Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General:
Animals use urine to communicate in the wild. When they repeatedly smell a predator's odor, animals avoid it. Shake-Away Coyote Urine Granules create the illusion that coyotes are present in your lawn or garden.

Application Directions:

Use Restrictions: This product is not for direct application to plants intended for human consumption (i.e., food plants). Apply only to the perimeter of where food plants are grown. To create a repellent barrier, apply this product in soil, ground cover, bark mulch, perennials, and woody vegetation adjacent to food plants.

General use in yards, around gardens: Apply Shake-Away Coyote Urine Granules twice a week for the first two weeks, then every month for maintenance. Spray Shake-Away Coyote Urine Granules lightly in and around areas where animals are causing damage, or in areas you want to protect. Allow up to two to three weeks for Shake-Away Coyote Urine Granules to take full effect.

Coverage:
Each bottle of Shake-Away Coyote Urine Granules will cover up to 600 linear feet for 20 oz. bottles when applied as directed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Storage: Store in a cool, dry place.

If spilled:
- Do not reuse this container. Place in trash or offer for recycling if possible.

There's a Shake-Away product for every situation.
