FIRST AID (continued)

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or
  an ambulance, then give artificial
  respiration, preferably by mouth-to-
  mouth, if possible.
• Call a poison control center or doctor
  for further treatment advice.

HOT LINE NUMBER
Have the product container or label with you when calling a
poison control center or doctor, or going for treatment. You
may also contact the National Pesticide Information Center at
(800) 858-7378 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, absorbed through skin, or
inhaled. Avoid contact with skin, eyes, or clothing. Avoid breathing
dust or spray mist. Wear long-sleeved shirt and long pants,
waterproof gloves and shoes plus socks. Wash thoroughly with
soap and water after handling. Remove contaminated clothing
and wash clothing before reuse. Keep all persons, children and
pets out of treated area until sprays have dried.
ENVIRONMENTAL HAZARDS
Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL BEFORE USING THIS PRODUCT.

MODE OF ACTION:
BI-CARB OLD FASHIONED FUNGICIDE is a fungicide containing microencapsulated potassium bicarbonate as the active ingredient. BI-CARB OLD FASHIONED FUNGICIDE is a contact fungicide, so direct contact with the fungus organism is required for control. BI-CARB OLD FASHIONED FUNGICIDE disrupts the potassium ion balance in the fungus cell, causing the cell walls to collapse.

APPLICATION DIRECTIONS:
For residential use. Apply with a hand-held sprayer making sure to spray foliage thoroughly. Contact of the disease organism is essential for control. Use a non-acidifying spreader/sticker such as Monterey - Nature's Own Spray Helper. In addition, users can also use a non-phytotoxic crop oil.
RATE: Mix 4 teaspoons of BI-CARB OLD FASHIONED FUNGICIDE in 2 gallons of water to thoroughly cover foliage. For LAWN applications, mix 4 teaspoons of BI-CARB OLD FASHIONED FUNGICIDE in 2 gallons of water to cover 1,000 square feet.

MIXING: Fill the spray tank 1/2 full with the required amount of water; add BI-CARB OLD FASHIONED FUNGICIDE slowly; then, continue filling with balance of water. Add the spreader/sticker and/or other products last. DO NOT allow mixture to stand. Use within 24 hours as BI-CARB OLD FASHIONED FUNGICIDE may lose its activity if left in the tank.

COMPATIBILITY: BI-CARB OLD FASHIONED FUNGICIDE is compatible with most crop protection products and nutrients. However, do not mix it with highly acidic products as the effectiveness of BI-CARB OLD FASHIONED FUNGICIDE may be compromised. Use of a buffering agent for acidification of a mixture can decrease the effectiveness of BI-CARB OLD FASHIONED FUNGICIDE. If compatibility is in question, use the compatibility jar test before mixing a whole tank. Because of the wide variety of possible combinations that can be encountered, observe all precautions and limitations on the label of all products used in mixtures.
TIMING: Begin application at first sign of disease. Repeat applications as new growth or infection occurs or as favorable disease conditions continue. Use in an Integrated Pest Management rotation program at 7-10 day intervals with other effective fungicides for resistance management. Apply BI-CARB OLD FASHIONED FUNGICIDE up to the day before harvest for all labeled uses. For post-harvest, apply BI-CARB OLD FASHIONED FUNGICIDE to remaining foliage to decrease overwintering inoculum.

USER: For the control of powdery mildew, use BI-CARB OLD FASHIONED FUNGICIDE as indicated on the following:

<table>

LEAFY VEGETABLES such as endive, head and leaf lettuce, radicchio, spinach, Swiss chard

LEGUME VEGETABLES (succulent or dried) such as bean, pea

ROOT and TUBER VEGETABLES such as beet, carrot

* NOTE TO USER: Unintentional consequences such as plant injury may result due to certain environmental or growing conditions, manner of use or application. Because plant tolerance of pesticides varies as conditions vary, treating a few plants under conditions expected to be encountered and observing for plant damage prior to full-scale application to large numbers of plants will avoid any unintentional consequences.
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: To be stored in original container and placed in an area inaccessible to children and pets.

Container Disposal Instructions: If empty: Do not reuse this container. Place in trash or offer for recycling if available.
If partially filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with directions under normal use conditions. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. Seller makes no other warranties, either express or implied.
