**Precautionary Statements**

**Hazards to Humans and Domestic Animals**

**Danger - Corrosive**

Causes irreversible eye damage and skin burns. Eye contact may cause loss of vision. Irritating to nose and throat. May be fatal if inhaled. Harmful if absorbed through skin or swallowed. Do not breathe dust or spray mist. Do not get in eyes, on skin or on clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear goggles with side-shields, face shield or safety glasses; protective clothing and rubber gloves. Wear a mask or respiratory protector jointly approved by Mine Safety and Health Administration and the National Institute for Occupational Safety and Health. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**Environmental Hazards:** This product is toxic to fish and aquatic organisms. Chemical and physical hazards: Strong oxidizer, mix with water only. Reaction with combustible organic materials, bases, moisture or with oxidizers may generate heat, hazardous gases and, possibly, fire or explosion. Do not add to dispensers or other equipment that is not dry and clean of any chemical residues. Does not burn, but will decompose from about 200°F (160°C), releasing toxic gases. Do not break or crush tablets and avoid exposure to dust.

**Special Precautions, Please Read Before Opening Container - Misuse May Result in Serious Personal Injury Requiring Hospitalization. Related Complications May Lead to Death.**

**Prevention of Physical Injury:**

1. This product emits a powerful bromine gas. Do not open container indoors. Hold away from face when opening to avoid breathing fumes.
2. Mixing with other chemicals may cause a violent and instantaneous chemical reaction. Do not add this product to water in a pool. Do not add water to this product in a pool.
3. Follow label instructions exactly. Do not take advice from others. Do not experiment.

**Prevention of Property Damage:** Contact between this product and its undissolved state and vinyl liners, painted surfaces or other property in or around the spa will result in permanent blanching of the color.

**Do Not Ship With Foods, Feeds, Drugs, or Clothing.**

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Keep pH between 7.2 and 7.6 and never allow it to fall below 7.0.

The treatment necessity for your spa will change considerably depending upon those factors that burden the disinfection system. Some of the factors that will vary the requirements for treatment are: water temperature, exposure to windblown debris, thunder or rain storms and length of filtration cycle.

**Spas and Hot Tubs:** Before initiating using Brominating Tablets in your spa or hot tub you will need to add 1/2 oz. of sodium bromide for each 100 gallons of water. The same treatment should be followed each time you drain and refill your spa or hot tub with fresh water. Introduce 3 tablets per 300 gallons of spa water with the use of a floating feeder or automatic brominator installed on the spa equipment. Adjust tablet feeder or brominator to obtain an active bromine residual of at least 2 ppm. Maintain spa by adding 2 tablets per 300 gallons every 5-7 days or as needed to maintain an active bromine residual of 2 ppm at all times. Spa water has a tendency to foam and cloud; this is directly proportional to the amount of spa use. Cloudiness is due to the accumulation of body fats, oils and contaminants too small for the filtration equipment to remove, and is linked to rapid escalation of total dissolved solids in the water. In the great extent, defoamers, clarifiers, as well as shock treatments, demineralizers, or sequestering agents are used to clear the water. When water clarification can not be achieved, draining, cleaning, and refilling the spa is recommended.

**Storage and Disposal**

Do not contaminate water, food, or feed by storage or disposal.

**Storage:** Keep this product dry in the tightly closed, original container when not in use. Store in dark, cool (below 86°F/30°C), dry, well-ventilated area. Keep product away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or your Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Handling:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

**Spills:** When handling or dealing with spills, use impact-resistant goggles with side-shields, or face shield, body-covering clothes, including impervious rubber or plastic gloves and boots; use a dust respirator if dusting occurs. Sweep up dry spills and dispose of as described for possible disposal. If drum contents are contaminated or decomposing, do not recall container, isolate spilled material in the open or in a well-ventilated area; flood with large volumes of water if necessary.

In Case of Fire: Do not use ammonium phosphate extinguisher near water and Brominating Tablets. Hazardous reactions may occur.

**Do Not Smoke, Drink, or Eat When Handling This Product.**

**Keep Container Tightly Closed When Not in Use.**

**Bromine Tablets 2lb.**

**Sanitizer For Spas**

**Bactericide-Algaeicide-Disinfectant - No Chlorine Odor**

**Active Ingredient:**

BromoTriChloro-5, 3-dichloro-4-benzotriazole

**Other Ingredients:**

2% Total

**Provides:** 64.9% Available Bromine

29% Available Chlorine

**Keep Out of Reach of Children. Danger Corrosive and Strong Oxidizer.**

**First Aid**

**If In Eyes:** Hold open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If On Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container with you when calling a poison control center or doctor, or going for treatment.

**Note to Physician:** Probable moral damage may contraindicate the use of gastric lavage.

**Warranty**

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.

**Use With Adequate Ventilation - Wash Thoroughly After Handling.**
