**Gordon's Grub No-More Granules**

**GRANULES**

**ONE APPLICATION STOPS GRUBS ALL SEASON LONG**

**USE SPRING THROUGH LATE SUMMER**

**ACTIVE INGREDIENT:**
- Imidacloprid: 0.2%

**OTHER INGREDIENTS:**
- 99.8%

**TOTAL:**
- 100.0%

Active ingredient: 0.2% imidacloprid. CAS Registry No. 138261-41-3.

**FOR OUTDOOR RESIDENTIAL USE ONLY.**

Not for sale into, distribution and/or use in Nassau, Suffolk, Kings and Queens Counties of New York State.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**NET WEIGHT:**
- 30 POUNDS

**See back panel for additional Precautionary Statements and Directions for Use (including First Aid and Storage and Disposal).**

**525/10 2015**
Do not apply this product when turf areas are waterlogged. The product may not work effectively under these conditions.

**How Much to Apply:**

Per control of white grubs, this product should be applied at the rate of 2.27 pounds of product per 1,000 square feet. For more vivid control, apply 3.9 pounds of product per 1,000 square feet. Table 1 can be used as a guide for applying the proper rate of this product. However, the application rate can vary depending on the soil condition of the sprayer. For best results, use a normal, steady pace when applying to obtain an accurate, even application.

Settings are approximate. The condition of your sprayer, the speed at which you walk, and uneven terrain may affect the rate of application. Calibrate your sprayer according to manufacturer's directions.

Tips: 1,000 sq. ft. = 20 ft. x 50 ft.

Do not use a sprayer that applies granules in narrow, concentrated or narrow bands. Be sure the spreader works properly and spreads granules evenly.

**APPLICATION TO LANDSCAPE PLANTINGS**

(Trees, Shrubs, Evergreens, Flowers, Groundcovers)

**Pests Controlled:**

White grubs (including larvae of Japanese beetle, Oriental beetle, chafers, Atlantic garden beetle, May and June beetle, and black turfgrass weevil)

**How to Apply:**

Apply as a broadcast treatment to soil, mids, or other substrates. Prior to application, remove all plastic from area to be treated to allow water to penetrate into the soil. Permitted weed barriers need not be removed prior to application.

**Application:**

Apply this product when turf is well watered. If material is worked into the soil around plants or if through watering or rainfall occurs within 24 hours after application, move the product down through mids and into the soil.

When to Apply:

The best control of grubs will be obtained if this product is applied before grubs begin to hatch. For best results, application should occur from April through mid-August. DO NOT APPLY TO WATERLOGGED AREAS. Imidacloprid may not work effectively under these conditions.

**How Much to Apply:**

This product should be applied at the rate of 2.27 pounds of product per 1,000 square feet. This 50-pound bag will treat 18,000 square feet of landscaped plantings. However, the application rate can vary depending on the speed of application and the condition of the sprayer.

**NOTE:** DO NOT apply this product to vegetable gardens.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**STORAGE CONDITIONS:** Store in original container in a cool, dry area out of the reach of children, preferably a locked storage cabinet.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING:**

Inert materials: Do not reuse or refill this container. A sprayer: Place in trash or for recycling if available. A plastic sealed container and empty container may be filled. Call your local solid waste agency for disposal instructions. Never place unused product into the legend as it is hazardous.

**LIMITED WARRANTY AND DISCLAIMER**

FOR USE ONLY AS DIRECTED. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY EXPRESSLY DISCLAIMED. IN NO CASE SHALL THE MANUFACTURER BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. IF THESE TERMS ARE NOT ACCEPTABLE, RETURN THIS PRODUCT UNOPENED IMMEDIATELY TO THE POINT OF PURCHASE, AND THE PURCHASE PRICE WILL BE REFUNDED IN FULL. THIS LIMITED WARRANTY AND DISCLAIMER ARE NOT AWRITABLE OR VERBAL STATEMENTS OR AGREEMENTS OF ANY KIND AND ALL OTHER RIGHTS ARE TERMINATED.

**Read the entire label. First, observe all precautions and follow directions carefully.**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

**FIRST AID**

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present. After first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Call a poison control center or doctor for further treatment advice.

If the product contains latex or with you when calling a poison control center or doctor, or going for treatment. Call a poison control center or doctor for treatment advice. In case of emergency call 911 or 877-847-5556.

Activator 9.2% imidacloprid, CAS Registry No. 136001-14-3.

**Note to Physician:** This product is non-irritating. Its effect is systemic. It is not a contact or residual agent.

**ENVIRONMENTAL HAZARDS**

This product is highly toxic to aquatic invertebrates. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washer.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read all Directions For Use and Conditions of Sale before using.

For residential use on lawns and landscaped areas.

Do not apply this product by any application method, to limber, hawserwood or other fescue species in the state of Oregon.

**APPLICATION TO LAWNS:**

While grubs can cause extensive damage to turf by feeding on grass roots. Affected turf turns yellow, then brown, and is easily pulled up in pieces with your hands. Mole crickets can similarly damage lawns by their burrowing activity. Some species also feed on the grass roots, as well. This product prevents turf damage by killing grubs and mole crickets when they are newly hatched and before they can cause turf damage.

This product works best when applied before grubs and mole crickets hatch. The active ingredient will remain in the root zone of the soil until the eggs of grubs or mole crickets hatch. These newly hatched insects are highly susceptible to imidacloprid, and are killed before they become large enough to cause turf damage. This product can be applied in broadcast applications containing flowers, groundcovers, shrubs and trees.

Before you have questions regarding the best time to make applications in your area, you can consult your local County University Extension Office. Be sure that you describe the products you are using when asking such advice.

**Pests Controlled:**

White grubs (including larvae of Japanese beetle, Oriental beetle, chafers, Atlantic garden beetle, May and June beetle, and black turfgrass weevil)

**How to Apply:**

Using either a drop-type or rotary-type spreader: apply this product uniformly over the area being treated. Avoid the use of spreaders which may apply the product in narrow, concentrated or uneven bands. Calibrate your sprayer according to the sprayer manufacture's directions to ensure the proper amount if this product is applied. Check frequently to be sure spreader is working properly and spreading granules evenly.

**After Applying:**

This product will work best if the lawn is watered thoroughly or it rains within 24 hours after application to move the active ingredient through the thatch and down into the soil. Avoid moving lawns until watering or rainfall has soaked the soil so that the uniformity of the granules is not disturbed.

**When to Apply:**

This product works best when applied before grubs and mole crickets hatch.

**For Results, apply as follows:**

**When to Apply:**

Apply once, any time from April through mid-August.

**When to Apply:**

Apply once from early April through early May, elsewhere, apply once from mid-May through mid-June.
