DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Badly fouled systems must be cleaned before treatment is begun.

PRE-CLEANING: To avoid unnecessary depletion of the GCO-10, pre-cleaning of heavily fouled systems is recommended. Mechanically remove as much reachable growth as possible with brushes and high-pressure hoses. Prevent loose material from plugging equipment by placing a screen fence around the opening for the return line. Flush loosened matter out basin drain. Pump or bucket sludges from sumps and hot/cold wells.

COOLING TOWERS/OPE REGCIRCULATING SYSTEMS - INTERMITTENT OR SLUG TREATMENT:

After pre-cleaning, turn off bleed for 4 to 12 hours. Do not use any other treatment during period of applying biocide. Initially slug feed GCO-10 to lower basin at 30 to 90 fluid ounces per 1000 gallons of system water. Repeat dosage if necessary to achieve control. When control is evident, open bleed off valve and return to normal treatment. Maintain control with subsequent GCO-10 treatments using GCO-10 at 30 to 90 fluid ounces per 1000 gallons of water. Frequency of treatment depends upon the system and local conditions.

CONTINUOUS FEED METHOD - Initial dosage: When the system is noticeably fouled, add 30 to 90 fluid ounces of GCO-10 per 1000 gallons of system water. Subsequently, maintain this level by pumping a continuous feed of 9 to 90 fluid ounces of GCO-10 per 1000 gallons of water in the system bypassed through a bypass valve.

AIR WASHERS - GCO-10 is used to control bacteria and slime in industrial air washers that are equipped with effective mist eliminators. After pre-cleaning, slug feed GCO-10 to pump or washer basin at 30 to 225 fluid ounces per 1000 gallons of system water. Repeat dosage if necessary to achieve control. Maintain system with subsequent treatments every 1 to 5 days using 30 to 225 fluid ounces per 1000 gallons of water. Frequency of treatment depends on system conditions. Alternatively, GCO-10 may be continuously fed to the system at the rate of 30 to 135 fluid ounces per 1000 gallons of system water.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

PECTICIDE STORAGE: Do not reuse empty container. Keep container closed when not in use.

PECTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. Open dumping is prohibited.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. First rinse with water to remove as much material as possible, then fill with water and agitate vigorously. Empty by inverting and shaking vigorously. Rinse container thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

OTHER INGREDIENTS:

ACTIVE INGREDIENT: Polyethylene [ethoxylated dimethylaminio ethylene (dimethylaminio) ethylene dichloride] .................................................. 1.70%

TOTAL: 100.00%

U.S. Patent No. 4,719,083

Caution: Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permits authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

KEEP OUT OF REACH OF CHILDREN

CAUTION:

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permits authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

EPA Registration No. 3635-273
EPA Establishment No. 3635-OH-001

FOR THE CONTROL OF MANY BIOFOULING ORGANISMS OCCURRING IN OPEN RECIRCULATING WATER COOLING TOWERS.

WHEN USED AS DIRECTED, INHIBITS CORROSION AND SCALE BUILDUP IN TREATED SYSTEMS.

BACTERIOSTAT AND ALGAECIDE

For Industry Use

ACTIVE INGREDIENT:

Polyethylene [ethoxylated dimethylaminio ethylene (dimethylaminio) ethylene dichloride] .................................................. 1.70%

OTHER INGREDIENTS: ............................................................................... 38.50%

TOTAL: 100.00%

U.S. Patent No. 4,719,083

Caution: Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permits authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

If in eyes:

Hold eyelid open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice.

Precautionary Statements

Toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permits authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
