READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON CATS

Hartz UltraGuard Ear Mite Treatment for Cats offers relief for cats suffering from ear mites. Cats that have ear mites will typically shake their heads and scratch their ears frequently. Ear mites live in the ear canal of the animal and cause a brown, waxy debris to be formed. Ear mites may be detected by placing some of the waxy debris on a dark surface and carefully watching for the movement of tiny white specks away from the debris. Inflamed, watery, or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION
HUMANS: Harmful if swallowed. Avoid breathing vapors. Avoid contact with eyes. Wash hands with soap and water after using. ANIMALS: Avoid contact with eyes. If in eyes, flush with water. Do not use on any般 or milk-producing animals. Sensitivities may occur after using any pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To Kill Ear Mites:
1. Remove one applicator tube from package and hold in an upright position.
2. Peel off cap. Turn the cap around and place on top of tube.
3. Simply press cap down to unhook the seal of the tube and remove cap carefully.
4. Position the tip of the tube at the base of the pet's ear. Gently hold ear and fill each ear canal with labeled number of drops.
5. Massage base of ear to insure insecticidal action penetrates ear wax.
6. Gently dry with a cotton ball, soft cloth or cotton ovate.
7. After application, simply invert the cap of the tube and snap back on the tube for easy closure.

FIRST AID
Call a poison control center or doctor immediately for treatment advice.

IF SWALLOWED:
• Have person sip a glass of water to help swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF INHALED:
• Move victim to fresh air.
• If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably by mouth-to-mouth, if possible.

IF IN EYES:
• Hold eyes open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

HOT LINE NUMBER
Have the container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-275-1414 for emergency medical treatment information.

BODY WEIGHT
