**SHOCKWAVE**

**FOGGING CONCENTRATE**

- For use indoors and outdoors as a UV, space, area, contact spray or thermal fog for listed insects in areas specified on the label.
- Contains insect growth regulator similar to the naturally occurring insect growth hormones that interfere with insect growth and development.
- For use in and around the home and food and non-food areas of food processing plants and food service establishments.
- Provides flushing action and quick knockdown plus residual activity.

**ACTIVE INGREDIENTS:**

- Pyrethrins ........................................... 1.00%
- *Piperonyl butoxide, Technical .................. 2.00%
- **N-Octyl-4-(4-chlorophenyl)heptanamide ...... 2.87%
- Estenal (CAS #66230-04-9) .................... 0.22%
- 2-(1-methyl-1-phenylpropenyl) ethoxy pyridine .... 0.15%
- ***OTHER INGREDIENTS ......................... 93.83%

**Equivalent to 1.6% butoxycarb (16-propyl piperonyl) ether and 0.4% related compounds.**

**MGK® 264, Insecticide Synergist**

**Contains petroleum distillate.**

---

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part II. Avoid contamination of food or feedstuffs. Remove pets, birds, and cover fish aquariums before spraying.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and other wildlife. Do not apply directly to any body of water. Do not contaminate water when disposing of equipment washwaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not store near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**SEE BOOKLET FOR DIRECTIONS FOR USE**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**FIRST AID**

**IF SWALLOWED:** Immediately call a poison control center or doctor. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center for treatment advice.

**NOTE TO PHYSICIAN:** This product contains petroleum distillate and may pose an aspiration pneumonitis hazard. Have the product container or label with you when calling a poison control center or doctor, or giving for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not store near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS COMPLETELY BEFORE USE.

In Hospitals: Patients should be removed from room prior to treatment. Rooms should be ventilated for two hours after spraying. Do not return patients to room until after ventilation.

Do not use in nurseries or rooms where infants, ill, or aged persons are present.

**GENERAL:** Shockwave Fogging Concentrate is designed for use undiluted in mechanical sprayers, which gives particles of aerosol size. It can be diluted with refined lycopene, which meets Food Additive Regulation as defined by CFR Title 21, §172.884, and applied in fogging equipment that gives larger than aerosol particle size. It can also be diluted with the oil specified above and applied as a contact spray to kill crawling insects shown later on this label.

Do not apply directly to food. Do not allow spray to contact stored food or food contact surfaces. Do not apply as a space spray while food processing is underway. Cover or wash all food processing surfaces and equipment with an effective cleaning compound followed by a potable water rinse. In the home, cover all food processing surfaces, dishes and utensils before treatments or thoroughly wash before use following treatment.
**INDOOR AREAS for use in and around:**

- Animal Areas & Quarantines
- Animal Control Centers

- Skippers
- Small Flying Moths
- Stable Flies
- Ticks
- Ticks that may carry and transmit Lyme disease
- Tobacco Moths
- Warehouse Beetles
- Wasps
- Waterbugs
- Yellow Jackets
- Yellow Mealworms

FOR INDOOR USES

SPACE SPRAY APPLICATIONS ARE ONLY FOR USE IN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

FOR USE IN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:

A food handling establishment is an area or place other than a private residence in which food is held, prepared, preserved and/or served.

Do not apply while the food area is in operation.

Remove or cover exposed food and food handling surfaces.

Do not allow spray to contact stored food.

Close doors and shut off all air conditioning or ventilating equipment.

Do not allow adults, children, or pets to enter the treated area for at least 15 minutes, until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

Only protected handlers may be in the area during application.

Do not remain in treated area. Exit area immediately and remain outside the treated area until vapors, mists, and/or dusts have dispersed.

Remove or cover exposed food and drinking water before application.

Remove or cover clothes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

Do not apply more than 1 time per day.

As Uniluted Space Spray Application:

For application in food areas of food handling establishments:

<table>

<th>Pest</th>
<th>Application Rates</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>SHOCKWAVE® Fogging Concentrate with 5 parts of a suitable oil. Using a power or proportioner-type sprayer, apply a uniform spray at pressures of 80-100 pounds per square inch to walls, posts, cage framing (birds grown in cages only). Application should also be made into cracks and crevices in and around insulation. One gallon of diluted spray covers 1,000 sq. ft.</td>
<td>SHOCKWAVE® Fogging Concentrate can be applied to litter, such as poultry houses infected with litter beetles. Remove animals prior to treatment. Treat surfaces after animals are removed. Treat walls and floors and all areas where beetles frequently occur. Do not contaminate food/ feed or water. Reapply after each growout or sanitation procedure. Indoor control can be enhanced by making perimeter treatments around the outside of building foundations to prevent immigrating adult beetles. Apply SHOCKWAVE® Fogging Concentrate in a uniform band at least 1 foot up and 1-4 feet out from foundation. Maintaining a year-round treatment program will prevent background populations from reaching problem levels.</td>
<td></td>
</tr>
</tbody>
</table>

