Modified Vegetable Oil and Surfactant Blend

PRINCIPAL FUNCTIONING AGENTS
Methylated seed oil, polyether modified polysiloxane, alkylphenol ethoxylate ........................................ 100%
TOTAL ............................................................................................................................... 100%

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180

CA Reg. No. 7001-50016-AA

KEEP OUT OF REACH OF CHILDREN
CAUTION

Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal Protective Equipment: Wear protective eyewear (goggles or face shield), chemical-resistant gloves, long-sleeved shirt and long pants, shoes plus socks.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
Storage: Store above 32°F. Store away from heat or open flame and oxidizing materials.
Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

NET CONTENTS:
4 x 1 Gallons (13.92 Liters) / 1 Gallon (3.48 Liters)

GENERAL INFORMATION

SPRAY-SLICK is a unique blend of highly refined and modified spray oil and nonionic organosilicone. SPRAY-SLICK’s unique chemistry allows for enhanced wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve performance. The addition of SPRAY-SLICK to a spray tank solution will improve a spray application by physically modifying the wetting and spreading characteristics, the result being a more uniform spray deposit. Observe the initial application to insure thorough coverage without excessive runoff of the spray.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.
If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Have the product container with you when calling a poison control center, or doctor, or going for treatment.

MIXING

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water and begin agitation. If foaming is anticipated the addition of an antifoaming agent should be added before pesticides, nutrients, or SPRAY-SLICK. Add pesticides and/or fertilizers as directed by label or in the following sequence:

1) Micronutrients and fertilizers,
2) Dry flowables and dispersible granules,
3) Flowables,
4) Water soluble pesticides,
5) Emulsifiable concentrates. Continue agitation and add SPRAY-SLICK, when completed, reduce agitation and allow to mix for 1 to 2 minutes. While under minimal agitation, continue filling tank and allow to mix for 10 to 15 minutes prior to application.

NOTE: For optimum results, spray mixes containing SPRAY-SLICK should be applied within 36 hours.

DIRECTIONS FOR USE

SPRAY-SLICK is intended for use with pesticides that are labeled for agricultural and non-agricultural uses. Not for aquatic use. The use of SPRAY-SLICK can increase pesticidal activity where the following factors occur, but is not limited to: 1) When used in areas of the country with low relative humidity and high temperatures; 2) When used with low water volume rates of less than 15 gallons per acre; and 3) When target species are larger than label recommendations at time of application.

GROUND APPLICATION RATE: 3 to 5 pints per 100 gallons

NOTE: The application rates on this label are based on pesticide labels which recommend the use of a nonionic surfactant. Rates of this product may be increased or decreased for optimum results, follow pesticide labeling for proper recommendations. Before using SPRAY-SLICK where a nonionic surfactant may not be recommended the user or applicator advisor must have experience with the combination or must have conducted a phytotoxicity trial.

NOT FOR AQUATIC USE

SPRAY-SLICK is a trademark of J.R. Simplot Company

DISCLAIMER OF WARRANTIES

Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer’s option, as full discharge of seller’s liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees, or directions shall be valid or binding upon seller.
