixed cooling system only.
