**Sklar Disinfectant Surface Wipes** effectively kills the following microorganisms at room temperature with a 3-minute contact time:
- Acinetobacter baumannii, Avian Influenza A Virus*, Hepatitis B Virus* (HBV), Hepatitis C Virus* (HCV), Herpes Simplex Virus 1 & 2* (HSV 1 & 2), Human Immunodeficiency Virus* (HIV-1&2) (associated with AIDS), Influenza Virus* Strain A2/Hong Kong, Methicillin-Resistant Staphylococcus aureus (MRSA), Mycobacterium bovis, BCG (tuberculosis) (TB), Polio I Virus*, Pseudomonas aeruginosa, Rhinovirus*, Rotavirus* Strain WA, Salmonella enterica, Staphylococcus aureus and Vancomycin-Resistant Enterococcus faecium (VRE).

This product has demonstrated effectiveness against Influenza A Virus* and is expected to inactivate all Influenza A Viruses including Pandemic 2009 (H1N1) Influenza virus.

### Directions for Use

- **DO NOT USE THIS PRODUCT AS A BABY OR SKIN WIPES**, OR ON CONTACT LENSES!

Sklar Disinfectant Surface Wipes are disposable, single-use wipes pre-saturated with Sklar disinfectant solution.

When used as directed Sklar Disinfectant Surface Wipes clean and disinfect surfaces found in blood centers, cardiac extubation tables, dialysis units, esthetician facilities, hospitals, medical offices, surgical centers, laboratories, intensive care units, isolation rooms, neonatal units, nursing homes, ophthalmic centers, EMS units, skin care facilities, respiratory care units, and areas/facilities concerned with the hazards of cross contamination.

May be used on devices/surfaces potentially contaminated with disease-causing microorganisms and use sites made of glass, metal, Plexiglas®, plastics (i.e., polycarbonate, polypropylene, polyvinylchloride and polyurethane), backed-on painted surfaces, stainless steel and non-porous vinyl.

**Dispensing Directions:** To start feed, remove cover and discard seal. From the center of the wipe roll, pull up wipe corner, twist it into a point and thread it through the hole located on the container cover. Pull through about one inch. Replace cover. Pull out first wipe and tear off at an angle. Remaining wipes feed automatically ready for the next use. When not in use, keep center cap closed to prevent evaporation.

**Cleaning and Disinfection Instructions:** Use a fresh Sklar Disinfectant Surface Wipes to pre-clean surfaces of all gross filth and heavy soil. Repeat as necessary until surfaces are visibly clean. To effectively disinfect the pre-cleaned surfaces, use a new Sklar Disinfectant Surface Wipes to thoroughly wet the surfaces and allow surfaces to remain wet for 3 minutes at room temperature. Use enough wipes to ensure that the surface remains wet for the three-minute contact time. Allow surfaces to air dry before use, or if desired, rinse surface after 3 minutes using potable water and wipe or air dry. For disinfection of Avian Influenza A, use this product only for surfaces that are not conducive to treatment by immersion or excision liquid (e.g., equipment tables, lab benches and similar "high touch" surfaces). Food preparation surfaces must be rinsed with potable water prior to use.

### Storage and Disposal

**Dispenser:** Store in a cool, well-ventilated area. Product and Container Disposal: Dispose of wipe in trash after use. Do not flush. Tightly close lid between uses to retain moisture. Nonrefillable Container. Do not reseal or refill this empty container. Offer empty container for recycling. If recycling is not available, discard container in trash.

### Precautionary Statements

**Hazards to Humans and Domestic Animals**

CAUTION: Harmful if inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

**FIRST AID:** If inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-235-3024 for emergency medical treatment information.

**Physical or Chemical Hazards**

Do not use or store near heat or open flame.