### For applications in zoos:

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>Flies, gnats, mosquitoes, small flying moths</td>
<td>As a space spray diluted for use in conventional mechanical fogging equipment, dilute 1 part SHOCKWAVE® Fogging Concentrate plus 29 parts oil (refined kerosene) and mix well. Apply at a rate of 1 fluid ounces per 1,000 cubic feet of space above the animals.</td>
<td>Direct spray towards the upper portions of the enclosure filling the room with mist. Keep area closed for at least 15 minutes. Vacate treated area and ventilate before occupancy. Repeat treatment when reinfection occurs. Do not contaminate animal foods, feed or water by application or drift.</td>
</tr>
</tbody>
</table>
FOR APPLICATIONS IN RESIDENTIAL / COMMERCIAL SETTINGS, INCLUDING NON-FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

A food handling establishment is an area or place other than a private residence in which food is held, processed, prepared, and/or served. Non-food areas of food handling establishments include garbage rooms, lavatories, floor drains (to sewer), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling).

Applications within residential and non-residential buildings include homes, apartment buildings, kennels, and non-food areas of industrial and commercial buildings such as hospitals, hotels, warehouses, truck trailers, railroad cars, theatres, office buildings, schools, and other sites as listed.

Do not apply this product as a space spray in any residential or commercial settings, as listed above. Space sprays are ONLY allowed in food areas of food handling establishments.

Do not allow adults, children, or pets to enter the treated area at least 15 minutes, until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

Only protected handlers may be in the area during application.

Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed.

**As Diluted Surface Spray Application:**

<table>
<thead>
<tr>
<th>Pest</th>
<th>Application Rates</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>To control accessible stages of: Ants, Drugstore Beetles, Earwigs, Cockroaches, Silverfish, Beetles, Box Elder Bugs, Clover Mites, Crickets and other listed insects</td>
<td>Dilute in a range of 1 part SHOCKWAVE® Fogging Concentrate plus 2.25 parts suitable diluent to 1 part concentrate plus 29 parts suitable diluent, mix well and apply as a coarse wetting spray using approximately 1 gallon of spray mixture per 750 square feet of surface.</td>
<td>May be used only when the facility is not in operation, provided exposed food is covered or removed from the area being treated prior to application. To ensure maximum control of listed crawling insects, spray thoroughly into all cracks, including, crevices, walls, floors and other surfaces, storage and handling areas. Particular attention should be paid to areas where moisture collects such as drains, sinks and water pipes, around the base of heavy machinery and equipment contacting as many insects as possible. For ants: spray directly into nests, along trails, and directly on all ants observed.</td>
</tr>
</tbody>
</table>

**For applications in transit protection:** truck beds, boxcars, ships holds, and other listed transit equipment before loading.

<table>

<td>Spray thoroughly treat walls and floors. Spray each layer of cartons or containers tightly as stacked.</td>
</tr>
</tbody>
</table>
FOR OUTDOOR USES:

Do not water the treated area to the point of runoff.
Do not make applications during the rain.
Do not allow adults, children, pets or other pets to enter the treated area for at least 15 minutes until sprays have dried.
Do not apply this product in a way that will contact workers or other persons, either directly or through drift.
Only protected handlin may be in the area during application.
Do not apply to any fruit or nut bearing trees, shrubs, vines, or plants.
Do not apply as a spray or broadcast application to turf other than small spot treatments around structures.
Do not use this product for area-wide mosquito adulticiding applications.

All outdoor applications are limited to building surfaces and spot treatments on structures.

</tbody>
</table>

NOTE: When using oil as the diluent, an odorless light petroleum hydrocarbon as defined by CFR Title 21, 172.884 should be used for all food area and food related applications. Additionally, when diluted and used according to label directions, this spray will meet specifications for use under USDA meat, poultry, shell egg grading, and egg products inspection programs.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL: To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container; Triple rinse container (or equivalent) promptly after emptying. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill.

Triple Rinse as Follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¾ full with water and recirc. Shake for 10 seconds. Pour mixture into application equipment or a mix tank or store tin for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.
